WORKBOOK

ANYWHERE ADVENTURE ABOUNDS

Since 1990, Sea to Summit has been your ally in every adventure—whether that's on the deck of your sailboat or on a high-altitude expedition.

Designed to be the perfect balance of clever, packable and light, our award-winning products encourage self-reliance on any terrain.

Our love of the outdoors and our relentless pursuit of design perfection is what drives us. That's why you can find our gear in the backpacks of explorers everywhere—from our home in Western Australia to the snowy mountains of Europe and the vast trails of North America.

FOUNDER STORY

Roland Tyson started making outdoor gear on an old industrial sewing machine in his childhood bedroom in 1983 at the age of 17.

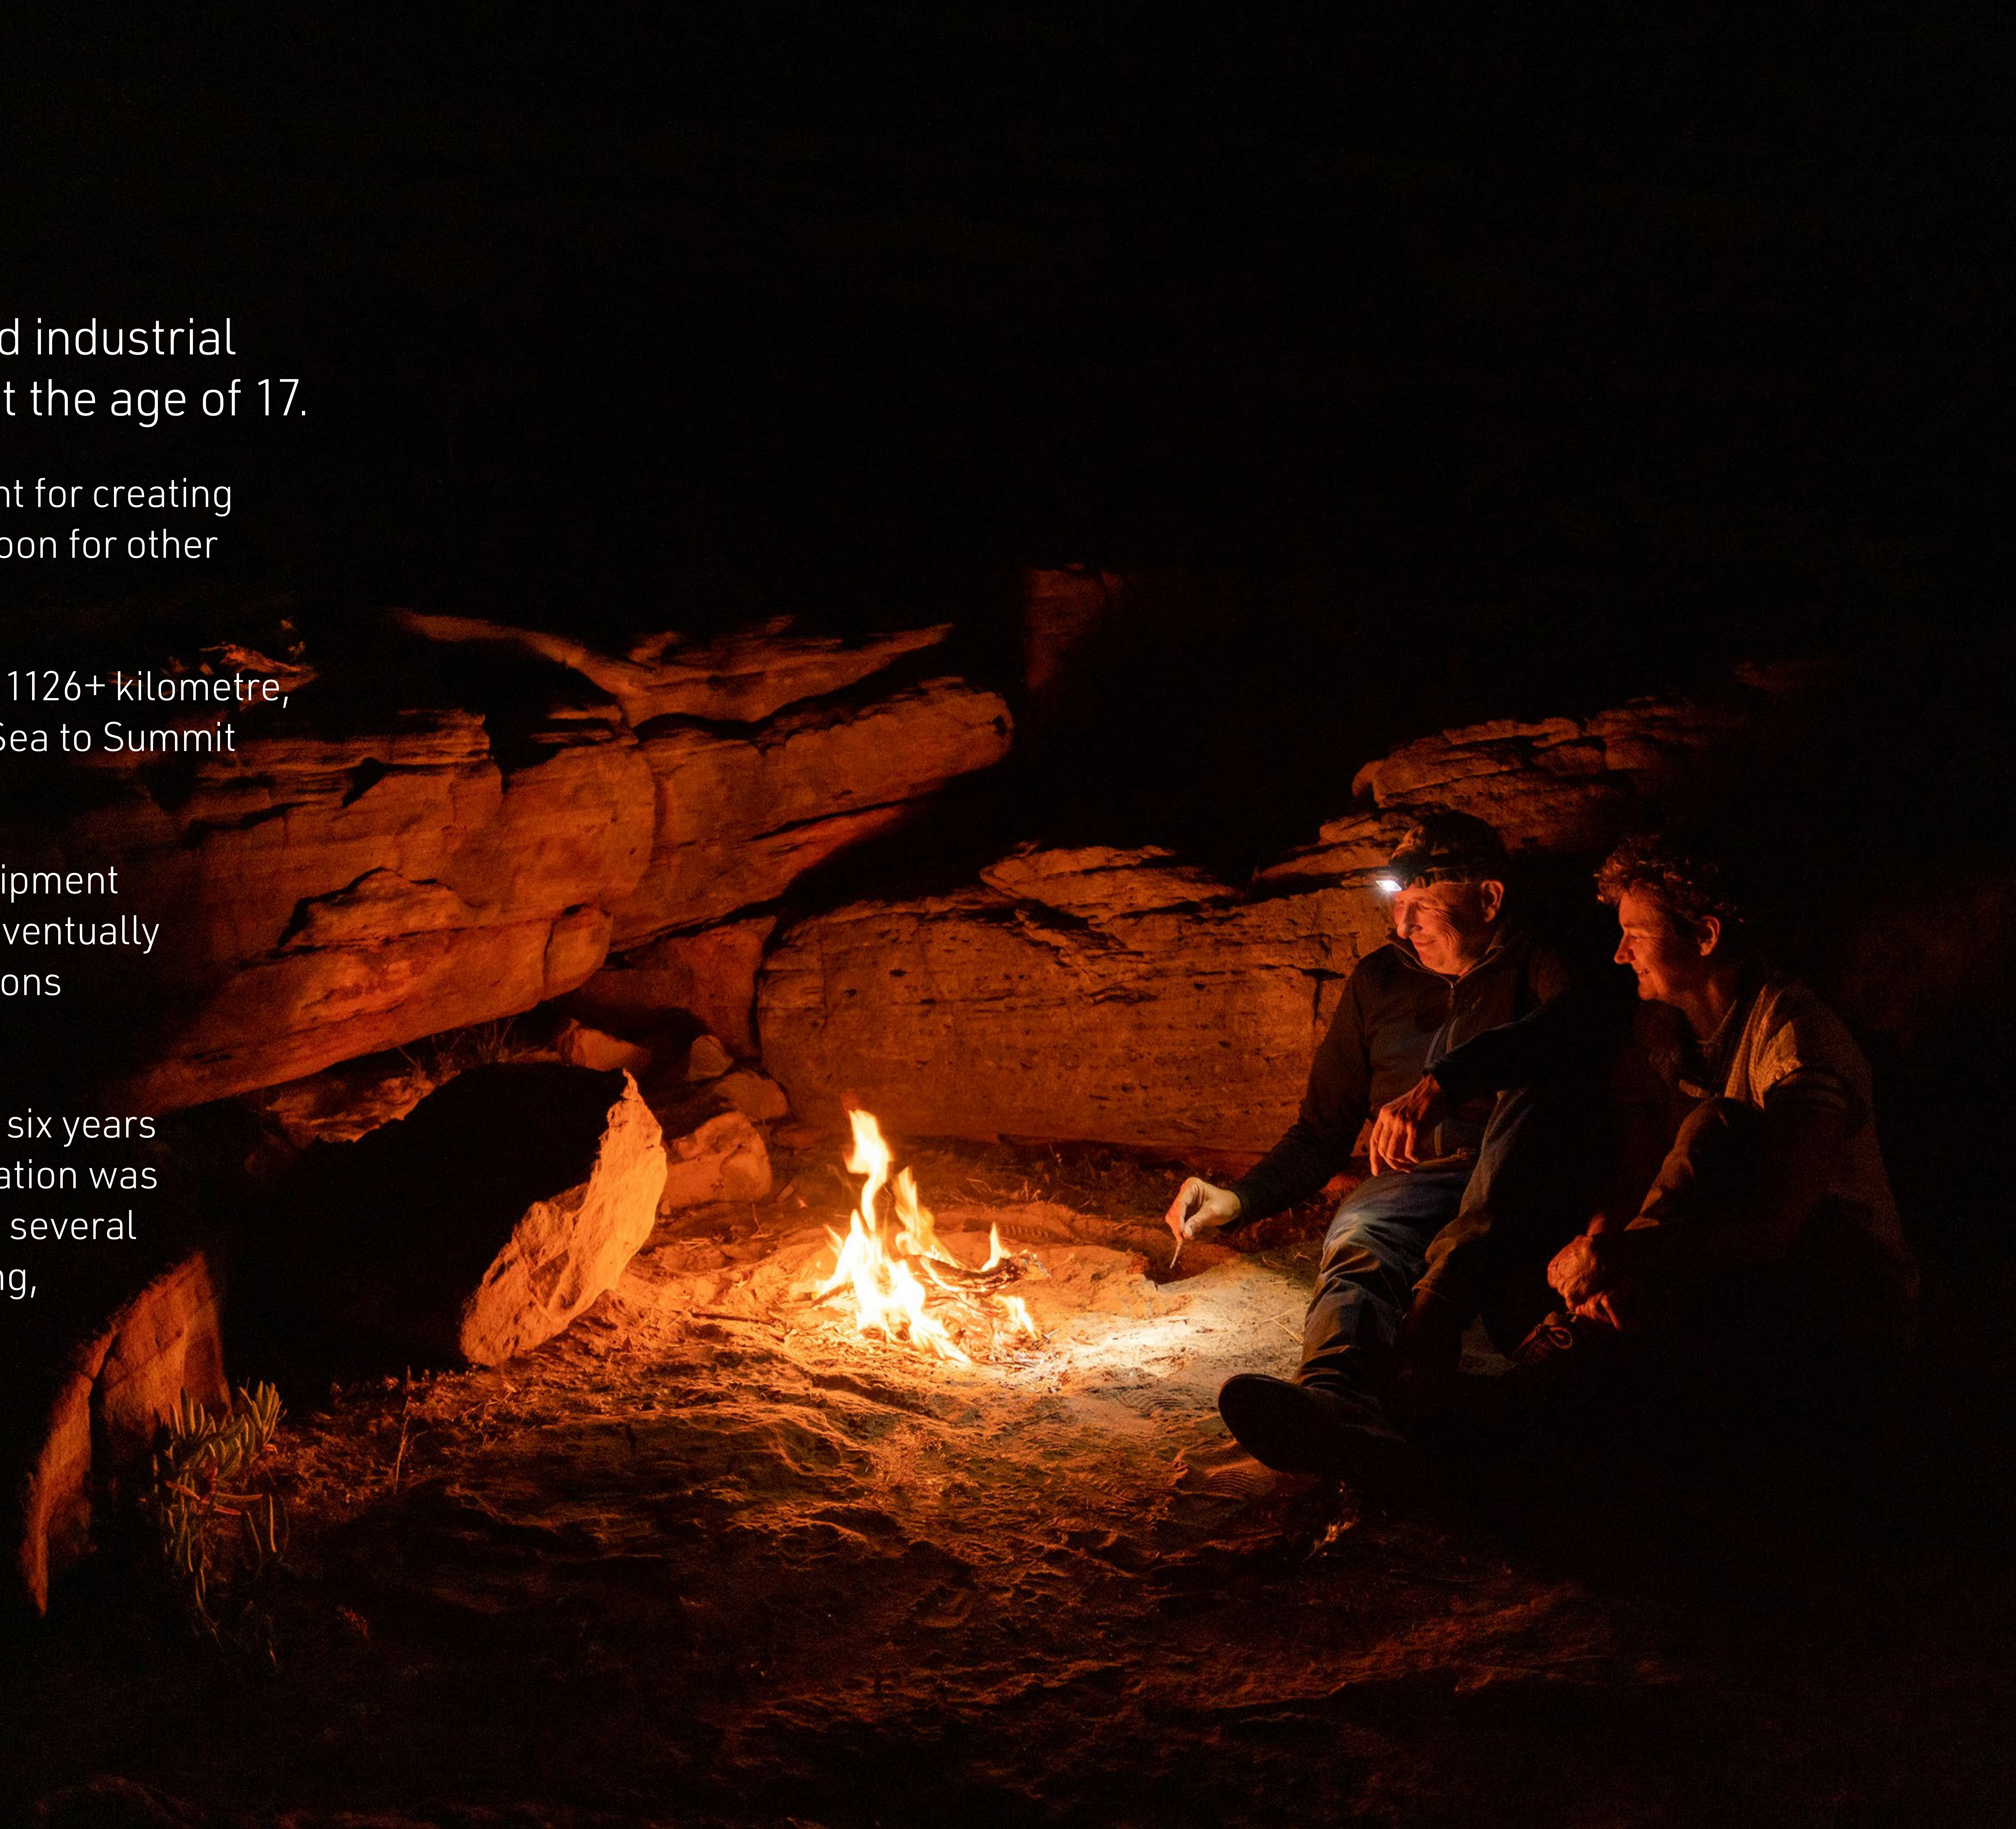

As a young outdoor enthusiast, Roland had a passion and a talent for creating cutting-edge outdoor equipment for his own adventurers, and soon for other Australian adventurers.

