ANYWHERE ADVENTURE ABOUNDS

Since 1990, Sea to Summit has been your ally in every adventure—whether that’s on the deck of your sailboat or on a high-altitude expedition.

Designed to be the perfect balance of clever, packable and light, our award-winning products encourage self-reliance on any terrain.

Our love of the outdoors and our relentless pursuit of design perfection is what drives us. That’s why you can find our gear in the backpacks of explorers everywhere—from our home in Western Australia to the snowy mountains of Europe and the vast trails of North America.

INTRODUCING ALTO + TELOS

Ultralight backpacking tents with
more space, superior ventilation
and unmatched versatility

*'The Telos TR2 is the sort of tent we've been
dreaming about, which makes its arrival feel
like an answered prayer.'*

– Backpacker Magazine

*'By taking an intensive approach to the design
of every feature, Sea to Summit made its new
tents some of the most habitable available.'*

– Gear Patrol

ALTO + TELOS TENTS

Award-winning, ultralight backpacking tents with more space, superior ventilation and unmatched versatility.

ALTO TR

TELOS TR

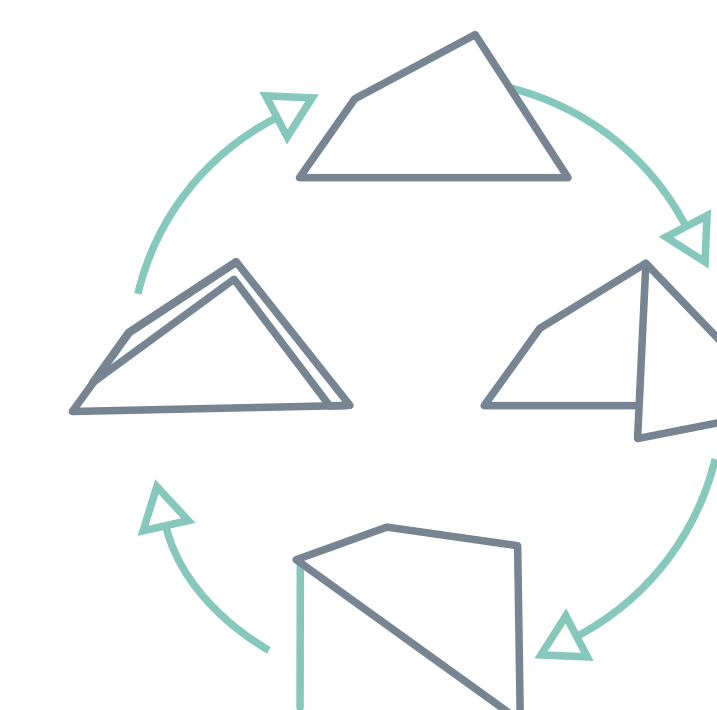

MORE SPACE

Tension Ridge architecture delivers a better space-to-weight ratio than any tent in its class.

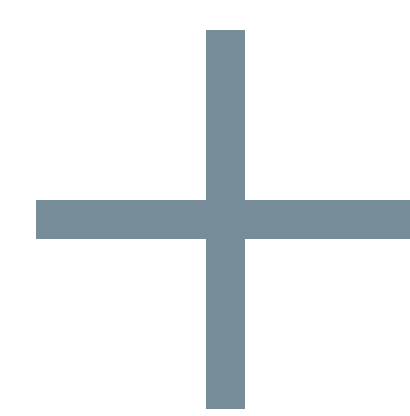

SUPERIOR VENTILATION

An advanced venting system improves airflow and reduces condensation.

UNMATCHED VERSATILITY

Multiple configuration options means our tents adapt to the weather or your activity.

REVOLUTIONARY TENSION RIDGE ARCHITECTURE

Where most tent poles angle down, the Tension Ridge angles up to achieve exceptional height and space.

TENSION RIDGE

ARCHITECTURE BY JAKE LAH

HIGH CEILINGS

Tall campers rejoice! Tension Ridge creates greater height across the whole tent—not just in one spot.

VERTICAL WALLS

No aggressively tapered walls here—just plenty of room for thicker modern sleeping mats.

APEX VENT

Unlike most, our Apex vent is at the highest point of our tents—the perfect position to expel moist warm air and minimise condensation.

TALL DOORS

Get in and out of your tent with ease and enjoy expansive views outside.

OUR TENSION RIDGE
TENTS FEATURE:

INTRODUCING HANGOUT MODE

Convert your tent’s fly into a semi-open shelter—perfect for group meals, socialising and staying undercover. Featured in all our Telos models, simply set-up with trekking poles or the Hangout Mode Pole Set (available separately).

QUICK-CONNECT TENT FEET

Machined aluminium clip attaches and tensions the fly with one-handed ease—much stronger than breakable plastic buckles.

FAIRSHARE STORAGE SYSTEM

Tent packs into three stuff sacks to split the load—after set-up, stuff sacks transform into gear storage pockets.

COLOUR-CODED DAC POLES

The gold standard in tent poles—our tents combine DAC Featherlite NFL, NSL and PRESSFIT sections.

GROUND CONTROL
LIGHT TENT PEG

Lightweight, strong and versatile—our unique TriPoint tent pegs maximise grip in almost any ground.

LIGHTBAR

Add a headlamp and secure the tent pole storage sack to the apex of the tent for soft, even illumination.

MULTIPLE SET-UP MODES

Our tents easily adapt to suit your adventure, weather conditions and weight requirements.

TENT FOOTPRINTS

The minimalist Lightfoot covers the outline of your tent tub floor while the full coverage Bigfoot extends to include vestibules.

Protect your tent floor from abrasion, tears and dirt with our durable and lightweight footprints.

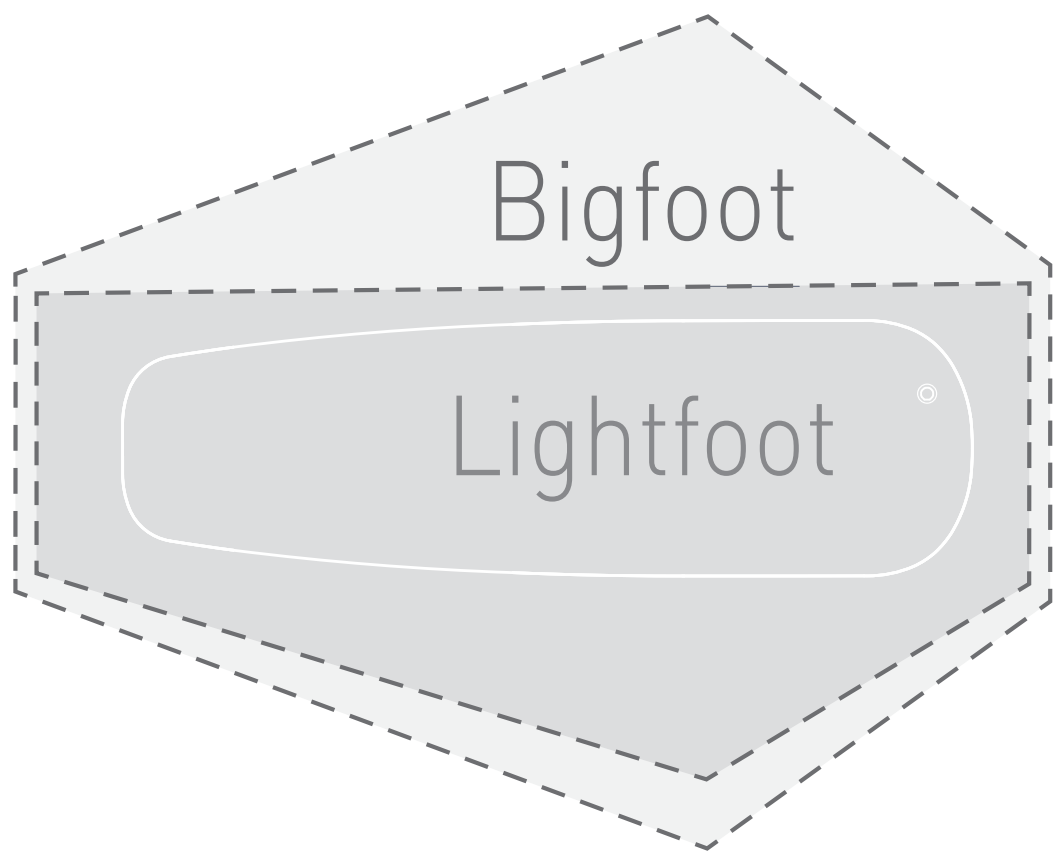

Perfect fit for an easy Fly Only tent set-up

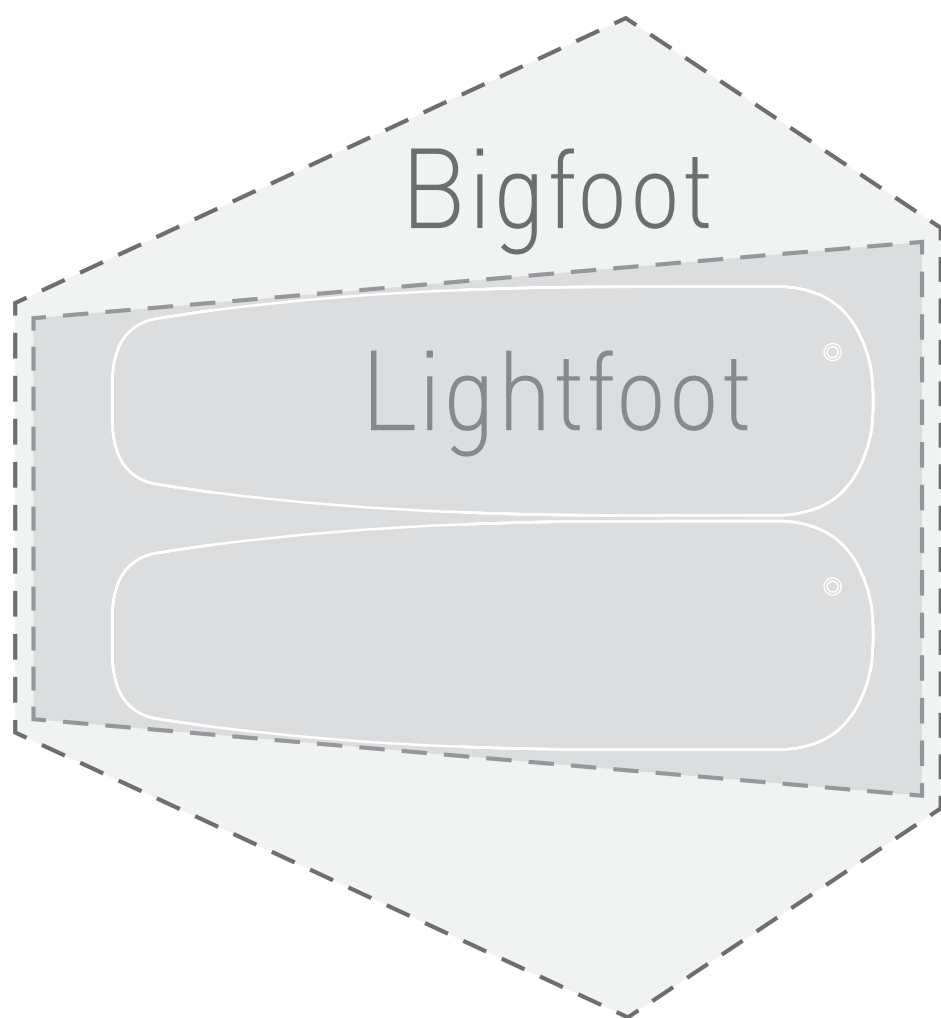

Comes with a lightweight storage pouch

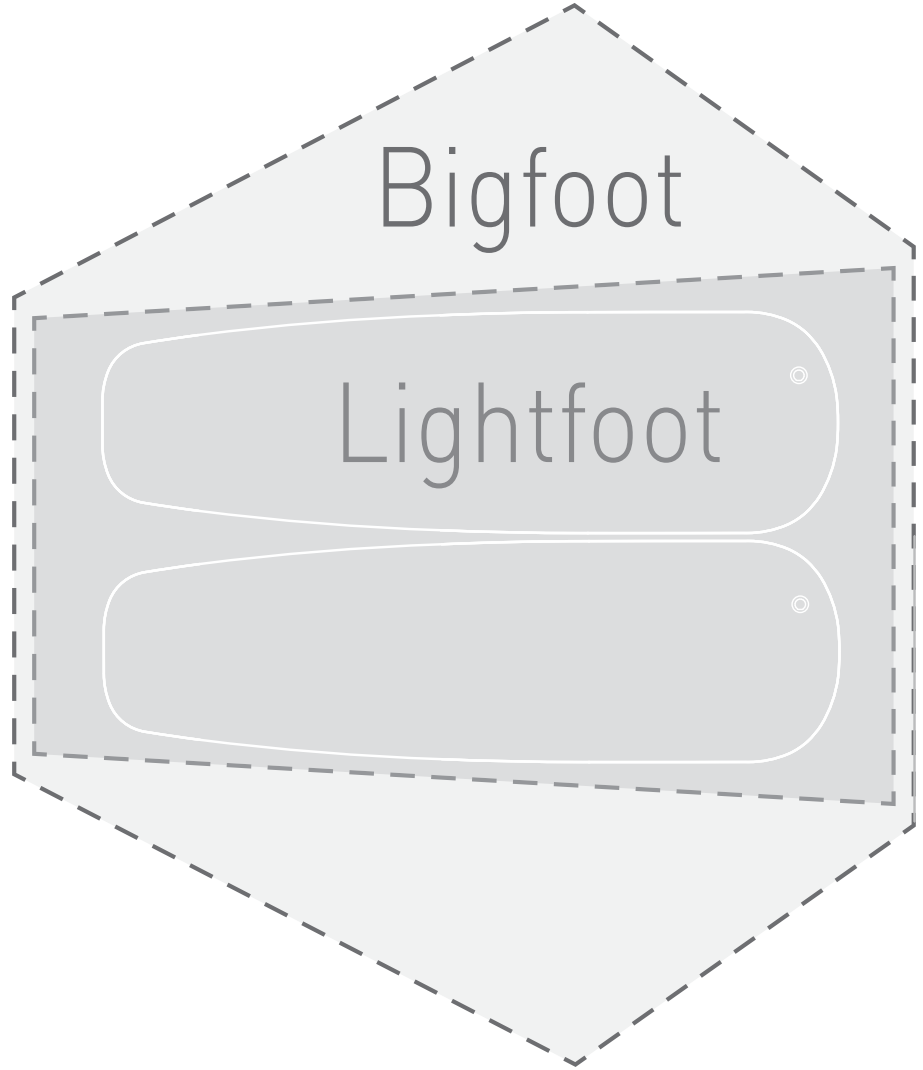

Alto TR1

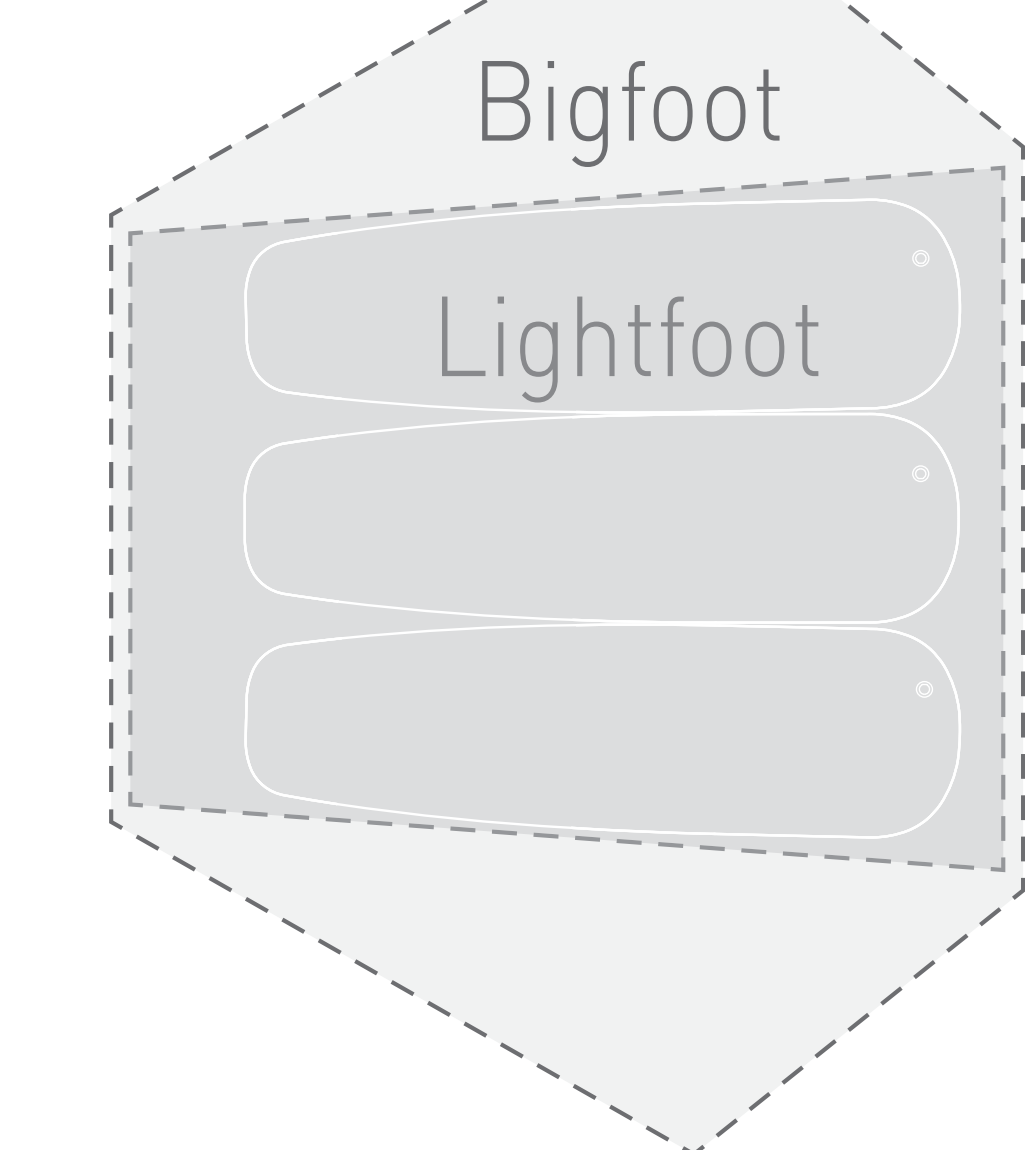

Alto TR2

Telos TR2

Telos TR3

Strong Hypalon attachment points are flexible and secure

HANGOUT MODE POLESET

Activate Hangout Mode in your Telos tent with these custom DAC Featherlite NSL poles..

FEATURES

- Easy-to-use pole strap to keep the two-pole set bundled together
- Three-segment poles fold away to fit with the main tent pole set

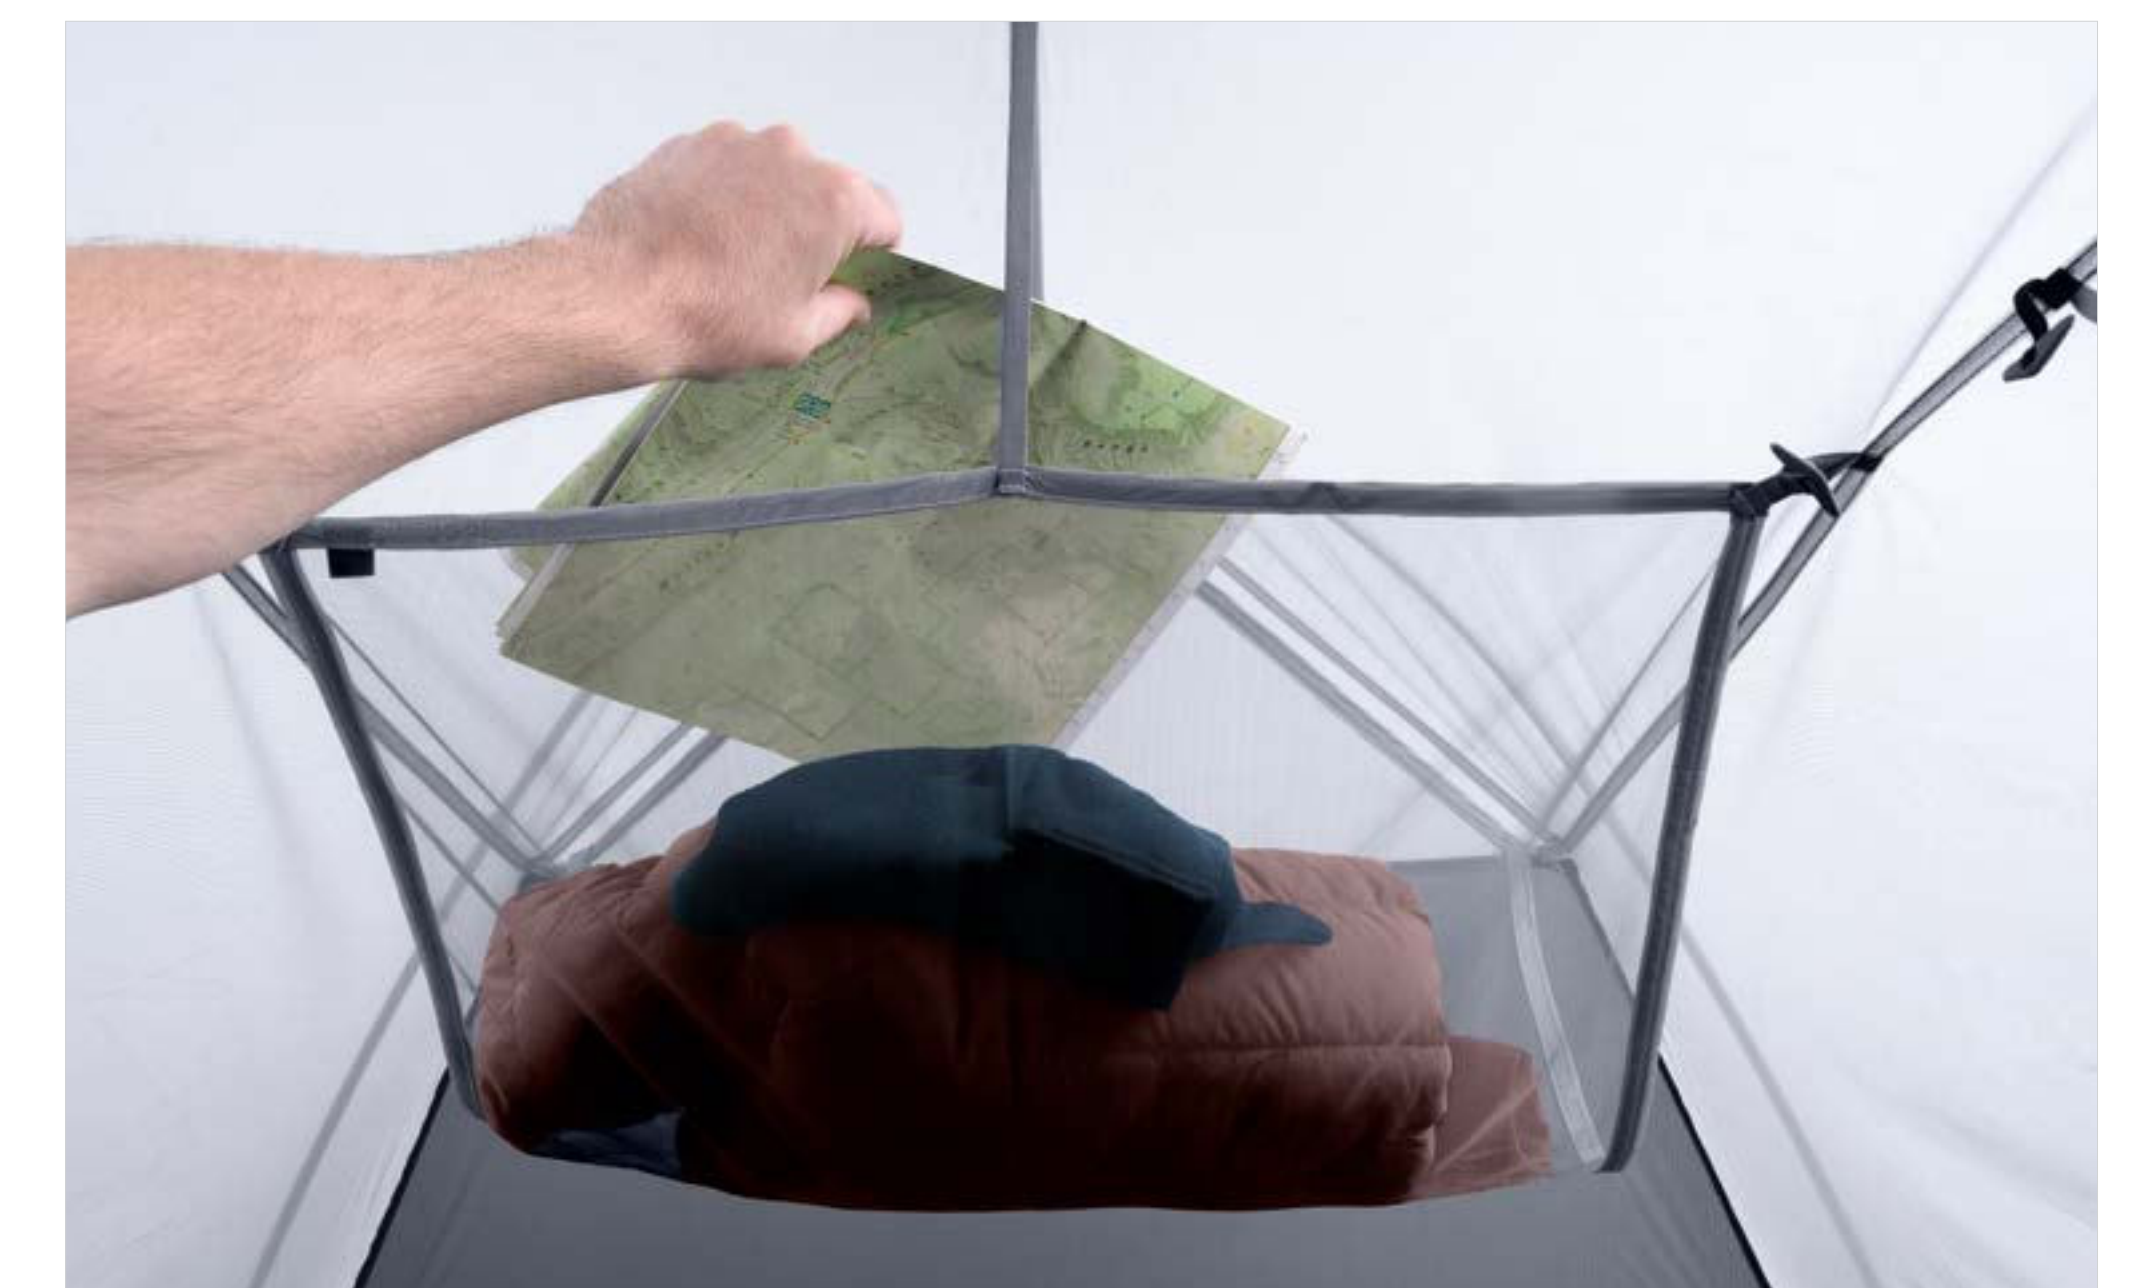

GEAR LOFT

Stash gear within easy reach and keep it off the tent floor.

FEATURES

- Perfect for clothes when layering before bed
- Easily attach and detach with quick-connect V-Toggles

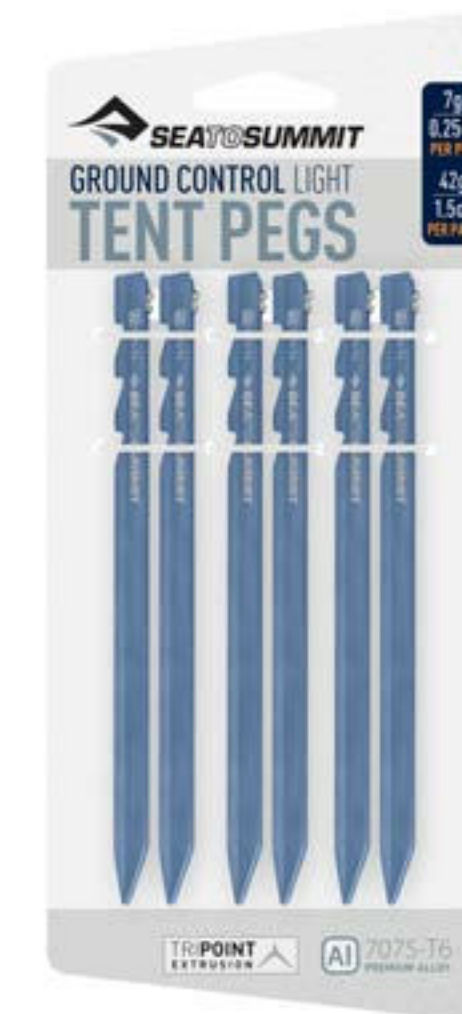

GROUND CONTROL GUY CORDS

Make it easy to weather the storm with our quick-connect guy cords for tents and shelters.

FEATURES

- Quick-connect, knot-free V-Toggle attachment for ease of use
- Integrated cord length adjuster—multiple guy cords can also join together for extra length
- Tightly woven, reflective cord resists tangling

GROUND CONTROL LIGHT PEGS

Strong and ultralight premium 7 series aircraft alloy (7075-T6) tent pegs with a unique TriPoint shape.

FEATURES

- Rigid TriPoint design maximises grip in varied ground conditions
- Multiple notches keep guy cord low and secure in hard ground
- Reflective pull-cords for easy removal and improved visibility at night

GROUND CONTROL TENT PEGS

Light and strong three-sided replacement pegs for your tent, tarp or shelter.

FEATURES

- Reflective cord and luminescent pull loop for peg extraction
- Multi-height guy points to reduce leverage on the peg
- Available as a pack of 8 pegs including Ultra-Sil stuff sack, or a bulk refill pack for individual sale

Escapist **GROUND SHEET**

Protect your shelter floor or sleeping mat from groundwater, thorns, mud, and dirt with this tough, lightweight and waterproof ground sheet.

FEATURES

- Sized to fit under both our Escapist 15D Tarp shelters and our Escapist Ultra-Mesh Bug Tent

SLEEP

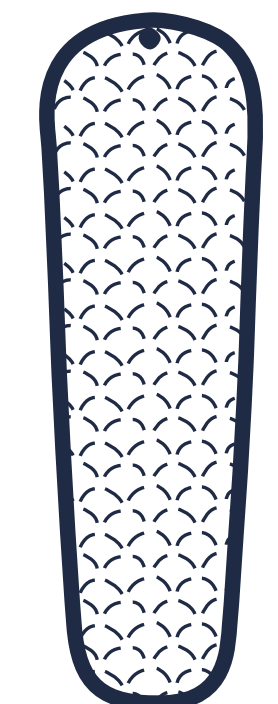

IMPROVE SLEEP. INCREASE PERFORMANCE.

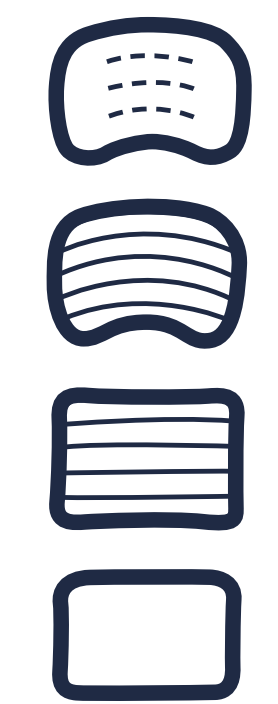

SLEEPING BAGS

LINERS

SLEEPING MATS

PILLOWS

HAMMOCKS

WOMEN'S SPECIFIC SLEEP SYSTEMS

More warmth and room to move
for a better sleep outdoors.

Statistically, women tend to sleep a few degrees colder than men and particularly feel the cold in the feet and hands. And while this may not be a surprise, on average, Women's height, sleeping style and metabolism can differ too.

This is why Sea to Summit offers the broadest range of women's specific sleeping bags and mats on the market. Designed with more insulation and room to move, our bags and mats are engineered to compliment the way women typically sleep, while removing unnecessary weight and bulk.

WARMTH WHERE IT'S NEEDED

Extra insulation in core zones increases overall warmth, particularly in the areas where women typically feel the cold the most.

WOMEN'S SPECIFIC FIT

Narrower in the shoulders with more leg and hip room for side sleepers and typical women's body shapes.

ENGINEERED
FOR **WOMEN**

SLEEPING BAGS

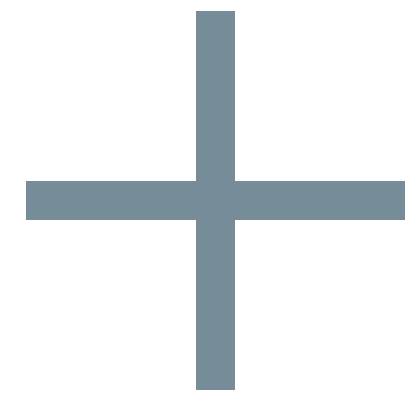

The devil is in the detail.

You will find a Sea to Summit sleeping bag that will be perfect for any scenario or environment, giving you a better sleep and helping you perform better.

From ultra-light through hiking, to high-altitude mountaineering or vehicle supported expeditions, we've made sure to think about all the little details that will keep you more comfortable and better rested.

With 19 models and 98 variants on offer, we've tried to create a sleeping bag or quilt for any situation that you might find yourself in.

OUR SLEEPING BAGS FEATURE:

QUALITY MATERIALS

CO DWR

PFC-Free Fabrics with C0 treatment provide environmentally friendly resistance to condensation or other moisture.

INDEPENDENTLY TESTED

All of our sleeping bags are independently tested in Norway to the EN/ISO standard for published Sleeping Bag warmth.

TECHNICAL FABRICS

Are selected balancing weight, breathability, quietness, water resistance, and comfort for each model.

YKK ZIPPERS

YKK Zippers are strong and durable.

DESIGN DETAILS

FREE FLOW ZIP SYSTEM

Our Free Flow Zip System offers greater versatility and comfort across a wider temperature range.

ZIP COUPLING

Most bags are designed to be zipped together to create double sized sleeping sacks.

INTERNAL POCKETS

Small Zippered Pockets inside your bag provide space for valuables or small electronics in freezing conditions.

QUILT LOCK SYSTEM

Every Sleeping Bag can combine with a quilt to increase warmth.

ZIPPER DRAFT TUBES

Zip Draft Tubes with anti-snag prevent cold leaching in via the zipper opening.

INTERNAL CORD TUNNELS

Our Cord Tunnels are buried within Draft Tubes to keep drawcords from irritating your face or neck.

CLEVER ADJUSTMENT

Hood and Collar Draft Tubes all have dual adjusters, one on each side, for even cinching and maximum warmth.

STORAGE SOLUTIONS

AT HOME STORAGE

Zippered Storage Cell for keeping your bag lofty when packed away at home.

BETTER COMPRESSION

Three-strap “flip top” compression sacks for easy storage and packing (except Treeline).

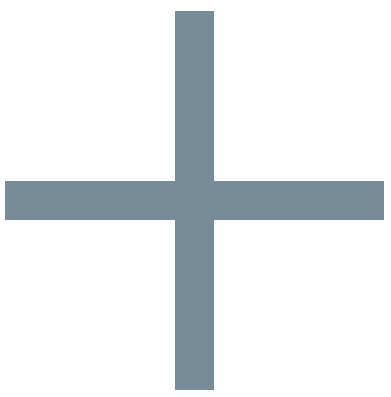

DOWN SLEEPING BAGS

Even in this modern day of synthetics,
down is still the best insulation for sleeping bags.

It has the best warmth to weight ratio, it is the most durable sleeping bag insulation, and if looked after (and occasionally washed) it will last a lifetime.

OUR DOWN SLEEPING BAGS FEATURE:

QUALITY MATERIALS

RESPONSIBLE DOWN STANDARD (RDS)

The RDS is helping to shift the entire down and feather industry towards more humane animal rearing and handling practices. Overseen by the industry leading Textile Exchange, the RDS requires independent, third party assessments of all aspects of animal rearing and handling throughout the entire supply chain.

To find out more about how the RDS is improving animal welfare during down collection, please visit responsibledown.org

ULTRA-DRY DOWN

Ultra-Dry Down is a PFC-free, permanent polymer treatment that absorbs 30% less moisture and dries 60% quicker than untreated down.

UNIQUE DOWN CERTIFICATE

Each bag includes a Batch Test Report from the International Down and Feather Laboratory to certify the loft and quality of down used.

MINIMUM FILL RATING

All down used in our bags exceeds the published loft that is specified for that model.

DESIGN DETAILS

BESPOKE DESIGN

The baffle height in our bags is adjusted for each variant, so that the down insulation has the perfect amount of space in which to achieve maximum loft.

DIFFERENTIAL CUT

A differentially cut shell design allows the down to expand outward for better lofting and also reduces the chance of cold spots.