By 1991, after outfitting an unusual first ascent of Mt. Everest (a 1126+ kilometre, 8848 metres in elevation trek from sea level to a solo summit), Sea to Summit was born.

Roland's drive to design the best, lightest and most durable equipment would take him farther into the remote Australian outback and eventually into the Himalayas. In these wild places, he could put his inventions to the ultimate test.

In 1993, Roland was joined by Penny Sanderson, who had spent six years at Australian Geographic. Her passion for exploration and innovation was a perfect fit for Sea to Summit. She and Roland began travelling several months out of each year, spending time climbing, sailing, trekking, overlanding and biking. Everywhere they went, they tested products and iterated design.

Sea to Summit quickly grew into a successful global brand, with Penny and Roland's love of travel and design as the foundation. Together, they own and manage Sea to Summit, still taking part in every step of the journey from developing raw materials to putting perfected gear into the hands of customers worldwide.

SUSTAINABILITY

Our love of the outdoors is what drives innovation, exploration and adventure. It also compels us to make meaningful steps towards improving our environmental and social impact.

We are surfers, hikers, bikers, paddlers, sailors—lovers of outdoor spaces and we are inspired by the freedom those spaces provide. Stewardship of our natural environment is as important to us as the creation of new products, and we purposefully make gear that lasts and can be easily repaired.

We often do things or take actions because we just know it's the right thing to do—and then forget to ever mention what we've done. Like our head office in Perth, Western Australia being purpose-built to be energy efficient and having a 40KW capacity solar system that offsets our energy consumption.

Acknowledging we can do better, we have begun a major project to understand how our brand impacts our global environment, so that we can better guide our future actions to reduce our carbon footprint. This project includes estimating our Scope 1, 2 and 3 carbon emissions by mid-2022.