VERTICAL CHEST BAFFLES

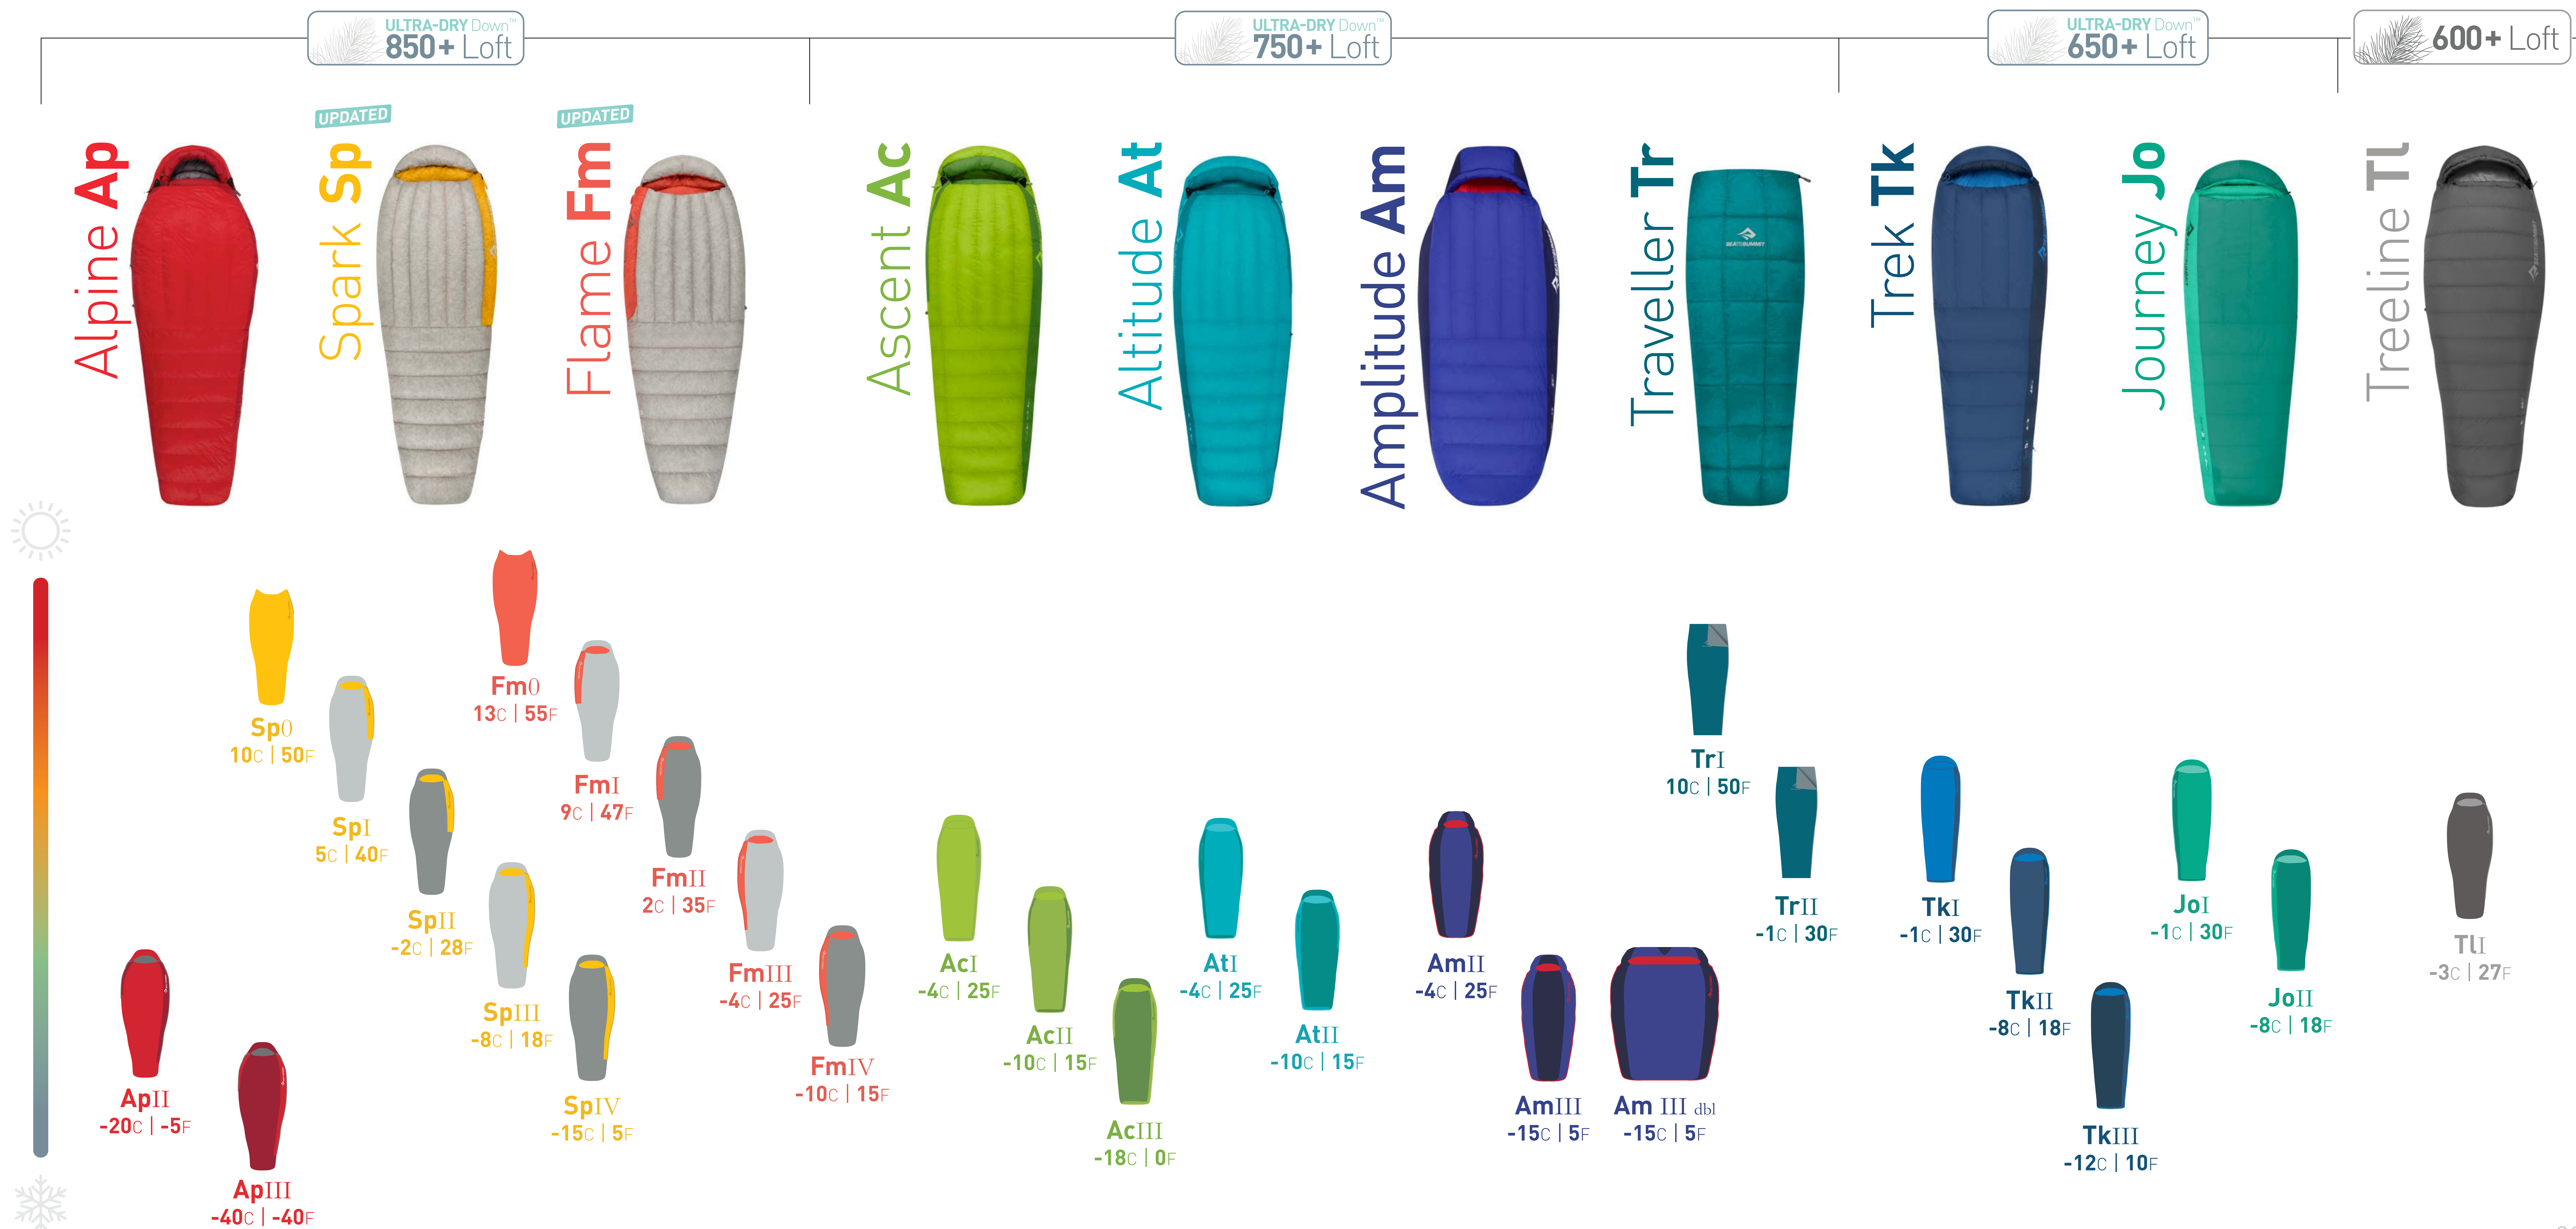

Vertical Chest Baffles prevent down migration and cold spots, particularly for side sleepers.

SIDE BLOCK BAFFLES

Side Block Baffles prevents down shifting around, and maintains warmth where it is needed.

EXPLORE THE RANGE

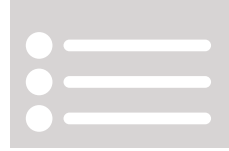

Alpine Ap

Our first choice for extreme cold and high altitude conditions where sleeping well can make or break an expedition.

UPDATED

Spark Sp

The Spark Series spans everything from an ultralight liner to an expedition weight mid-winter bag. While the end usage of each variant is very different, they reflect a design ethos of matching weather conditions to the lightest bag possible.

Sp0

FEATURES

- Ideal for mid-summer fast hikes or adventure racing
- Doubles as a liner to significantly boost the warmth of a second bag

SpI

SpII

FEATURES

- Sizing provides extra room for both shoulders and hips while still maintaining insulation efficiency

SpIII

SpIV

FEATURES

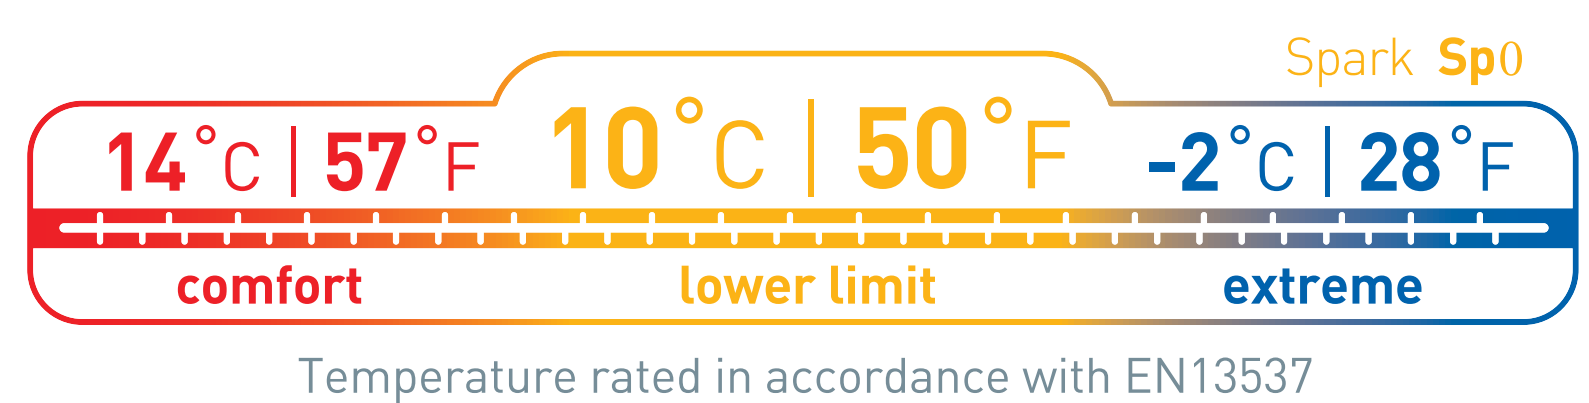

- Expedition mummy bag sizing provides extra space for layered clothing or extra wriggle room
- Vertical baffles on chest optimises positions of down to prevent it moving during use

Amplitude Am

Comfort and versatility for long trips when shaving weight is not your highest priority.

The Amplitude is ideal for outdoor adventures that return to the same camp site each evening, for car camping road trips, crag-hopping van life or hut-based expeditions.

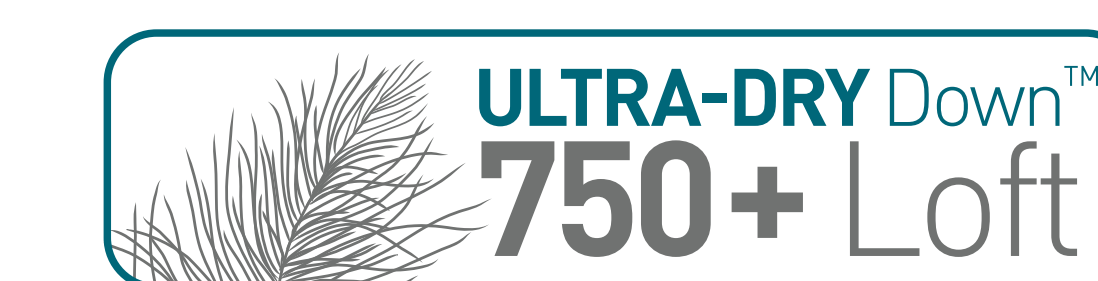

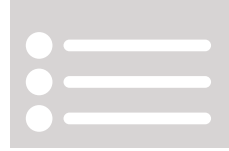

Traveller Tr

Small and light yet warm and lofty 750+ down, the Traveller is your couch-surfing comrade.

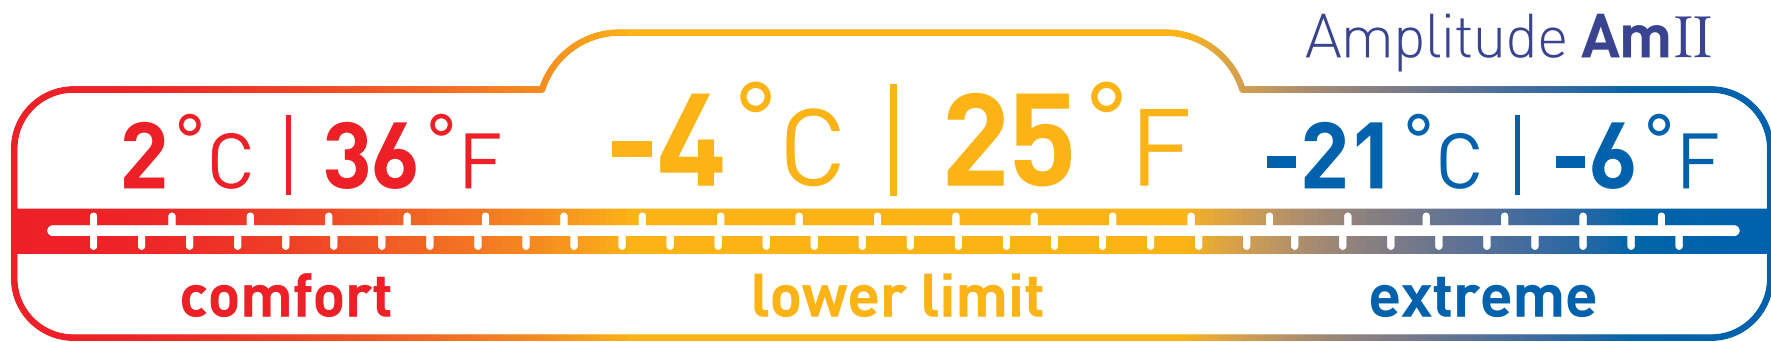

The ultimate choice for your Camino pilgrimage, round-the-world adventure or keeping warm on a plane.

SYNTHETIC SLEEPING BAGS

Boasting all of the details that make our range of Down Sleeping Bags supremely comfortable—our range of technical, synthetic filled bags provide insulation even in the wettest of conditions.

Synthetic bags are also easy to launder and tough enough to withstand camping out of cars with dogs and kids.

Our synthetic bags are lighter, warmer, more technical and designed to be the best on the market.

OUR SYNTHETIC SLEEPING BAGS FEATURE:

WAVE LOFT CONSTRUCTION

WaveLoft construction uses thick layers of synthetic insulation looped together to gain extra loft and trap extra pockets of warm air for superior insulation.