At Sea to Summit, we invent gear that enables freedom and self-reliance in any environment—and we believe it is imperative that same environment be around for future generations of adventurers to enjoy.

The meaningful steps we are making towards improving our environmental and social impact and our commitment to being transparent about our progress is the only way to guarantee we do our part in making that happen.

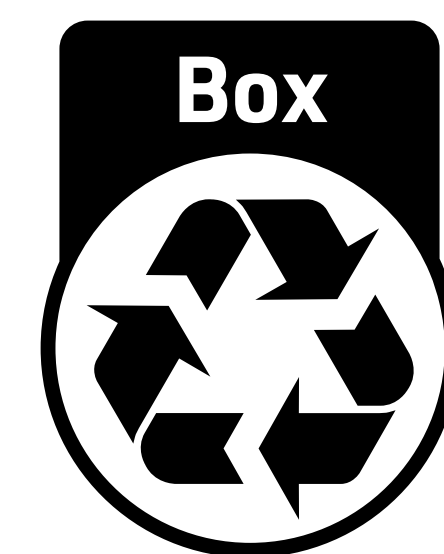

Easily Recyclable Packaging

We approach packaging design as we do product—with meticulous attention to detail.

Seeking better solutions is an ongoing challenge, and it's why we've recently undergone the most significant packaging review in our three decades of operation.

The outcome will see us transition all packaging to responsibly sourced card-based and easily recyclable materials, reducing single-use plastic and maximising carton-efficiency across our entire product line by 2025.

We've also adopted the world-leading Australasian Recycling Label (ARL) Program icons. Much like the US-based How2Recycle, this Program is an on-pack labelling scheme that provides clear and simple instructions on how to recycle all of the separable packaging components, encouraging responsible consumer behaviour.

arl.org.au

Sustainable Product Design

We are striving to reduce the environmental impact of our products by increasing the use of recycled materials, choosing better chemistry through our commitment to bluesign® APPROVED fabrics and transitioning to C0 non-PFC water repellent finishes.

You'll see these sustainable design attributes throughout our product pages from C0 non-PFC DWR finishes on our gaiters, sleeping bags, Ikos tents and storage solutions; recycled polyester in our DRY+ towels and traceable recycled nylon and bluesign® APPROVED fabrics introduced to our updated storage range.

We've set ambitious goals for ourselves, and we will continue communicating our progress.

Better Chemistry

Producing high-spec, performance fabrics requires chemicals.

By choosing bluesign® APPROVED fabrics we are ensuring the chemicals used meet the strict consumer safety and environmental requirements of the bluesign® CRITERIA and are produced in a resource conserving way. We have committed to 100% bluesign® APPROVED textiles by 2030.

Most sleeping bags and gaiters have already transitioned to C0 non-PFC water repellent finishes and in 2023, our tents and storage will join them. Our goal is to use 100% C0 non-PFC water repellent finishes by 2025.

Responsibly Sourced Down

Sea to Summit is certified to the Responsible Down Standard (RDS) and 100% of the down used in our sleeping bags and quilts is independently certified to the RDS. The RDS certifies down against animal welfare requirements and tracks it from the source to the final product. Our ULTRA-DRY Down treatment is also C0 non-PFC.

Recycled Materials

By switching to recycled content, we are limiting our dependence on virgin raw materials and reducing the carbon footprint of our products.

Our DRY+ towels already use recycled polyester and in 2023, we are transitioning all of our recycled 70D lightweight nylon to be independently certified to the Recycled Claim Standard (RCS). The RCS verifies the recycled nylon and tracks it from the source to the final product.

We have committed to a goal of 90% Primary and 50% Secondary Materials be recycled, bio-based or otherwise sustainable by 2030.

Easy-Care for Longevity

Sustainable product design starts with engineering long-lasting and easily repairable products—care and maintenance then extend the usable life.

Many of our products include or have readily available components to enable simple repairs and we provide them at no charge (or nominal cost) to end-users in an effort to keep usable product out of landfill. We also help educate customers on caring for their gear to keep it functioning at its best, for longer. Check out [Product Care](#) on our website.

Care For Our People

Much like our products—we build relationships that last.

It’s important to us that we take care of the people who work for Sea to Summit and the people who make our products, which is why we’re committed to fair labour practices in our supply chain.

Our Product Creation and Supply teams partner with our local suppliers and third-party auditors to confirm compliance with our factory Code of Conduct, which aligns with the internationally recognised SA8000 Social Accountability Labour Standard.

How We Give Back

We support non-profits that preserve the places we play and that enable more people to get out and enjoy nature. We’ve had decade-plus relationships with many organisations; others are new to us—all are positively impacting people and the planet. These are some of the organisations we currently support:

WARRANTIES

Sea to Summit Guarantee

We stand behind our products and strive to exceed expectations.

For over 30 years, Sea to Summit has designed and built award-winning gear that's continuously tested in the Australian outback and demanding environments around the world.

We guarantee our products against manufacturing defects within a reasonable time from purchase—and we strive to keep the claim process straightforward.

Customer satisfaction is our ultimate priority. While we advocate, educate and promote simple care and maintenance to extend a product's usable life, in instances of a manufacturing defect we replace, repair, or provide credit for the item. This is assessed on an individual, case-by-case basis.

Put simply, we always do what we know is right to build products and relationships that last.

What's Reasonable?

Environmental Wear and Tear: Our products are engineered using quality materials that are specific to the end-use. Normal wear and tear and the breakdown of materials due to age, use, or environmental conditions are not covered under our guarantee.

Accidental Damage: Damage due to improper use or care, accident, or negligence is not covered under our guarantee. However, we always aim to exceed expectations, so we'll look to assist with a functional repair whenever possible.