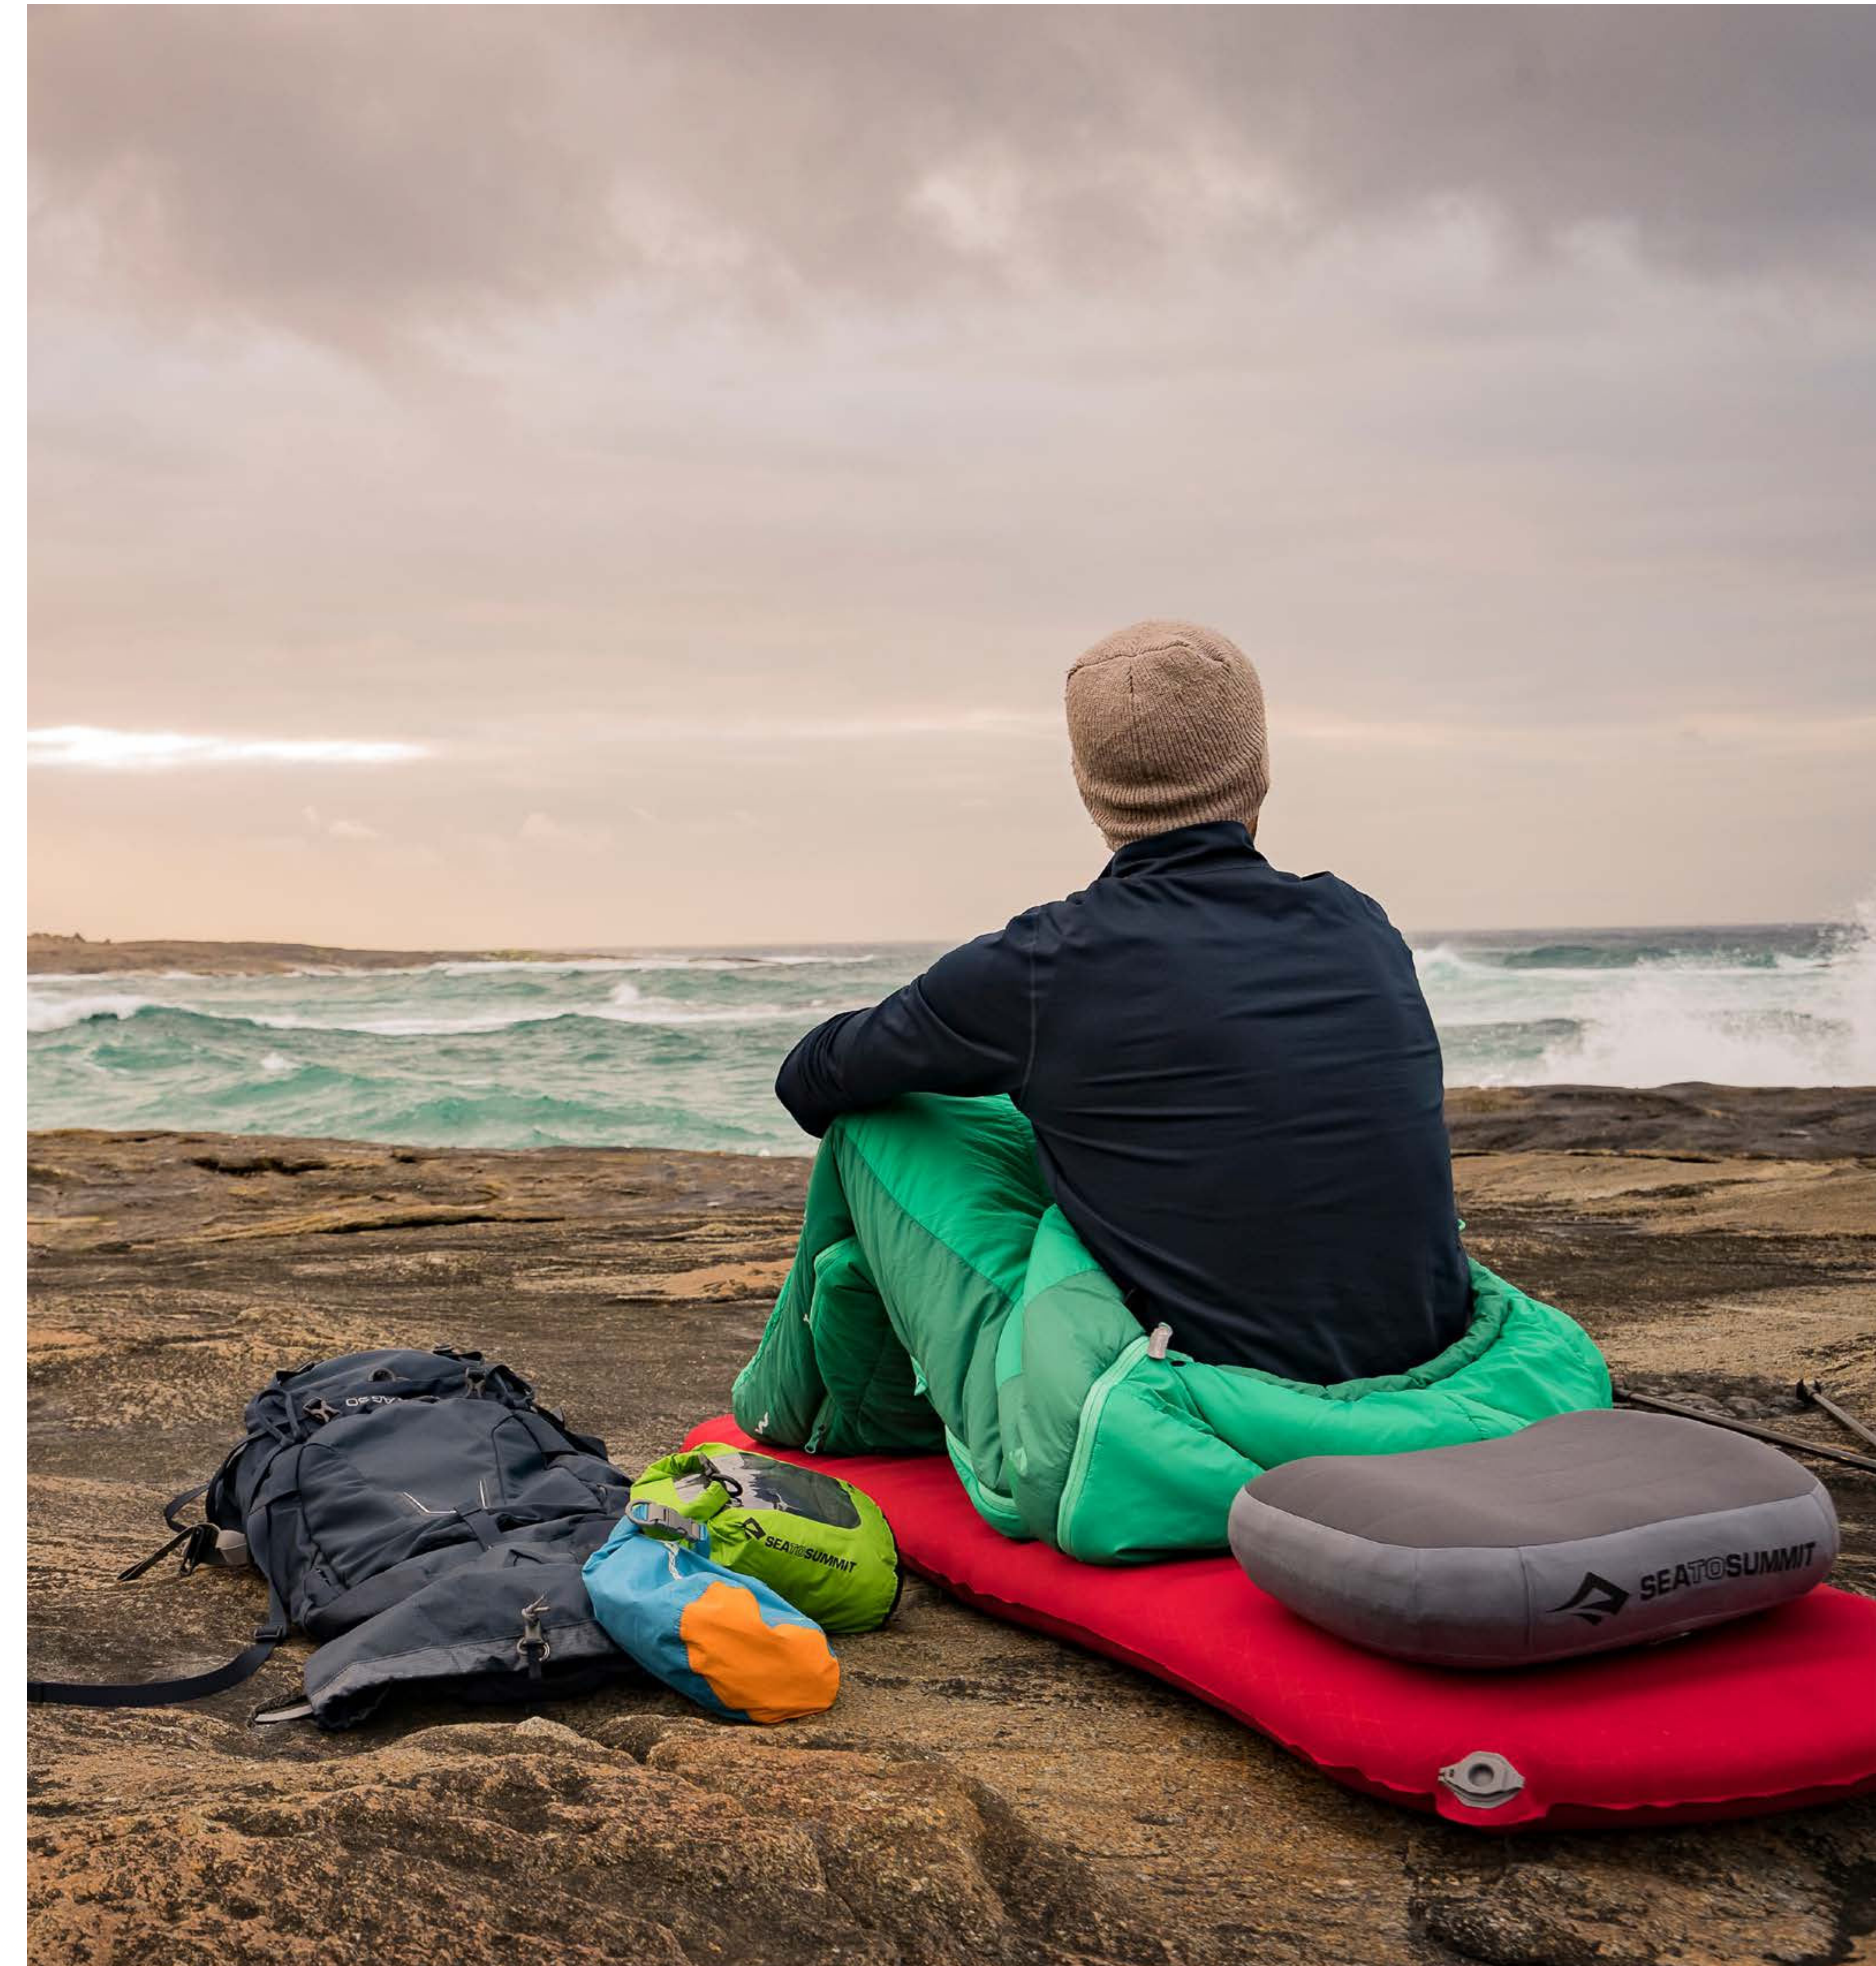

THERMOLITE®

THERMOLITE INSULATION

On our high-end bags we use a proprietary blend of THERMOLITE branded insulation, where fine denier hollow-core fibres provide higher loft and superior compressibility.

SECURED LINING FABRIC

Lining fabric is secured to both the insulation and the shell to keep it secure, and to prevent the feeling of getting caught in a loose lining fabric.

EXPLORE THE RANGE – SYNTHETIC BAGS

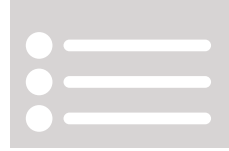

Basecamp BC

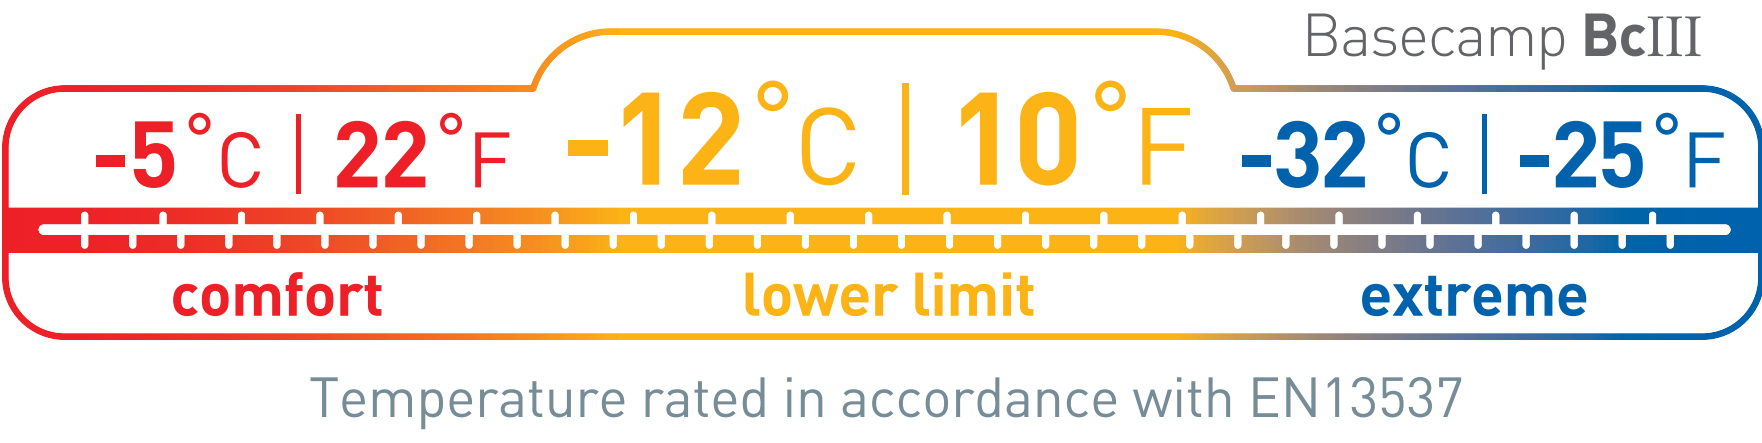

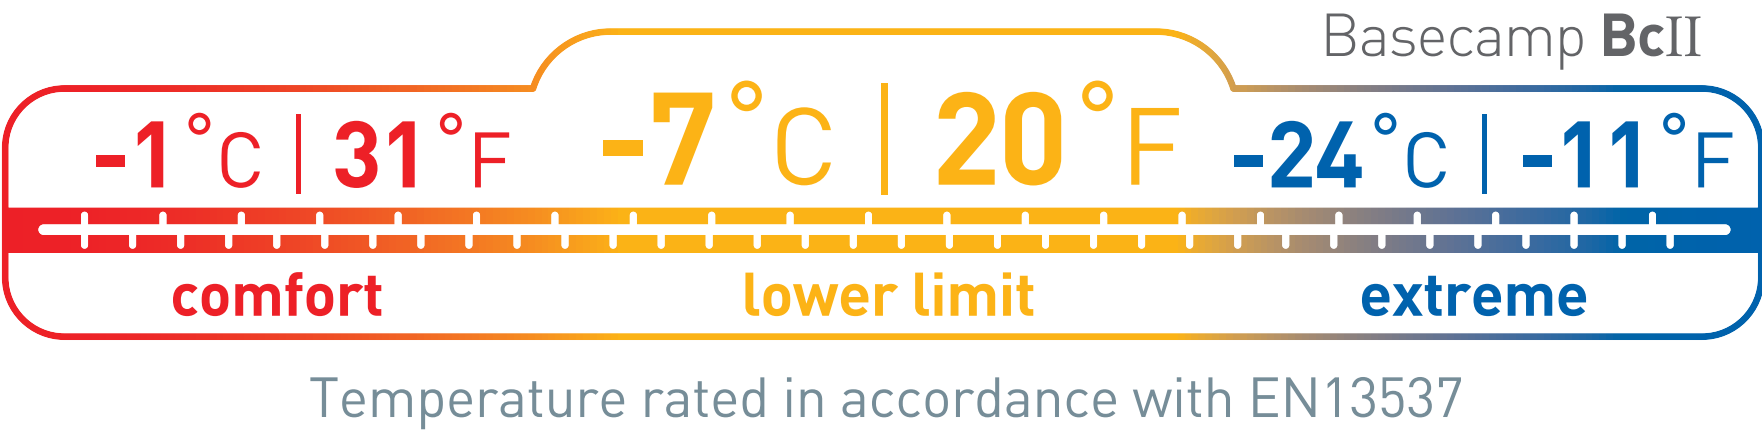

Ultra-spacious with multiple ventilation configurations, our Basecamp is pure outdoor luxury.

QUILTS + COMFORTERS

Ditch the zipper, free the arms and embrace the versatility of a technical quilt.

Sea to Summit has a broad range of technical quilts with an option for whether you are minimalist couch-surfing, all the way through to sleeping comfortably in a van or roof top tent.

But a camp quilt from Sea to Summit is also more than just a puffy blanket to keep your legs warm on a cool night. Our Quilt Lock integration system also means that you can extend your sleeping bag to create a Sleep System that will easily cover an extra season of warmth.

For 2022 we have introduced both rectangular quilts, a technical double and warmer versions of some of our existing best-sellers.

Tanami TmI 10c | 50F

OUR QUILTS AND COMFORTERS INCLUDE:

CO DWR

PFC-Free Fabrics with C0 treatment provide environmentally friendly resistance to condensation or other moisture.

NO WASTED WARMTH

A top drawcord helps pull your quilt in tight and press studs along the top edge allow it to be secured around your neck to help trap warmth.

QUILT LOCK SYSTEM

Every Sleeping Bag can combine with a quilt to increase warmth.

OPTIONAL FOOTBOX

A drawcord on the base of the quilt pulls tight to create a footbox, perfect for securing your mat and keeping your feet toasty warm.

HAND POCKETS

Small pockets on the top corner of the quilt helps draw it closer around you, even when sleeping in a natural, side position.

SECURE ATTACHMENT

Press Stud and Adjustable Strap System allows the quilt to be secured under your mat to retain maximum warmth.

LINERS

The humble Liner is really the unsung hero of your Sleep System. You might not appreciate it, but you will definitely miss it when it's not there!

Think of your liner in the same way as you think about the sheets on your bed at home. It's the first point of contact between you and the rest of the system.

We've been refining our liner product for over thirty years and now offer a range of models to suit any consumer.

SOFT + COMFORTABLE

All our liners have great hand feel, and are soft and comfortable next to skin. Some are stretchy and knitted for people who move around during sleep and don't want to feel constricted. Others are more static, so that they don't tangle.

CONVENIENT

Because they are acting as a 'sheet' between you and your sleeping bag, it means that you won't need to launder your bag as often (or at all), because all the grime, oil and sweat that you may exude during sleep is captured in your liner.

EASY CARE

In between uses, you'll appreciate the fact that they are easy care, and can all be washed in a regular top loading washing machine. And they all come in a stuff sack or zippered pouch to minimise space and keep them small and compact when packed away.

REACTOR SERIES LINERS

Our Reactor Series sleeping bag liners are your best choice for adding warmth to your bag.

OUR REACTOR SERIES LINERS FEATURE:

EASE OF USE

Contrasting colour along the top edge makes it easier to find the opening.

COMFORT

A knitted fabric stretches and moves with you as you sleep.

WARMTH

THERMOLITE is a hollow core fibre with fantastic insulating properties, adding warmth and comfort to your bag.

VERSATILITY

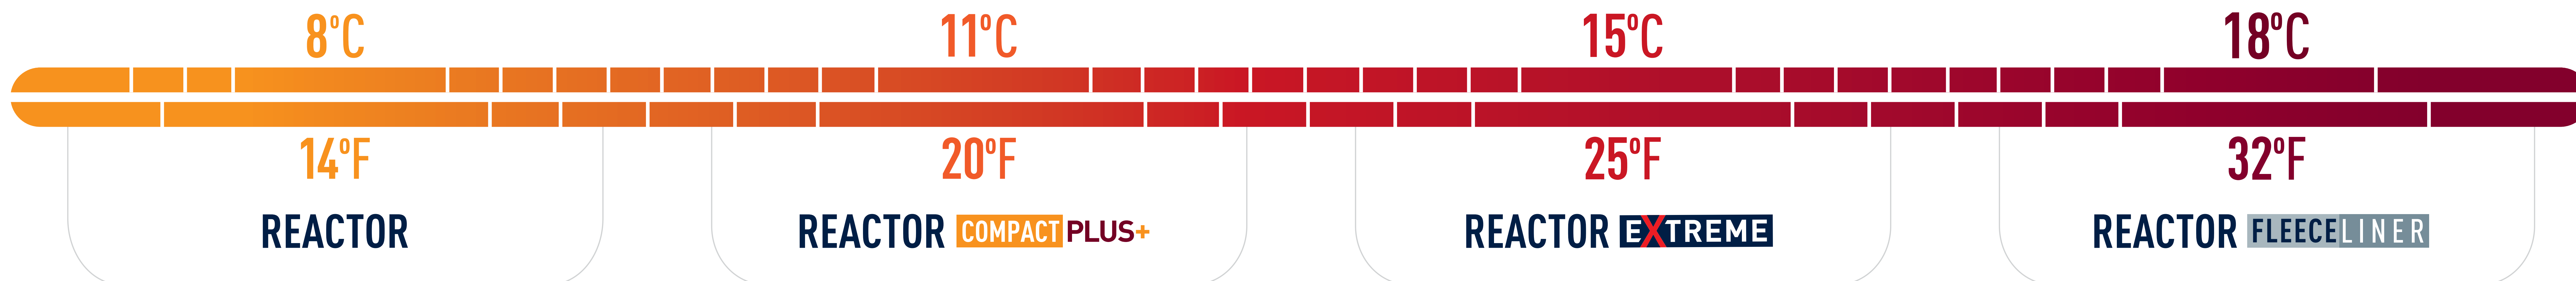

Add warmth in cold conditions, or use a stand alone bag on balmy summer nights.

COMPACT + CONVENIENT

Packs into its own Ultra-Sil stuff sack.

THERMOLITE

THERMOLITE® REACTOR

Extend the comfort range of your sleeping bag with our most popular technical liner.

COLOUR

THERMOLITE® REACTOR COMPACT PLUS

Perfect for cold-sleeping gram counters under six feet tall.

FEATURES

- Compact, shorter design is ideal for women and cold-sleepers under six feet

COLOUR

THERMOLITE® REACTOR EXTREME

Ideal as part of a cold climate sleep system or standalone bag in warm weather.

SIZES Regular / Long

COLOUR

THERMOLITE® REACTOR FLEECE

It's so warm, you can use this fleece liner in your sleeping bag or on its own.

FEATURES

- Quarter zip makes it easy to get in and out

COLOUR

TRAVEL LINERS

SILK+COTTON
TRAVEL LINER

A blend of soft cotton and luxurious silk creates an ideal travel liner.

FEATURES

- Feels similar to a high-thread count cotton sheet

COLOURS

PREMIUM COTTON
TRAVEL LINER

High thread count 100% premium cotton liner for travel adventures.

FEATURES

- High thread count cotton for comfort and durability

COLOURS

PREMIUM STRETCH KNIT
EXPANDER

This liner is lightweight, breathable, durable and ideal for use while camping or in hostels.

FEATURES

- Stretch knit fabric that moves with you as you sleep

COLOURS

PREMIUM SILK TRAVEL
LINER with Stretch Panels

A touch of travelling luxury—premium silk liner with stretch panels for extra comfort.

FEATURES

- Unique Comfort Stretch Panels allow the liner to move with you when you sleep

COLOURS

TRAVEL LINERS

PREMIUM FLEECE LINER

A great value option for adding additional warmth to your sleep system. This toasty microfleece liner is soft and comfortable next-to-skin, and can be used on its own for warm weather hut trips and as a warmth-boosting liner for your sleeping bag. It has a contoured hood with elastic drawcord and a full-length, low profile side zipper for easy venting and easy access.

FEATURES

- Full-length side zip

COLOUR 

COOLMAX[®] ADAPTOR

When the temperature increases our Adaptor liner helps to wicks moisture away from your skin keeping you more comfortable as you sleep.

FEATURES

- Also works fantastically well as a regular sleeping bag liner in cooler conditions
- Contrasting colour along top edge makes it easier to find the opening

SLEEPING MATS

We don't believe the only reason to make a sleeping mat is to make it as light as possible—or pack down as small as possible. We know that it doesn't matter how small or light your sleeping mat packs if you can't get a decent nights' sleep.

Our overriding design objective is to create sleeping mats that are as light and packable as possible, without compromising on comfort.

Because a great sleep is the start to a good day.

AIR SPRUNG CELL MATS

Our award-winning Air Sprung Cell Sleeping Mats provide air cushioned comfort from the lumps and bumps beneath you.

COMFORTABLE

AIR SPRUNG CELLS

Stability = greater comfort. A pattern of dot-welds creates hundreds of interconnected chambers called Air Sprung Cells. Just like a pocket spring mattress, this matrix of cells provides unmatched support while conforming to the contours of the sleeper.

THERMOLITE® INSULATION

Designed for ultimate performance, THERMOLITE® is made from specially engineered fibres to achieve a high CLO value with low weight. The THERMOLITE® insulation lofts up inside the Air Sprung Cells to prevent convective heat loss from your warm body to the cold ground.

EXKIN PLATINUM®

A very lightweight, quiet, non-woven fabric that has a thin metalised layer applied to the surface which reflects radiant heat back to the user.

DURABLE

EXTRUSION TPU LAMINATION

Ultra-Fresh® anti-microbial treatment added to the TPU formula prevents internal mould growth.

DURABLE 30/40D NYLON FACE FABRIC

Lightweight, quiet and grippy 30/40D Nylon face fabric.

EASY TO USE

PILLOWLOCK SYSTEM

Pillow Lock attaches an Aeros pillow to mat.

REPAIR KITS

All ASC Mats ship with a set of peel and stick repair patches that provide quick and permanent solutions to any unfortunate punctures.

AIRSTREAM PUMPSACK

Includes an Airstream Pump that is integrated into the stuff sack for quick and easy inflation.

MULTI-FUNCTION VALVE

Multi-function valve provides fast inflate, deflate and easy fine-tuning for personalised comfort.

Etherlight™ XT 000

SINGLE LAYER DESIGN

Ether light XT AIR

Ether light XT INSULATED

Our Etherlight Mat design creates a thicker mat, without increasing overall weight.

The innovative Ether-Light design created a thicker ASC mat with a lower overall weight. Accommodates any sleeping style, and with insulation ‘pinned’ to the top surface you’ll appreciate the balance between warmth and bulk.

SELF-INFLATING MATS

Our range of self-inflating mats provide consistent warmth along the full length of the mat in a compact and lighter, comfortable, easy-to-use package.

COMFORT

VIDEO

PILLOWLOCK SYSTEM

Pillow Lock attaches an Aeros pillow to mat.

FOUR WAY STRETCH FABRICS

Four way stretch fabrics better conform to your body as you sleep.

ANTI-SLIP SILICONE PRINT

Prevents your sleeping bag from slipping on the mat, or the mat from slipping on the tent floor.

EASE OF USE

REPAIR KITS

Both our Self Inflating and Air Sprung Cell mats include a small repair kit with repair patches.

MULTI-FUNCTION REVERSIBLE VALVE

Specifically designed for Self-Inflating mats.

With a simple twist, our multi-function valve prevents reinflation while rolling your mat up. Twist it back for easy one-way inflation and fine tuning.

LIGHTER WEIGHT

DELTA CORE

The design leaves a solid layer of foam to bond with the fabric across the full length of the mat, making a far more durable finish.

Delta Core design leaves extra foam directly under the sleeper, providing better insulation.

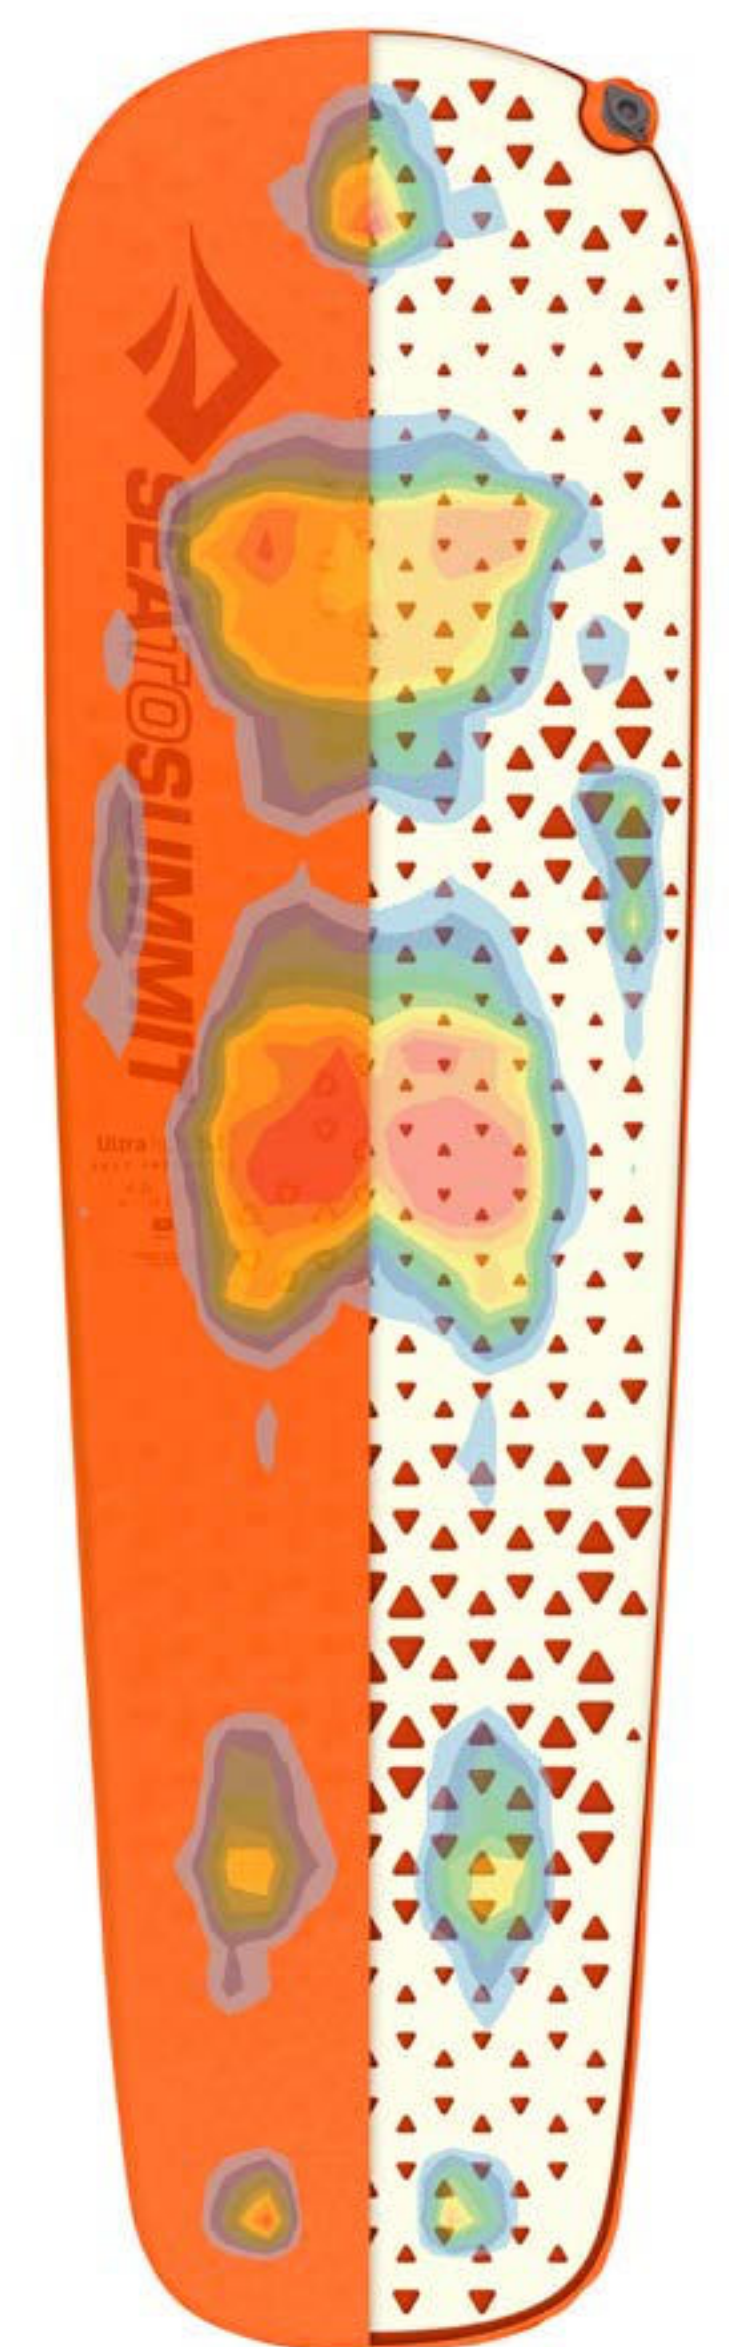

VIDEO

DELTA CORE-V

In our lighter models, Delta Core-V vertical coring technology is applied to remove 20% of the weight and bulk of the mat's polyurethane (PU) foam. We use sophisticated pressure-mapping data to define body contact areas which becomes the blueprint for our distinctive graduated core pattern.

MAT COUPLER KIT LOOPS

Stop sleeping in the crack—secure your two Sea to Summit mats together.

FEATURES

- Simple to use
- Low profile design stays flat for comfortable positioning

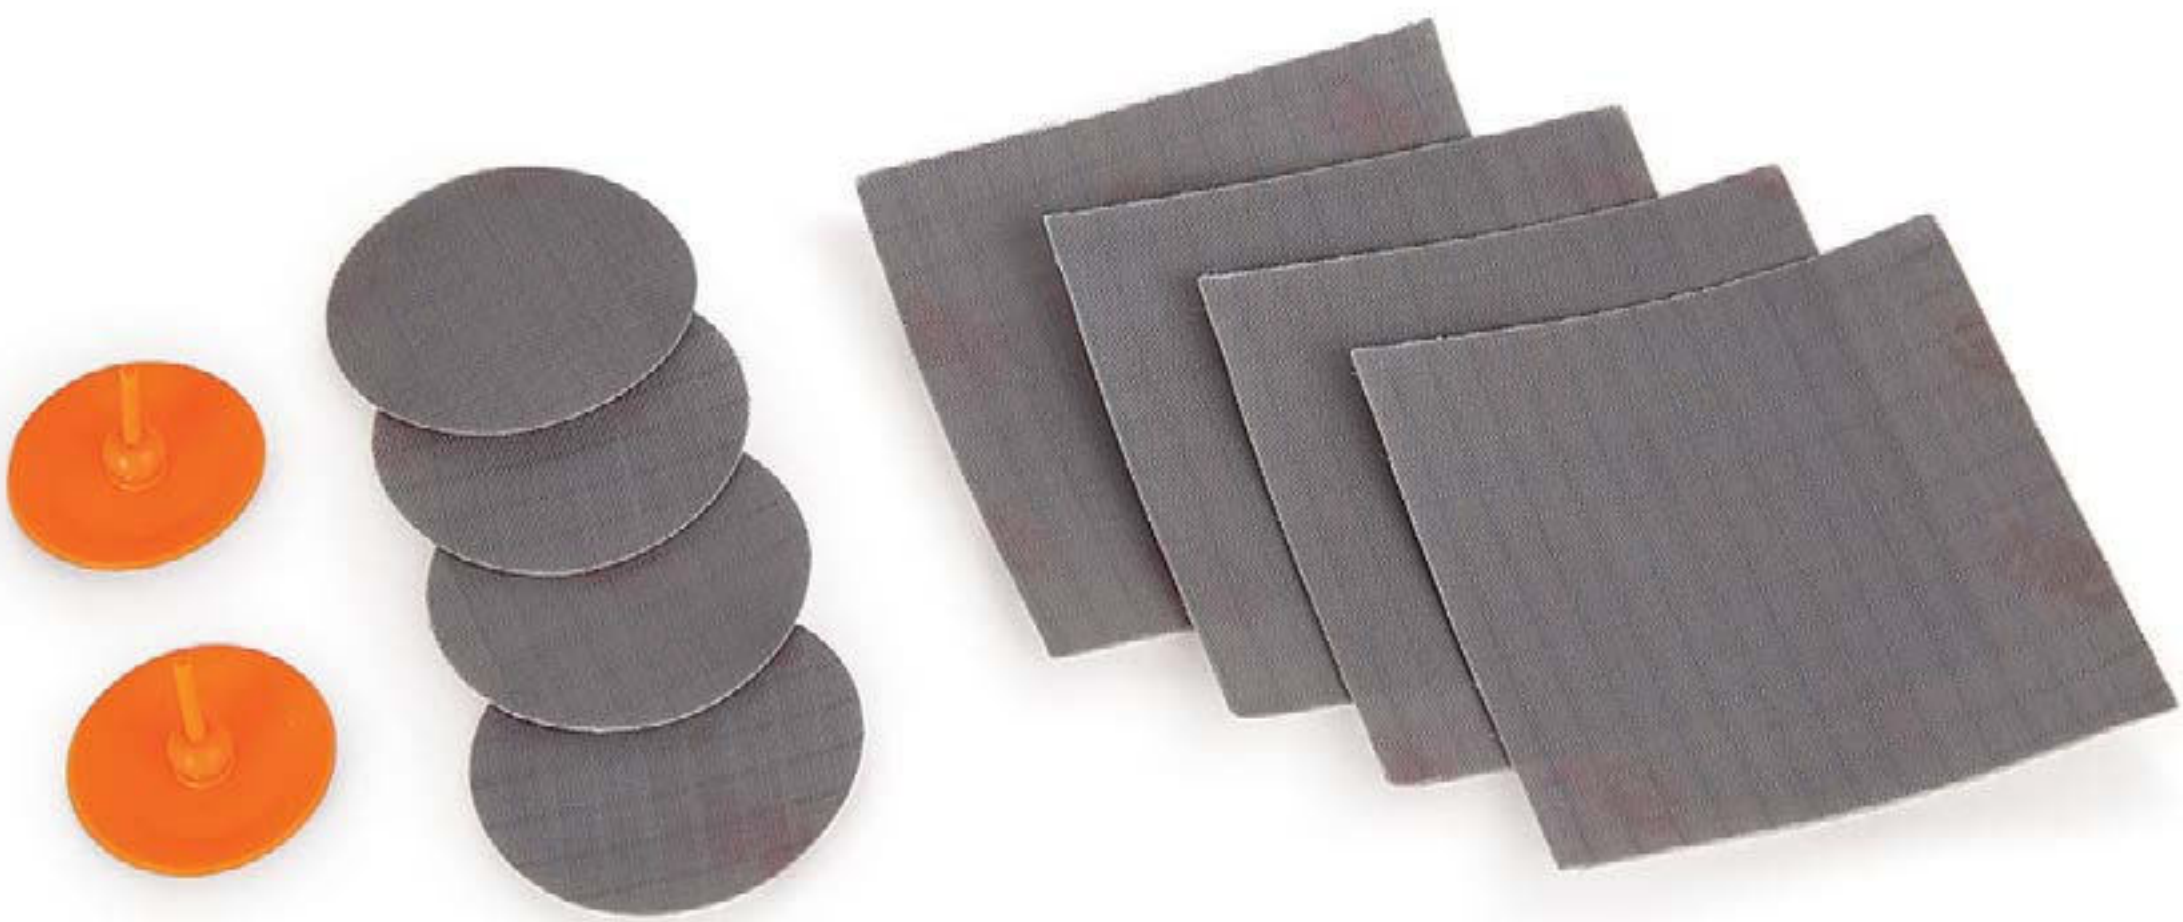

AIRSTREAM PUMP SACK

Storage by day, pump by night—inflate your air mat in seconds.

FEATURES

- Works with the multi-function valve on both ASC and SI mats.

AIR MAT REPAIR KIT

Punctures happen—repair your Sea to Summit air mat with ease.

AIR CHAIR

Air mat transformer: chair by day
and sleeping mat by night

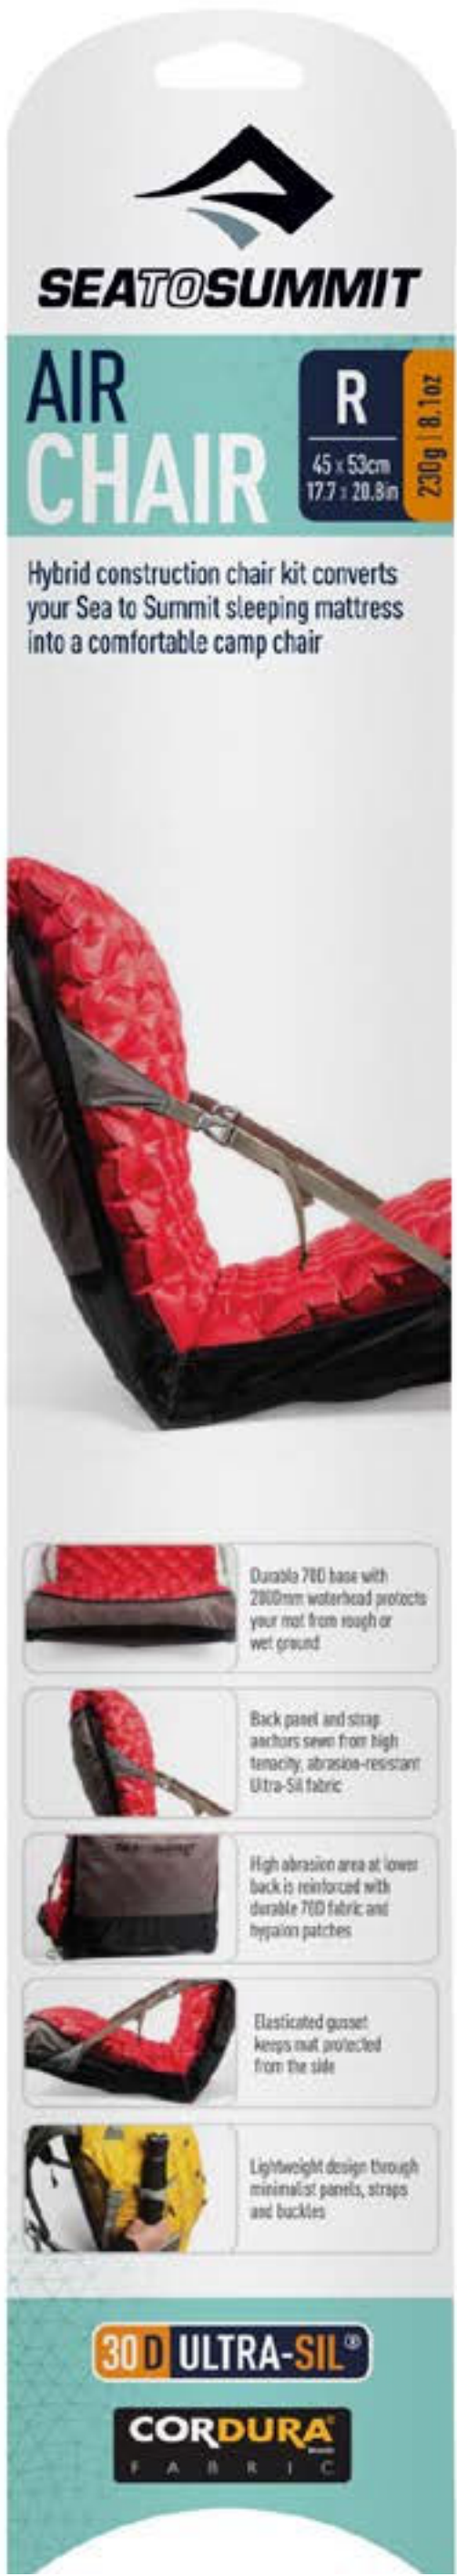

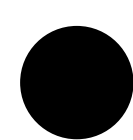

FEATURES

- Converts your Sea to Summit Sleeping Mat into a comfortable camp chair
- Reinforced pole sleeve with puncture-proof synthetic rubber caps for added strength
- Upgraded side release Field Repair Buckles with stainless steel pin on side straps for durability and high break-strength
- Durable 70D base with 2000mm waterhead protects your mat from rough or wet ground

AEROS PILLOWS

Whether in transit or the back country, our Aeros range of lightweight and compact inflatable pillows will award you a comfortable sleep.