Limited Duration: Due to their very nature, some of our products are intended for use in situations which result in higher rates of wear and tear, which is why they have a limited warranty duration. This is clearly marked on the packaging and on our website, so customers know where they stand, and what to expect.

WORKBOOK GUIDE

We want to make navigating this workbook as easy as possible.
Here’s how to make the most of our workbook.

NAVIGATION ICONS

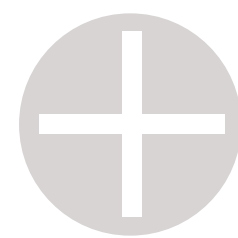

Use these icons to navigate and shortcut through the workbook.

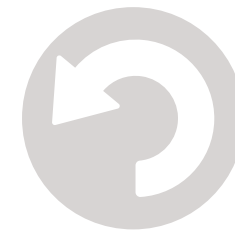

The **MENU**, located at the top of most pages will always take you back to the table of contents.

The **EYE ICON**, located at the top of most pages will always take you back to the overview page for that range.

The **PLUS SIGN** icon will take you to expanded information about that product.

The **RETURN ARROW ICON** will take you to back to the associated product page.

If a product has a **VIDEO ICON** it will take you to a web based product page.

WHERE HIGH QUALITY MATERIALS, CLEVER FUNCTIONAL TOUCHES AND UNIQUE LIVABILITY MEET

CLASS LEADING DESIGN + ENGINEERING

Our tents, tarps and shelters are characterised by innovation. We innovated ours to provide more living space, higher doors and far better ventilation amongst many more features.

UNMATCHED VERSATILITY

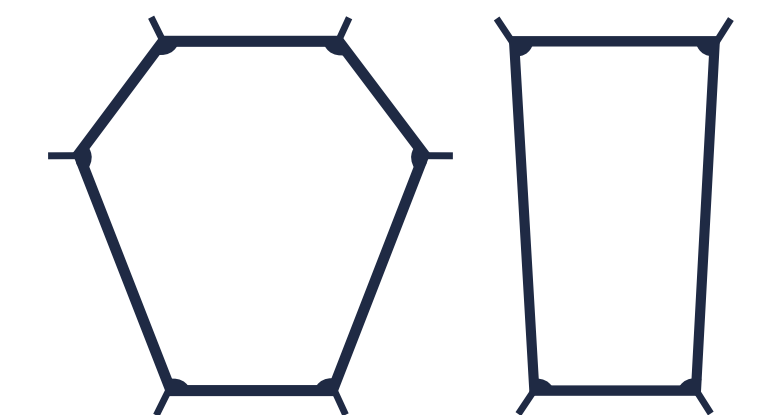

Roll up the rainfly in Stargazer mode on a moonlit night. Or tilt the Telos or Ikos rainfly into Hangout Mode, forming a semi-enclosed shelter for you and your mates.

USER-FOCUSED DESIGN

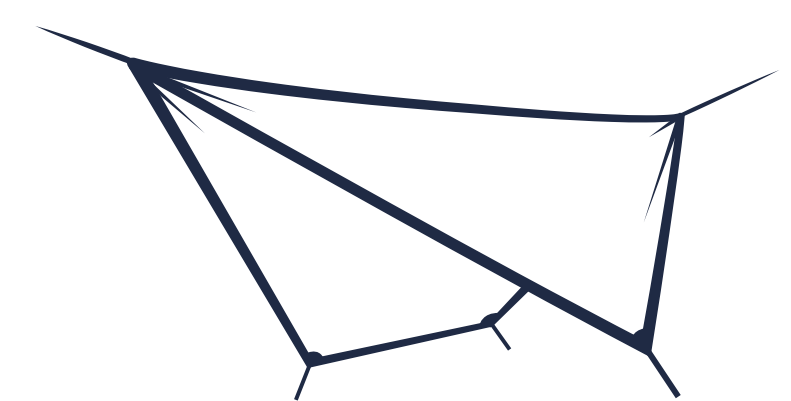

These are not 'features', or designer gimmicks. They are design elements that make our shelters easier to live with.