OUR AEROS PILLOWS FEATURE:

MULTI-FUNCTION MINI VALVE

Featuring our unique mini-valve for easy inflation, deflation and fine tuning.

LIGHTWEIGHT AND COMPACT

Often forgotten, always appreciated —they're so small and light the only decision to make is which one to choose.

CONVENIENT STORAGE

Comes with a stuff sack or zippered pouch to make packing and storage so much easier.

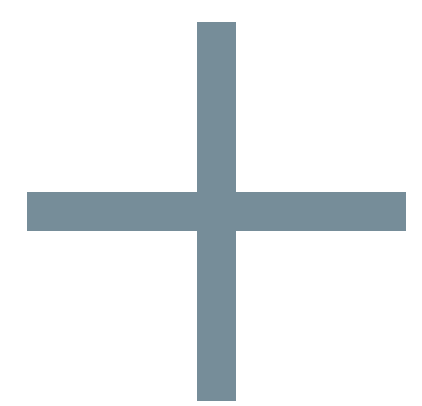

PILLOWLOCK COMPATIBLE

Easily secure your Aeros pillow to your Sea to Summit mat for a slip-free sleep—PillowLock patches are included with all our mats.

AEROS PREMIUM

OUR AEROS PREMIUM RANGE FEATURES:

LUXURIOUS FEEL

Brushed, 50D polyester, stretch-knit face fabric for soft hand feel.

COMFORTABLE

Synthetic fill between pillow case and TPU bladder increases comfort and wicks away perspiration.

AEROS PREMIUM DELUXE

Dream big; pack small with this luxurious, lightweight and surprisingly compact full-size pillow.

COLOURS

AEROS PREMIUM

A luxurious, high-performance pillow without the weight and bulk. Perfect for travel and camping where you can risk a couple more grams for a great night's sleep.

FEATURES

- Scalloped bottom edge centres the pillow over your shoulder no matter whether you are sleeping on your back, side or sitting upright in a chair

SIZES

R / L

COLOURS

AEROS PREMIUM TRAVELLER

Take your transit comfort to a new level with our packable Premium Traveller Pillow.

FEATURES

- Adjustable neck closure for additional support
- Ergonomic shape and enlarged ends reduce the need to bend your neck for support
- Narrows at the centre to fit snugly between your neck and headrest

COLOURS

AEROS PREMIUM LUMBAR SUPPORT

Keep your lower back supported and comfortable in the air, at your desk or behind the wheel.

FEATURES

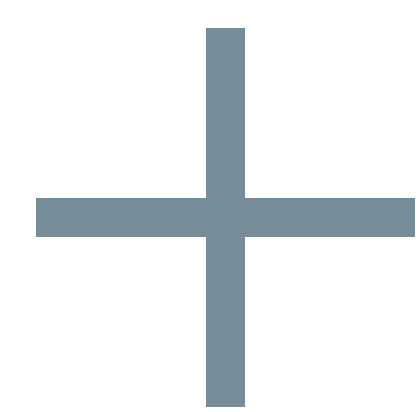

- Includes an adjustable webbing strap to secure the pillow in place

COLOURS

AEROS ULTRALIGHT

OUR AEROS ULTRALIGHT RANGE FEATURES:

LIGHT AND COMPACT

Made from 20D laminated polyether to be very light and compact.

DURABLE

Laminated with abrasion-resistant high strength TPU with durable RF-welded construction.

QUICK AND EASY

Inflate pillow in a couple of breaths with the multi-function mini-valve.

COMFORTABLE

Stretch-knit fabric creates a more comfortable user experience.

AEROS ULTRALIGHT DELUXE

Extremely comfortable, lightweight and surprisingly compact full-size pillow.

COLOURS

AEROS ULTRALIGHT

Light, compact and comfortable support —the best 60g you'll ever add to your pack.

FEATURES

- Scalloped bottom edge centres pillow over your shoulders whether sleeping on your back, side, or upright in a chair

SIZES R / L

COLOURS

HAMMOCK SETS

Lightweight, strong and easy to use, these are the Hammocks that you want when you're moving around and setting up in different locations on an adventure. Our hammock sets use an innovative buckle system that makes them super-fast to set up and adjust, while technical fabrics and included compression sacks mean they take up minimal space in your pack.

Includes everything you need to get strung up to hang out.

OUR HAMMOCK SETS FEATURE:

STRONG AND DURABLE

Webbing loop bar-tacked five times at each end for added security.

LIGHTWEIGHT AND BREATHABLE

Highly breathable Nylon fabrics that are incredibly strong for their weight.

QUICK AND EASY

Quick-connect buckle system provides super fast set-up and adjustment.

CONVENIENT STORAGE

A water resistant compression sack made from 30D Ultra-Sil fabric for minimising space when packed away.

ALL-IN-ONE STORAGE

Suspension Straps are included with every set, and neatly pack away in the compression sack.

JUNGLE HAMMOCK SET

The jungle hammock has been designed to cope with inclement weather and invasive insects. An Ultra-Sil sleeve keeps the hammock dry when setting up or taking down in the rain, while the monofilament 'no-see-um' mesh will provide a bug-free suspended sleep.

FEATURES

- Drip guard stops rain running down the webbing and saturating hammock body
- 150cm zip access with two sliders and custom T-bars for ease of use

COLOUR

JUNGLE HAMMOCK TARP

Designed to work with the specific attachment points of the Jungle Hammock, you now have a system that provides shelter from the elements as well as insects.

FEATURES

- Ships with 6 adjustable guy lines
- Siliconised outer surface with 2000mm waterhead

COLOURS

30D ULTRA-SIL™

HAMMOCK **TARP**

Remain high and dry without adding excess weight or bulk to your lightweight and compact hammock setup.

FEATURES

- Five strong and durable tie-out points each hold the tip of a trekking pole
- Asymmetric design reduces weight while still providing multiple setup options

COLOURS

HAMMOCK **BUG NET**

Easy setup and effective protection from bugs for your hammock.

FEATURES

- Large right-angle zip opens wide for easy access
- Enjoy the view with high-visibility black mesh
- Uninterrupted star-gazing

TRIM COLOUR

HAMMOCK **TREE PROTECTOR**

Protect our environment with these easy-to-use hammock tree protectors.

FEATURES

- Compact and light: fits inside hammock compression bag
- Wider webbing spreads the weight of the hammock across a broader area, lessening the potential for damage to tree bark

DELTA SERIES

Lightweight and durable with intuitive design details—there's a solution for all your camp dining needs.

OUR DELTA RANGE FEATURES:

PROTEX BASE

Protex hex pattern base reduces weight and disperses surface temperature.

CLEVER DESIGN

Steep sides on our plates and bowls prevent food slopping over the sides, while the curvature of the base matches perfectly with the Delta Spoon and Spork.

THUMB GRIP

Keeps your fingers out of your food and doubles as a carabiner hang loop.

LIGHTWEIGHT

Lightweight, durable and easy-care.

FOOD-GRADE

BPA-free, glass reinforced polypropylene is microwaveable and dishwasher safe.

BPA FREE

Delta **PLATE**

Keep your food on your plate and your fingers burn-free—a cleverly designed camp plate with guard rails and heat-dispersing base.

COLOURS orange teal grey

Delta **BOWL +** Delta **BOWL WITH LID**

A lightweight, hard-wearing and functional camp bowl with deep sides and a heat-dispersing base for burn-free fingers.

BOWL WITH LID

- Lid keeps food inside and doubles as a chopping board or plate

COLOURS orange teal grey

Delta **MUG +** Delta **INSULMUG**

Not your ordinary camp mug—this one's designed to not burn your fingers. The ergonomic cool-grip rim eliminates the need for a hard-to-pack handle.

INSULMUG

- ThermoSkin insulation sleeve for a comfortable grip
- Sipping lid with secure seal and hang loop

COLOURS orange teal grey

COOL GRIP
X-TUMBLER & X-MUG

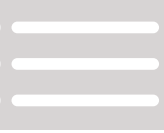

Keep your fingers cool and your drink securely in your grasp. The innovative Cool Grip construction uses specially designed fins to keep your fingers protected from the heat of your drink—and the rigid rim keeps it sturdy and easy to drink out of.

FOLDING COOKING UTENSILS

Designed with the camp cook in mind, an ergonomic handle and strong, lightweight materials all add to the cooking experience.

OUR FOLDING COOKING UTENSILS FEATURE:

STRONG AND LIGHTWEIGHT

Made with glass reinforced Nylon and food grade silicone.

FLEX AND STRENGTH

Glass reinforced Nylon gives enough flex to flip pancakes and enough rigidity to scrape off burnt rice.

PACKS UP SMALL

Simply fold the handle when the camp cooking is done—easily stows inside the 1.2L Alpha and Sigma Pots.

LIGHTWEIGHT

Perfect for fast-and-light backpacking trips.

ERGONOMIC DESIGN

Sturdy and easy to hold with a shape that’s designed to scrape clean the sides of our cookware.

BPA FREE

NEW

CAMP KITCHEN FOLDING SPATULA

This ultralight folding spatula flips pancakes as easily as it packs away.

NEW

ALPHA SERIES

Bringing performance and style to outdoor cookware, this versatile range of lightweight nesting pots and pans caters to a wide variety of users from extreme expeditioners and outdoor adventurers to family campers.

OUR ALPHA SERIES POTS FEATURE:

FULLY FEATURED LID

Easy flow strainer lid for efficient draining with integrated patent-pending LID KEEP to perch the lid out of dirt's reach.

LIGHT AND SPACE-SAVING

A two pot, two-person cook set weighs just 765g and nests to ø19 x 13cm.

PIVOT-LOCK

PIVOT-LOCK handle with ergonomic silicone grip for secure, easy operation.

SMART COOKING

Graded volumetric scale for accurate measurement.

EASY CLEAN

Large internal radius allows easy cleaning and matches the Delta cutlery profile.

NESTING DESIGN

AlphaPots are compatible with DeltaLight dinnerware, SigmaPots and AlphaPans.

FOOD SAFE SETS

DeltaLight dinnerware used in our Alpha Sets is microwave and dishwasher safe, and made from BPA-free, food-grade materials.

BPA FREE

HARD ANODISED ALUMINIUM

ALPHA POT

High quality aluminium and anodising keep weight down, while the nesting design and locking handle keeps your gear neat and organised.

SIZES 1.2L / 1.9L / 2.7L / 3.7L

VIDEO

ALPHA PAN

Flaunt your culinary flair and saute, scramble or stir-fry in the backcountry with our AlphaPans. The advanced PFOA-free coating provides non-stick performance with a durable and abrasion resistant finish.

FEATURES

- Ergonomic flip-up handle with safety lock folds underneath the pan when not in use for compact stacking and storage
- 8in AlphaPan fits perfectly around the base of the 2.7L Alpha or Sigma Pots

SIZES 8in / 10in

X-POT

Collapsible pots for quick and easy backcountry cooking. The Backpacker magazine Editor's Choice award was bestowed upon the X-Pot in 2015 for its innovation, space-saving capability and functionality. The real beauty of X-Series cookware is its ability to nest neatly with other pieces from the range and collapse to a small disc that can easily slide into a backpack, canoe bag or camping box.

OUR X-POTS FEATURE:

SUPER COMPACT

Each piece collapses to a fraction of its in-use size.

GREATER CONTROL

Translucent, durable plastic lid shortens boil time and allows finer temperature control.

NESTING DESIGN

X-Series products collapse and nest inside each other to form compact cooking and dining sets.

LIGHTWEIGHT AND DURABLE

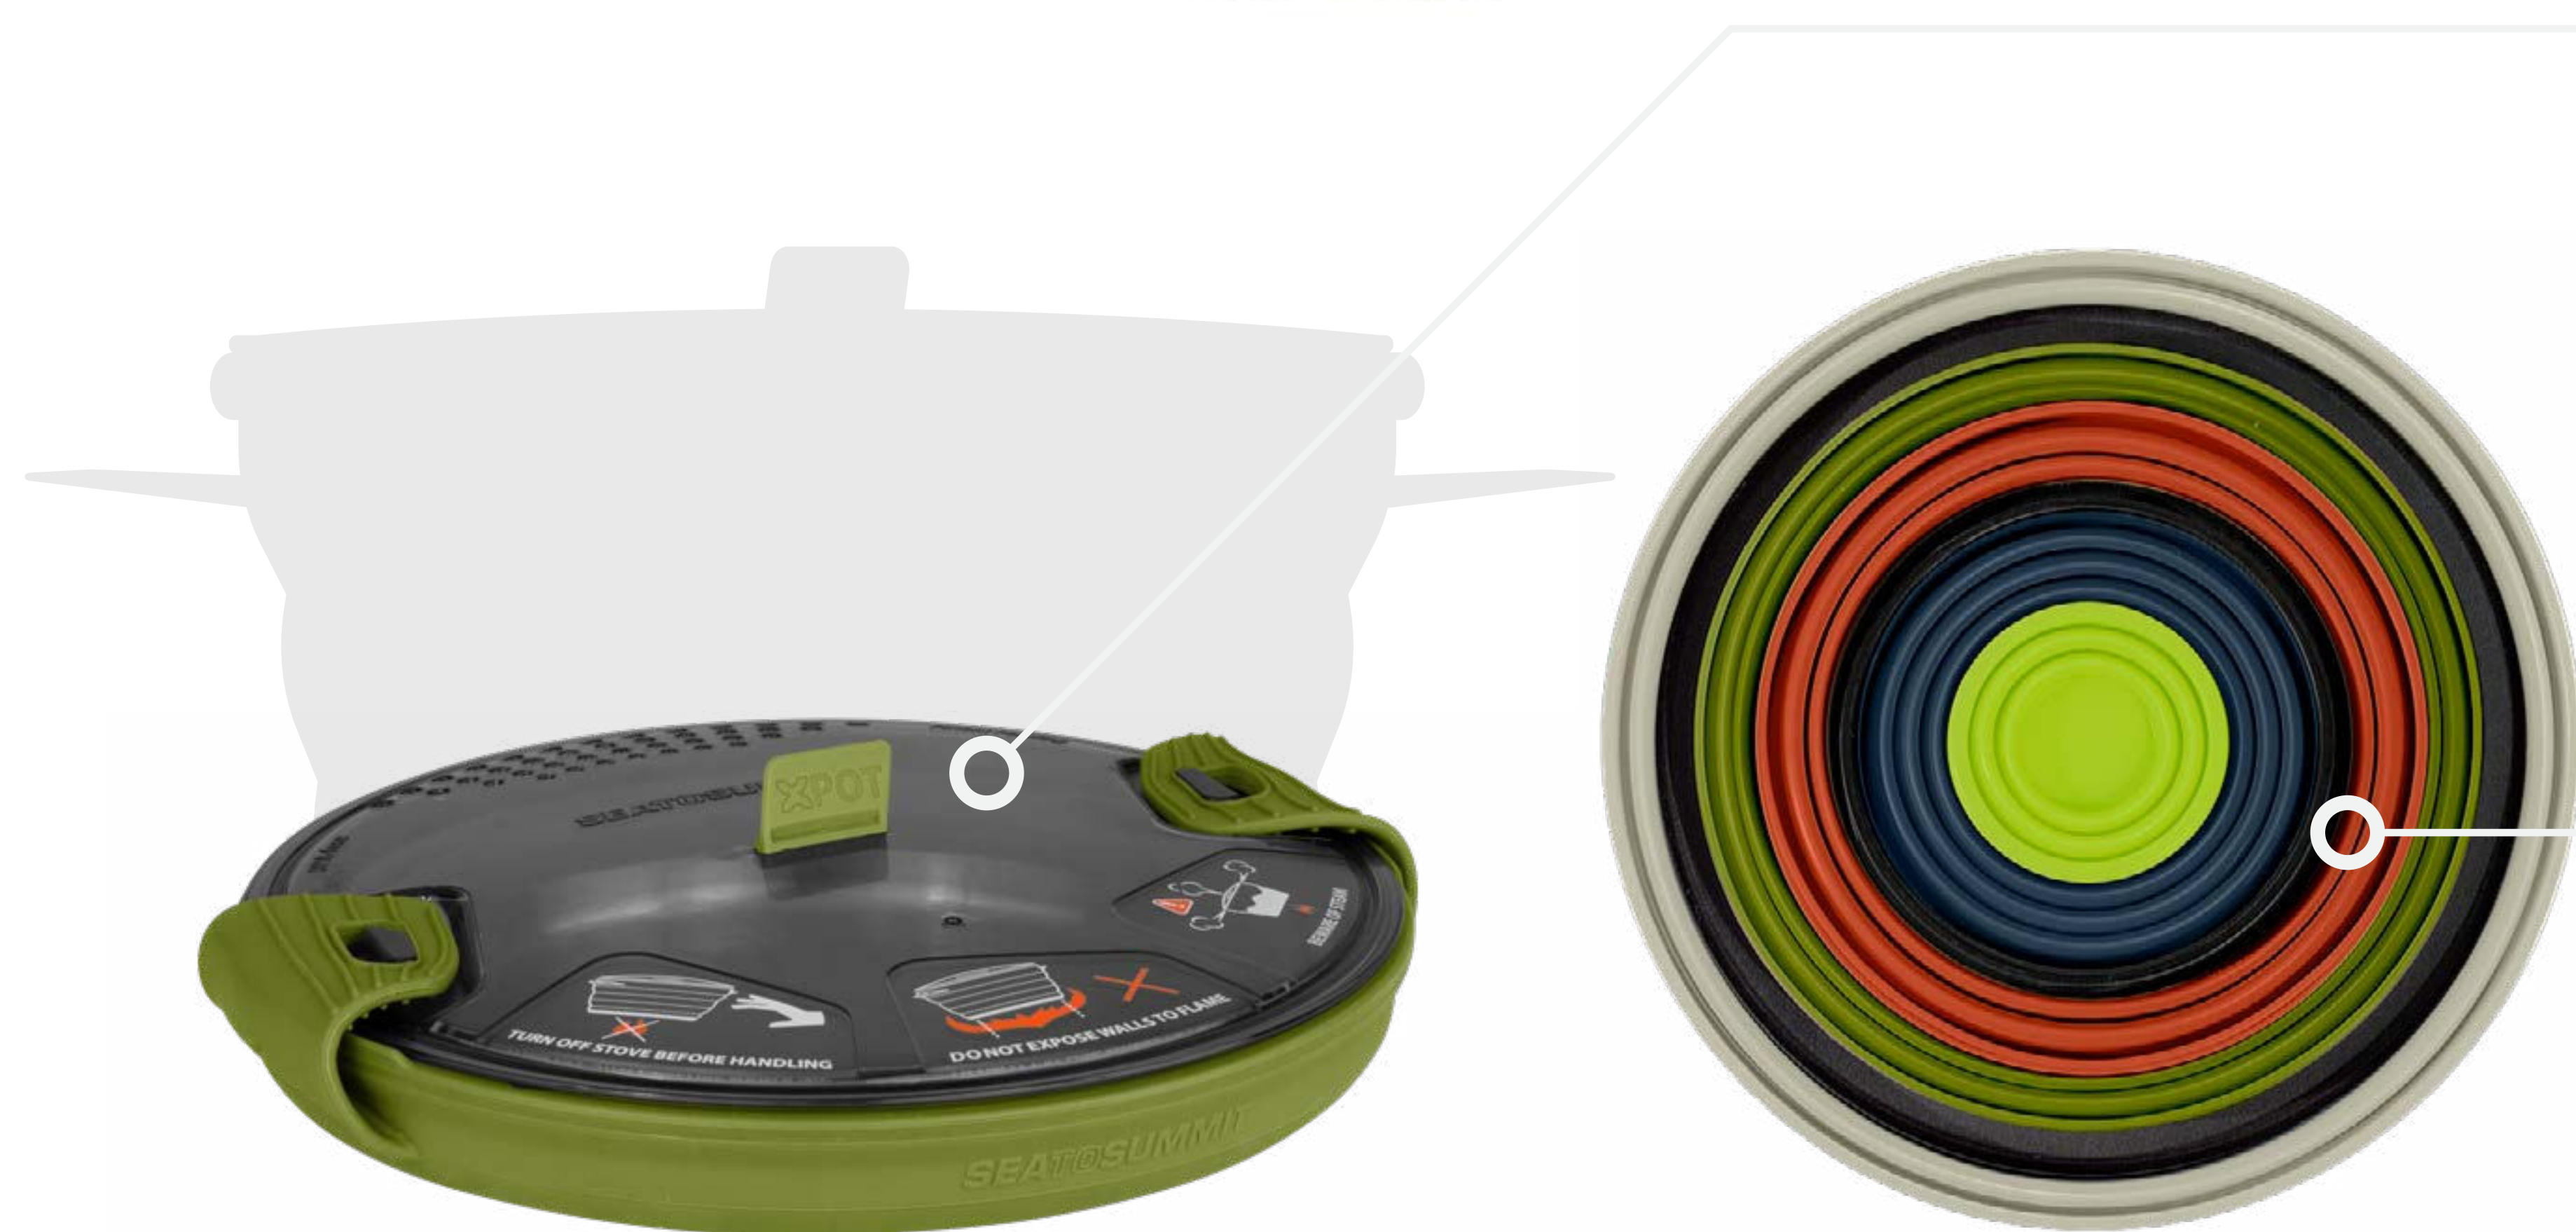

Hard-anodised aluminium base provides uniform heat distribution.