TENTS

TENT, TARP + SHELTER ACCESSORIES

TARPS + SHELTERS

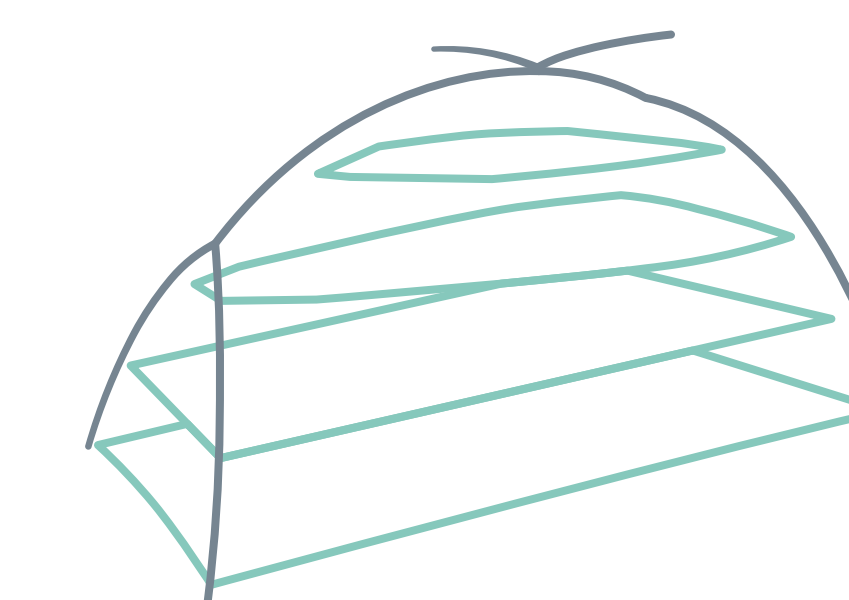

ALTO + TELOS TENTS

Award-winning, ultralight backpacking tents with more space, superior ventilation and unmatched versatility.

ALTO TR

TELOS TR

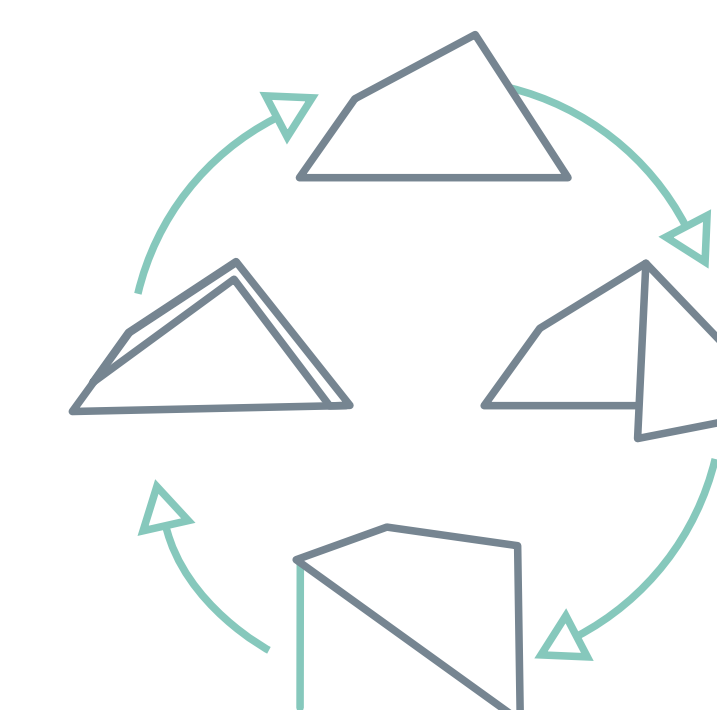

MORE SPACE

Tension Ridge architecture delivers a better space-to-weight ratio than any tent in its class.