SMART COOKING

Measurements imprinted on the inside.

EASY TRANSPORT

Silicone handles secure the lid to the pot for transport.

BPA FREE

VIDEO

X-POT

Our X-Pots are the perfect solution for consumers who are light on storage space but who still want to cook real food in the backcountry.

SIZES 1.4L / 2.8L / 4.0L

COLOURS

X-PAN 8 INCH

This 8-inch pan offers a low profile, space-saving design that fits neatly together with the 2.8L X-Pot in a nesting pot/pan system.

FEATURES

- Stiff and non-corrosive stainless steel handles fold up for use and down for transport

COLOURS

X-POT KETTLE

Is it a pot or is it a kettle? It's both—and now available in two sizes. The perfect all-in-one flat-pack solution for fast and light adventures.

FEATURES

- A silicone strap secures the lid and handles during transport

SIZES 1.3L / 2.0L

COLOURS   

X-BREW COFFEE DRIPPER

For the environmentally minded backcountry barista: a collapsible coffee dripper with super-fine stainless steel filter—no need for single-use paper filters!

Adjustable webbing strap system

WATERCELL X

Ditch the awkward jerry-can or plastic water container and embrace the Watercell X, your durable soft-sided water storage solution for any adventure. We've provided multiple lash, carry and hang options, a cap that lets you fine-tune flow-control and a baffled design that makes for easy packing when full. The wide-mouth opening is easy to fill and uses a standard thread to make it compatible with most common water filtration systems. And when not in use it folds away to a minimal size that barely takes up any room in your pack, kayak or vehicle.

FEATURES

- Strong RF-welded 3D shape with internal baffle for ease of use and compact packing

SIZES 4L / 6L / 10L / 20L

WATERCELL ST

Minimalist, strong and pliable, your streamlined water storage solution for lightweight adventures.

FEATURES

- Strong RF-welded 3D shape with internal baffle for ease of use and compact packing
- Screw-top standard wide-mouth opening

SIZES 4L / 6L / 10L

PACK TAP

Bulk water on tap—ideal for groups, sea kayaking or whenever you have to carry a lot of water.

FEATURES

- Double layer, tough Mylar bladder
- Easy one-handed valve operation
- Bladder can be easily and cheaply replaced to maximise life span of product

SIZES 4L / 6L / 10L

STORAGE

DRY STORAGE

STUFF +
COMPRESSION SACKS

DRY STORAGE

For over 30 years we've been innovating with both design and materials to make the best possible product to protect gear from the elements. We created the concept of lightweight dry sacks back in the early 90s and our designs have received more industry awards than any other brand in this category.

We meticulously choose fabrics and components to ensure that the weight-performance ratio is best for the intended use. From ultralight storage and organisation inside your pack to heavy duty bags designed for high abrasion environments, our extensive range has a solution for any scenario.

SECURE CLOSURE

Our dry bags offer category-leading performance you can trust. The buckles attach closer to the fabric and won't unroll under tension. The non-wicking closure strip prevents water seeping inside when it's closed. The differential cut and stiffening strip make it easier to create an effective fold. It's this level of hidden detail that differentiates our award-winning products.

DURABLE SEAMS

Seams are one of the potential failure points of any dry bag. We either double stitch our seams or use RF-welding so our bags are more durable and abrasion-resistant—they're built to last.

FIELD REPAIRABLE

All our dry bags feature our patented Field Repair Buckles for fast and easy repairs in the field.

- Slippery siliconised fabric for easy packing

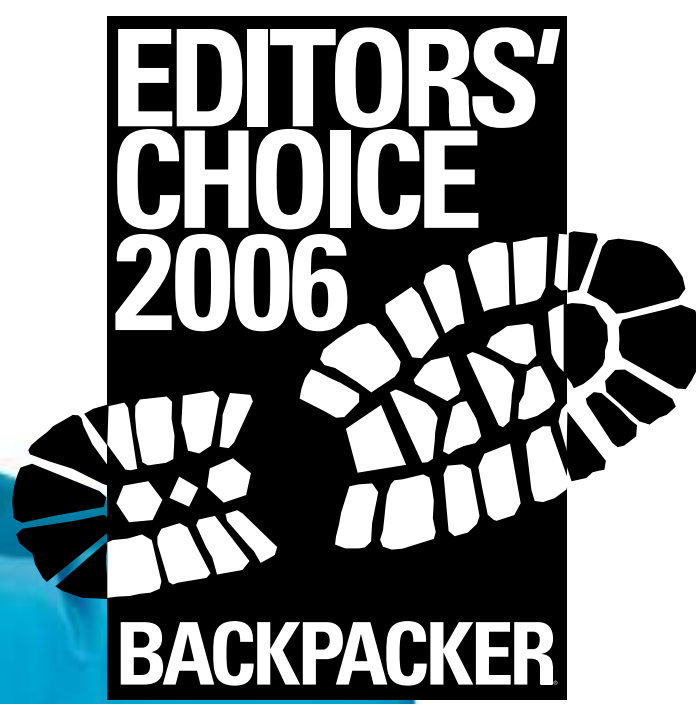

WATERHEAD 1,200mm

SIZES 1L / 2L / 4L / 8L / 13L / 20L / 35L

COLOURS   

30D ULTRA-SIL™

Ultra-Sil
DRY SACK

Pack organisation and water resistance all in one.

FEATURES

- High Tenacity CORDURA® yarn creates a stronger and more durable fabric
- Slippery siliconised finish for easy packing

WATERHEAD 2,000mm

SIZES 1L / 2L / 4L / 8L / 13L / 20L / 35L

COLOURS    

LIGHTWEIGHT | 70D WATERPROOF FABRIC

LIGHTWEIGHT 70D DRY SACK

Our most versatile dry sack—light enough for backpacking and sturdy enough for water sports.

- FEATURES
- Interior white PU coating reflects light, making it easier to see contents
 - D-ring attachment point at the buckle

WATERHEAD 10,000mm

SIZES 1L / 2L / 4L / 8L / 13L / 20L / 35L

COLOURS     

SLING DRY BAG

Over-the-shoulder convenience and waterproof protection for your gear.

- FEATURES
- Interior white PU coating reflects light, making it easier to see contents
 - Includes adjustable webbing strap for easy carrying

WATERHEAD 10,000mm

SIZES 10L / 20L

COLOURS   

70D WATERPROOF FABRIC eVent® WATERPROOF

EVAC DRY SACK

Versatile waterproof compressibility to fit bulky soft gear in awkward spaces—air compresses out, water can't get in.

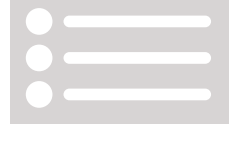

- FEATURES
- Interior white PU coating reflects light, making it easier to see contents
 - eVent® base makes for easier operation as you can purge air even after it's rolled and closed.

WATERHEAD 10,000mm

SIZES 3L / 5L / 8L / 13L / 20L / 35L / 65L

COLOURS  

LIGHTWEIGHT | **70D** WATERPROOF FABRIC **tpü**

FIRST AID **DRY SACK**

Protects life-saving supplies from bad weather and abrasive environments.

FEATURES

- Emergency red fabric printed with the international standard for first aid kits (ISO 7010)
- Clear window for easy identification of contents

WATERHEAD 10,000mm

SIZES 1L / 3L / 5L

COLOURS 

VIEW **DRY SACK**

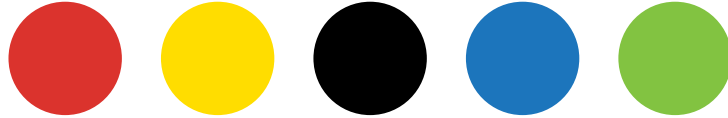

Dry storage with a clear window for easy identification of its contents.

FEATURES

- TPU window is RF-welded to the fabric for a permanent bond that doesn't need seam tape

WATERHEAD 10,000mm

SIZES 1L / 2L / 4L / 8L / 13L / 20L / 35L

COLOURS 

HEAVY DUTY | **210D** STOPPER FABRIC **tpü**

STOPPER **DRY BAG**

Fully welded construction for a durable yet lightweight dry bag you can trust.

- FEATURES
- All welded construction for permanently sealed seams
 - Durable and smooth water shedding exterior

WATERHEAD 10,000mm+

SIZES 5L / 8L / 13L / 20L / 35L / 65L

COLOURS   

CLEAR STOPPER **DRY BAG**

Rugged yet lightweight with a transparent TPU body to find gear quickly.

- FEATURES
- Optic grade clear TPU resists yellowing with age
 - Durable and smooth water shedding exterior
 - All welded construction for permanently sealed seams

WATERHEAD 10,000mm+

SIZES 5L / 8L / 13L / 20L / 35L / 65L

COLOURS 

420D WATERPROOF FABRIC **tpü**

BIG RIVER **DRY BAG**

This supple but strong fabric makes for easier packing and stowage while still offering class-leading abrasion and water resistance.

- FEATURES
- Durable lash loops provide versatility of attachment options
 - Oval base resists rolling—it stays where you put it

WATERHEAD 10,000mm+

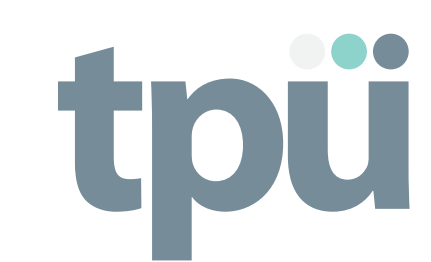

SIZES 3L / 5L / 8L / 13L / 20L / 35L / 65L

COLOURS     

HEAVY DUTY | 600D HYDRAULIC FABRIC

HYDRAULIC DRY BAG

Engineered for strength and ultimate durability—it's the gladiator of dry bags.

FEATURES

- Polyether chemistry eliminates the possibility of delamination
- Welded construction for permanently sealed waterproof seams
- Heavy-duty lash loops for secure attachment

WATERHEAD 30,000mm+

SIZES 20L / 35L / 65L

COLOURS   

HYDRAULIC DRY PACK with Harness

A super heavy-duty drypack ideal for portaging and canyon runs.

FEATURES

- Comfortable, quick drying EVA foam straps and air mesh harness
- Waist strap (35L) or hip belt (65-120L) helps support the load when the pack is filled

WATERHEAD 30,000mm+

SIZES 35L / 65L / 90L / 120L

TOWELS THAT TRAVEL

Our packable towels earn their place in your backpack or carry-on. They're lighter, more compact and will dry faster to keep you on the move.

DRY+

DRY+ FABRIC

A fast-drying, recycled fabric that won't hold onto water like traditional cotton towels.

NEW COLOURS + PATTERNS

Inspired by the natural landscape.

HANDY STORAGE

All towels come with a handy storage sack or case to make packing easier.

EXTRA ABSORBANT

Technical fabrics hold up to six times their own weight in water.

EASY DRYING

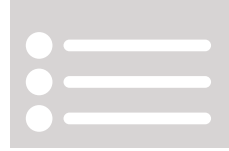

Hang Loop with press stud closure for easy drying.

EASY CARE

All of our towels are machine washable.

SOFT HAND-FEEL

Lightweight technical materials with soft finishes.

DRYLITE TOWEL

The perfect hostel travel towel—compact, super soft, absorbent and fast-drying.

FEATURES

- Suede woven fabric reduces weight and speeds up drying time, while still giving a soft hand feel.
- Remarkably absorbent and fast-drying
- Very packable—it's lighter and more compact than our Tek Towel

SIZES XS / S / M / L / XL / XXL

COLOURS 
 (XXL only)

AIRLITE TOWEL

Lightweight, super compact and exceptionally fast drying, our minimalist Airlite Towel won't slow you down.

FEATURES

- 50% lighter than our Pocket Towel
- Perfect for sweat management when on the trail or during exercise.

SIZES XXS / S / M / L

COLOURS     

POCKET TOWEL

Travel with one and you're home and dry in a jiffy.

FEATURES

- Absorbs up to three times its own weight in water

SIZES XS / S / M / L / XL

COLOURS     

TEK TOWEL

Super absorbent, quick drying towel with that at-home terrycloth feel.

FEATURES

- A classic terry towel knit fabric creates a soft, plush towel that can absorb over 6 times it's own weight in water.

SIZES XS / S / M / L / XL

COLOURS

FACE MASKS	CLEANING WIPES	LIQUID SOAPS	PAPER SOAPS	SANITISERS
		<div>UPDATED</div> 		

BARRIER FACE MASK

A thermo-formed and seamless design provides full nose and mouth coverage, while the elasticised ear loops keep the mask securely in place. Our non-medical face masks are equally comfortable for short trips to the store or longer commutes and travel.

FEATURES

- Stylish quilted three-layer construction
- Machine washable at 60°C and reusable
- For non-medical use

SIZES XS / S / R

COLOURS   

WILDERNESS WIPES

Wilderness Wipes will clean and refresh you when a shower, or even just water, isn't a possibility. The extra thick Veocel non-woven fibre is soft and gentle on your skin, pH balanced and readily compostable after use.

FEATURES

- Resealable packet

SIZES Compact / XL

SANITISING HAND WIPES

Use these extra thick Sanitising Hand Wipes to effectively kill germs and bacteria on your hands and surfaces around you. Unscented and pH balanced to be skin-friendly, the compact resealable packs come in two handy sizes—12 and 36 pieces.

FEATURES

- Kills 99.99% of germs

SIZES 12 / 36 pieces

WILDERNESS
WASH

Our super-concentrated Wilderness Wash goes a long way—it’s gentle on fabrics and skin but effective on dishes and laundry stains.

FEATURES

- Super-concentrated biodegradable formula
- Tough bottle with lid insert and secure cap, so it will not leak in your pack or bag
- Safe for personal use, pots, pans, clothes and outdoor gear

SIZES 50ml / 100ml / 250ml

UPDATED

TREK AND TRAVEL
LIQUID SOAPS

Fitting Easily into cabin baggage or an expedition pack, our Trek & Travel Liquid Soaps will spruce up everything from hair and body to clothes. The made-to-travel, leak-proof bottle is TSA carry-on compliant and the biodegradable formula is environmentally friendly.

FEATURES

- Ideal for travelling and camping
- Concentrated formula

SIZES 100ml

UPDATED

TREK AND TRAVEL
POCKET SOAPS

These palm-sized pocket soaps will spruce up everything from hair, to body, to clothes.

FEATURES

TRAVEL ACCESSORIES

EVERY DAY CARRY

This range might have been inspired by adventures to fiery mountains or golden sands, but it's equally comfortable with any everyday challenge.

Conquer bike commuting in the rain, be prepared for that unexpected shopping purchase or ditch the luggage for an impromptu day trip dalliance in a foreign land. Whatever you're faced with, we're up to the task.

Grippy TPU

Keeper strap retains excess strap

Strong, secure strap with non-slip buckle

Easy and fast to tension and lockup

ACCESSORY STRAPS

Lightweight and versatile straps for lashing gear together or attaching to your pack, deck or bag.

FEATURES

- High load rating
- Comes with either a simple ladder lock, or a quick release hook buckle.

WIDTHS 10mm / 20mm

LENGTHS 1m / 1.5m / 2m

COLOURS   

BOMBER **TIE-DOWN**

All-purpose tie-down strap with silicone protector pad.

FEATURES

- Integrated elastic strap-keeper for neat storage
- Available in three colour-coded lengths: 2m (lime), 3m (orange) and 4m (blue)

SIZES 2m / 3m / 4m

COLOURS   

TIE-DOWN
WITH SILICONE CAM COVER

Hands down the best cam-buckle tie-down you can buy. The silicone cam cover protects your boat or car from the absolutely secure and rugged metal buckle.

FEATURES

- Colour-coded according to size
- Integrated elastic strap-keeper for neat storage

SIZES 3.5m / 4.5m / 5.5m

FIELD REPAIR BUCKLE

Our patented Field Repair Buckles provide an easy repair solution for broken or worn out buckles—no need to sew in a replacement buckle once your adventure's over.

FEATURES

- Strong, corrosion resistant stainless steel pins

SIZES 15mm / 20mm / 25mm / 38mm / 50mm

REFLECTIVE ACCESSORY CORD

Perfect to use as guy lines for tarps and tents, laundry line, a hang piece for your drink bottle lid or pocket knife. Made from hydrophobic polyester, the cord won't soak up water and stretch.

FEATURES

- Super bright reflective tracer
- Tight weave resists tangling

SIZES 10m (ø1.8mm) / 5m (ø3mm)

PACK RACK

The impressively light and compact packed size makes the Pack Rack perfect for stowing in your bag and transporting boards, boats, skis and oversized gear when you're travelling and hiring cars. Conveniently stowed under your car seat, they are also great for unplanned purchases at the hardware store.

FEATURES

- Strong daisy chain provides multiple lash points for more secure fastening
- Multi-function Airstream Pumpsack for easy inflation, compact storage and a tail flag for oversize items
- Universal attachment fits a broad range of vehicles

airstream™
PUMPSACK

TRAVELLER SOFT RACKS

An quick and easy system for transporting different sized watercraft or even a lumber purchase from the hardware store. The unique daisy chain design lets you change the position of your tie down to be as close as possible to the sides of whatever object you are carrying. This makes for a more secure load, with less chance of slipping.

FEATURES

- Wide footprint to disperse load on the roof
- Carries canoes, kayaks, sit-on-tops, surfboards, SUPs, skis, snowboards and other equipment

SIZES R / L

Grippy base reduces risk of movement

Super strong, removable daisy chain

CART FOR WATERCRAFT - Solid Wheels

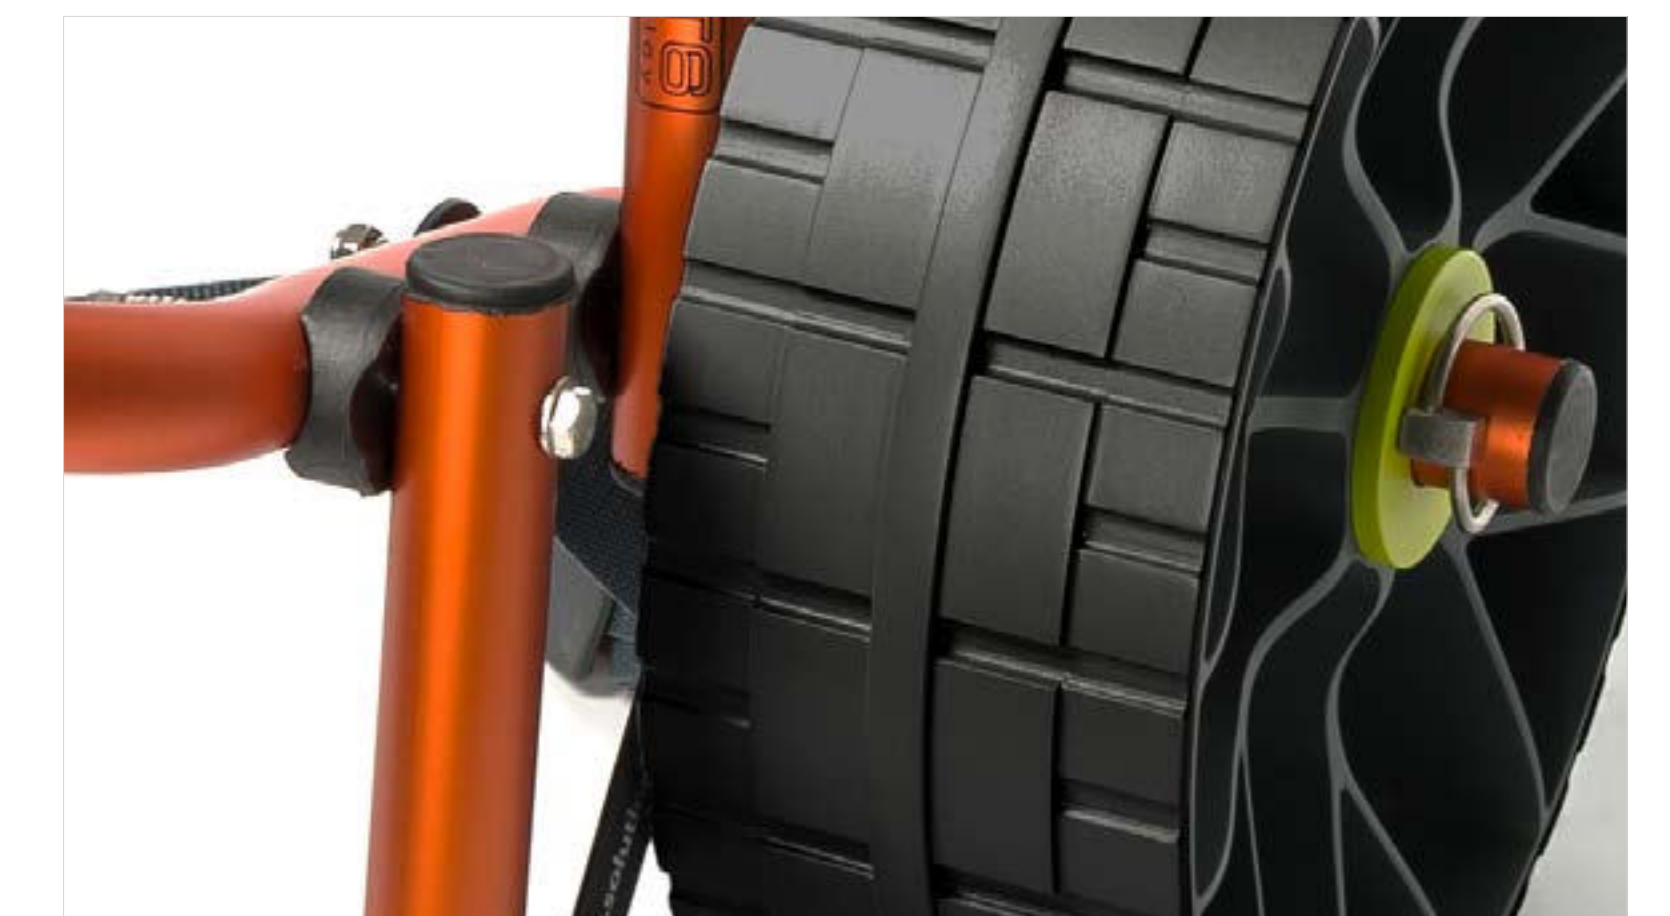

Our Solid Wheel Cart is the ideal choice for portages or transporting your kayak or canoe from the car to the water.

FEATURES

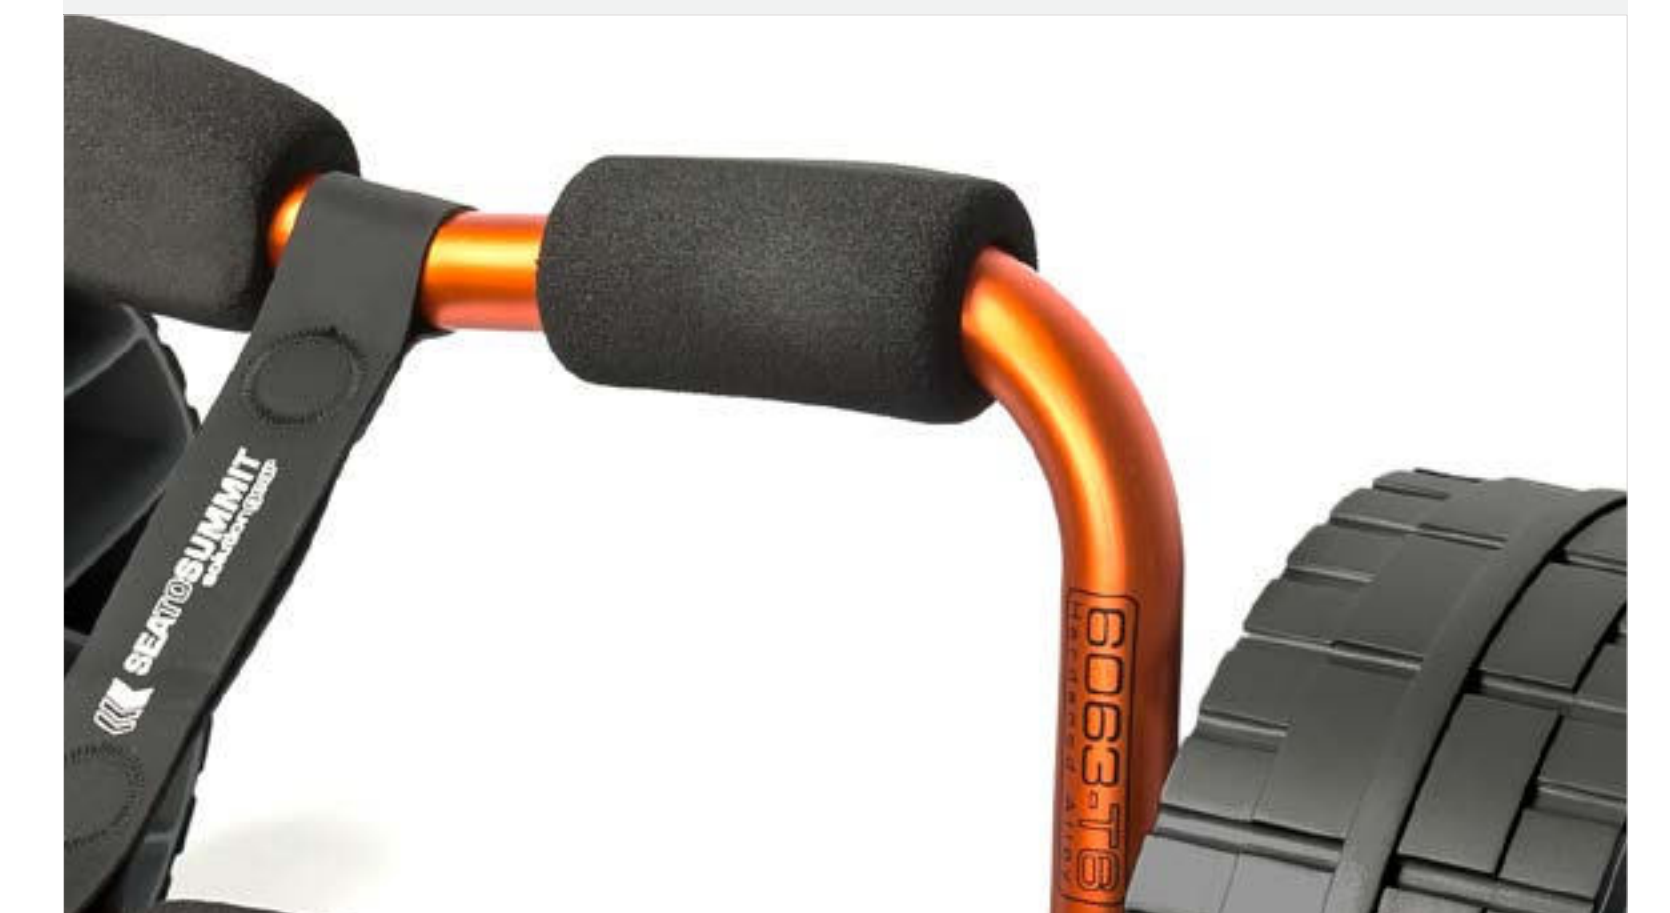

- Durable, lightweight and compact construction
- Built in tie-down with easy feed webbing

SIZES S / M

COLOURS  

Stainless steel pins

Oversized anodised 6063-t6 alloy tubing

Hypalon retainers for increased strength

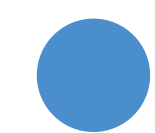

SIT-ON-TOP CART - Solid Wheels

Our Solid Wheel Sit-on-Top Cart is a unique kayak cart that is universal in application and robust enough to cater to a large range of sit-on-top kayaks.

FEATURES

- Lightweight, innovative design

COLOURS

Adjustable axle width from 180-400mm

Tapered rubber cones to fit scuppers from 24-48mm

Puncture-proof solid wheels offer great soft terrain performance

AQUASLING

Sling your watercraft onto your wall with ease.

FEATURES

- Simple design allows a single person to easily access and store their craft
- Ideal for SUPs and surfboards
- Great for indoor and outdoor applications
- Easy to install—complete mounting hardware and instructions included

AQUARACKS

Aquaracks can accommodate virtually any paddle craft on the market and allow for storage at almost any angle without causing damage. They are a great way to store your boats in the garage, gear shed or favourite room at home.

FEATURES

- Specially designed padded arms prevent damage or depressions to the hull and finish
- Suitable for indoor or outdoor applications

PADDLE KEEPER

Our Paddle Keeper is the perfect solution for keeping your paddle attached to your kayak or canoe when resting, fishing or during the occasional swim. Can also be used as a fishing rod lanyard.

FEATURES

- Suits standard shaft diameter range of 28–32mm
- Double hook-and-loop paddle shaft attachment that doubles back for enhanced security

PADDLE LEASH

Lightweight paddle leash for both sea and kayak fishing.

FEATURES

- Stretchy inner cord for more flexibility
- Hook-and-loop closure on durable, non-slip strap for security

BILGE PUMP

A must have for any open water paddler, our Bilge Pump is a quick and effective way to empty water from your kayak or canoe.

FEATURES

- High-volume, double action pump extracts 400ml per pump
- Full-length high visibility foam with reflective logo aids recovery

FOAM PADDLE FLOAT

Foam paddle floats require no inflation making them faster and easier to deploy in the event of a capsize.

FEATURES

- Includes an attached, high visibility safety whistle
- Mesh paddle blade garage for water drainage

INFLATABLE PADDLE FLOAT

This single chamber inflatable paddle float can be used in conjunction with a paddle to stabilise a kayak in the event of a capsize, making re-entry easier.

FEATURES

- Easy access from deck during emergency
- just pull the red tab

FLEXI FIT SPRAYSKIRT

The Flexi Fit Skirt is for anyone who wants a multi-fitting tunnel. Having a 2mm flexible neoprene waist will increase your torso comfort over a long paddle. Available in four cockpit sizes.

FEATURES

- Super soft binding for increased comfort
- 4mm small diamond neoprene skirt with a 2mm flexible neoprene waist for extra give
- 40mm wide pull-tag sewn in for easy opening

SIZES S / M / L / XL

ACCESS
DECK BAG

Our Access Deck Bag offers easy access to essentials like a camera, sunscreen, and snacks without exiting your kayak. With two different systems, it's also super simple to attach without needing to add any cord or extra attachment points.

FEATURES

- Curved, water-resistant zip
- A 70D drybag is also secured internally to provide complete waterproofness for the internal contents.
- Two methods of securing to your kayak: hook-and-loop strips on the base, or side release buckles on the sides

SUP
DECK BAG

While it was designed for Stand Up Paddleboards, there's also no reason to limit yourself to SUPs—this bag is equally useful on all manner of kayaks, boats, and rafts.

FEATURES

- Non-wicking roll-top closure
- Lash points can be secured to your craft with 3M brand self-adhesive.
- Strong durable loops for attaching gear externally

GLOSSARY

15D ULTRA-SIL™

Our proprietary ultralight 15D Ultra-Sil fabric has a siliconised outer surface that improves water repellency and prevents the fabric from absorbing water. It also has a Polyurethane (PU) inner face to create a water resistance of 1,200mm and allow seam-sealing.

30D ULTRA-SIL™

Our proprietary Ultra-Sil fabric employs CORDURA® high-tenacity Nylon yarn for increased strength and abrasion resistance. In our Ultra-Sil Dry Sacks, the 30D high-tenacity Nylon outer face is impregnated with silicone and a Polyurethane (PU) coating is applied on the inside. It has a water resistance of over 2,000mm. The silicone outer face sheds water exceptionally well and creates a slippery surface for easy packing. The PU coating on the inside improves the waterhead rating and allows for sealing of the seams.

70D WATERPROOF FABRIC

This is our lightweight high density weave waterproof fabric. It's a 70 denier 210T Nylon with a white interior polyurethane (PU) coating. The high density 210T weave gives the fabric a stronger tear strength and greater durability. The white PU coating reflects light and makes it easier to identify contents inside your dry sack. We vary the PU coating to make two different versions of this fabric: 2,000mm (Nylon Stuff Sacks, Pack Covers and Compression Sacks) and 10,000mm (Lightweight Dry Sacks, eVac Dry Sacks and Dry Compression Sacks) waterhead rated.

ORIGIN RECYCLED FABRIC

Our Origin fabrics use recycled Nylon made from waste yarns, discards from weaving mills and fabric scraps from factories. All this material used to be sent to landfill but is now reclaimed and recycled into high quality Nylon fabric.

210D STOPPER FABRIC

Our Stopper fabric is made from 210 denier Nylon that is Thermoplastic Urethane (TPU) laminated on the outside. The hydrostatic waterhead test went off the scale on our Hydrostatic test machine. A departure from our usual internal TPU lamination, Stopper fabric has a stiffer feel than our Big River 420D fabric and a smooth water-shedding finish. The substantial TPU lamination allows us to construct dry bags with permanent welded seams that don't require any sewing or taping. Stopper fabric is ideal where there is a lot of abrasion coming from the inside

420D WATERPROOF FABRIC

Otherwise known as our Big River fabric, this is made using a super-durable ripstop Nylon with a white waterproof Thermoplastic Urethane (TPU) laminated to the inside. It's a 420 denier fabric with a waterhead in excess of 10,000mm+ (we exceeded the limits of our Hydrostatic test machine). This fabric has a high density weave and is extremely abrasion resistant.

600D HYDRAULIC FABRIC

Our Hydraulic fabric is stiffer and tougher than our Stopper fabric and has a waterhead of 30,000mm+. It's constructed from a 300D x 600D Nylon with a heavy Thermoplastic Urethane (TPU) laminate exterior. The 600D X 300D is the best strength-to-weight fabric in this category and the heavy TPU laminate gives a tough, smooth, water-shedding exterior and allows us to weld Hydraulic Dry Bags—meaning no sewing or taping is required. This is our guide/expedition grade dry bag fabric.

CORDURA® BRAND FABRIC

CORDURA® brand yarn is a high-tenacity Nylon yarn that's stronger and more abrasion resistant than standard Nylon fibres of the same weight.

eVent® is a proprietary waterproof breathable membrane fabric with micro-fine pores that allow the passage of water vapour but not liquid. Traditionally, waterproof and breathable PTFE (polytetrafluoroethylene) membranes glog easily by body oils, which renders them useless after a little use. The solution was to add a PU backing to protect the PTFE membrane. When thin enough, PU still allows vapour transmission but at a much lower rate. Some manufacturers avoid the membrane and just use a PU coating. The PU has to be relatively thick to ensure sufficient waterproofing, resulting in even lower breathability. The genius of eVent® was to make the membrane oleophobic (oil repellent), meaning it wouldn't clog with oils, therefore didn't need the inhibiting PU layer. At 20,000mm, eVent® is the most breathable waterproof fabric we know of. It is sufficiently breathable that a pressure gradient can force air through it. We use eVent in this way as a purge valve in the bottom of our eVac Dry Sacks, and our Ultra-Sil and 70D Dry Compression Sacks.

Thermoplastic Urethane (TPU) is a PVC-free material used as a waterproof barrier in our Accessory Guide Cases and Map Cases and in several models of our Dry Sacks. In its film format, its superior flexibility (even in cold weather) and waterproofness are key. It's also used as a transparent window in our View Dry Sacks and First Aid Dry Sacks.

DRY+

Our DRY+ fabric is a remarkably fast-drying, recycled polyester blend with exceptional absorption. The fine yarn creates a greater surface area that holds three to six times its own weight in water—and dries faster than traditional cotton towels.

Ultra-Mesh is a 15 denier multi-filament Nylon mesh with 310 holes/cm² (2000 holes/inch²). Stronger than polyester yet ultralight, the multi-filament construction is soft and supple and dyed black for greater visibility of contents.

Made from a very durable 150 denier Polyester with 80 hexagonal holes per cm², it's dyed black for greater visibility of contents.

Ultra-Vis is a 15 denier, Nylon mesh with 80 hexagonal holes per cm² (500 holes/inch²). It is lighter and more compact than Ultra-Mesh. The mesh density allows great visibilty and airflow.

THERMOLITE® insulation provides lightweight warmth for all activites. We use THERMOLITE® insulation in many of our sleep system products in different forms. Sleeping bag liners use THERMOLITE® fibre knitted to create our Reactor THERMOLITE® fabric. Sleeping bags use THERMOLITE® insulation that is designed for superior warmth and exceptional softness. Our insulated Air Sprung Cell sleeping mats use THERMOLITE® insulation that is designed with high loft for excellent lightweight warmth with superior durability. The THERMOLITE® insulation lofts up inside the Air Sprung Cells to prevent convective heat loss from your warm body to the cold ground. THERMOLITE® is a trademark of the LYCRA Co.

Adaptor COOLMAX® is our most versatile liner fabric, it transports moisture away from the body to keep the wearer cool and dry in hot, humid environments for a more comfortable nights sleep and can adapt to add warmth when used as a layer in a sleeping bag. The COOLMAX® fibre is knitted into a 80g/m² fabric that is extremely breathable and extremely stretchy, which is great for the restless sleeper. COOLMAX® is a polyester fibre with a channeled cross section that wicks moisure away from the body and dries quickly. Machine washable and quick drying. COOLMAX® is a trademark of the LYCRA Co.