SUPERIOR VENTILATION

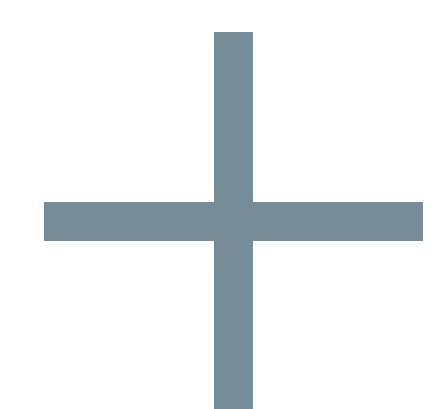

An advanced venting system improves airflow and reduces condensation.

UNMATCHED VERSATILITY

Multiple configuration options means our tents adapt to the weather or your activity.

TENSION **RIDGE**
ARCHITECTURE BY JAKE LAH

REVOLUTIONARY TENSION RIDGE ARCHITECTURE

Where most tent poles angle down,
the Tension Ridge angles up to achieve
exceptional height and space.

TENSION RIDGE

ARCHITECTURE BY JAKE LAH

HIGH CEILINGS

Tall campers rejoice! Tension Ridge
creates greater height across the
whole tent—not just in one spot.

VERTICAL WALLS

No aggressively tapered walls
here—just plenty of room for
thicker modern sleeping mats.

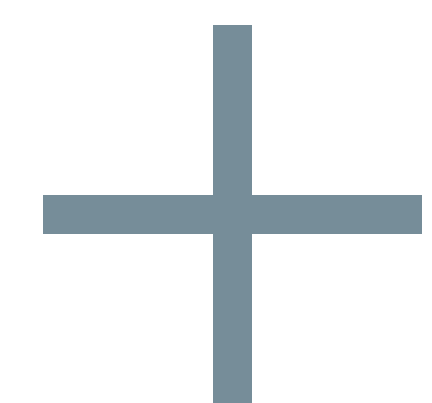

APEX VENT

Unlike most, our Apex vent is at the
highest point of our tents—the perfect
position to expel moist warm air and
minimise condensation.

TALL DOORS

Get in and out of your
tent with ease and enjoy
expansive views outside.

OUR TENSION RIDGE TENTS FEATURE:

HANGOUT MODE

Convert your tent's fly into a semi-open shelter—perfect for group meals, socialising and staying undercover. Featured in all our Telos and Ikos models, simply set-up with trekking poles or the Hangout Mode Pole Set (available separately).

QUICK-CONNECT TENT FEET

Machined aluminium clip attaches and tensions the fly with one-handed ease—much stronger than breakable plastic buckles.

STORAGE SYSTEM

Alto and Telos tents pack into three Fairshare stuff sacks to split the load—after set-up, stuff sacks transform into gear storage pockets. The Telos Bikepack tent features robust, waterproof dry bags with air-permeable eVent® bases. The new Ikos tent comes in a lateral compression storage sack for saving space in your pack, boat or vehicle.

COLOUR-CODED DAC POLES

The gold standard in tent poles—our Alto and Telos tents combine DAC Featherlite NFL, NSL and PRESSFIT sections. The Ikos tents feature DAC MX poles

GROUND CONTROL LIGHT TENT PEG

Lightweight, strong and versatile—our unique TriPoint tent pegs maximise grip in almost any ground.

LIGHTBAR

Add a headlamp and secure your Alto or Telos tent pole storage sack to the apex of the tent for soft, even illumination.

MULTIPLE SET-UP MODES

Our tents easily adapt to suit your adventure, weather conditions and weight requirements.

ESCAPIST GROUND SHEET

Protect your shelter floor or sleeping mat from groundwater, thorns, mud, and dirt with this tough, lightweight and waterproof ground sheet.

FEATURES

- Sized to fit under both our Escapist 15D Tarp shelters and our Escapist Ultra-Mesh Bug Tent

HANGOUT MODE POLESET

Activate Hangout Mode in your Telos tent with these custom DAC Featherlite NSL poles.

FEATURES

- Easy-to-use pole strap to keep the two-pole set bundled together
- Three-segment poles fold away to fit with the main tent pole set inside the Lightbar stuff sack

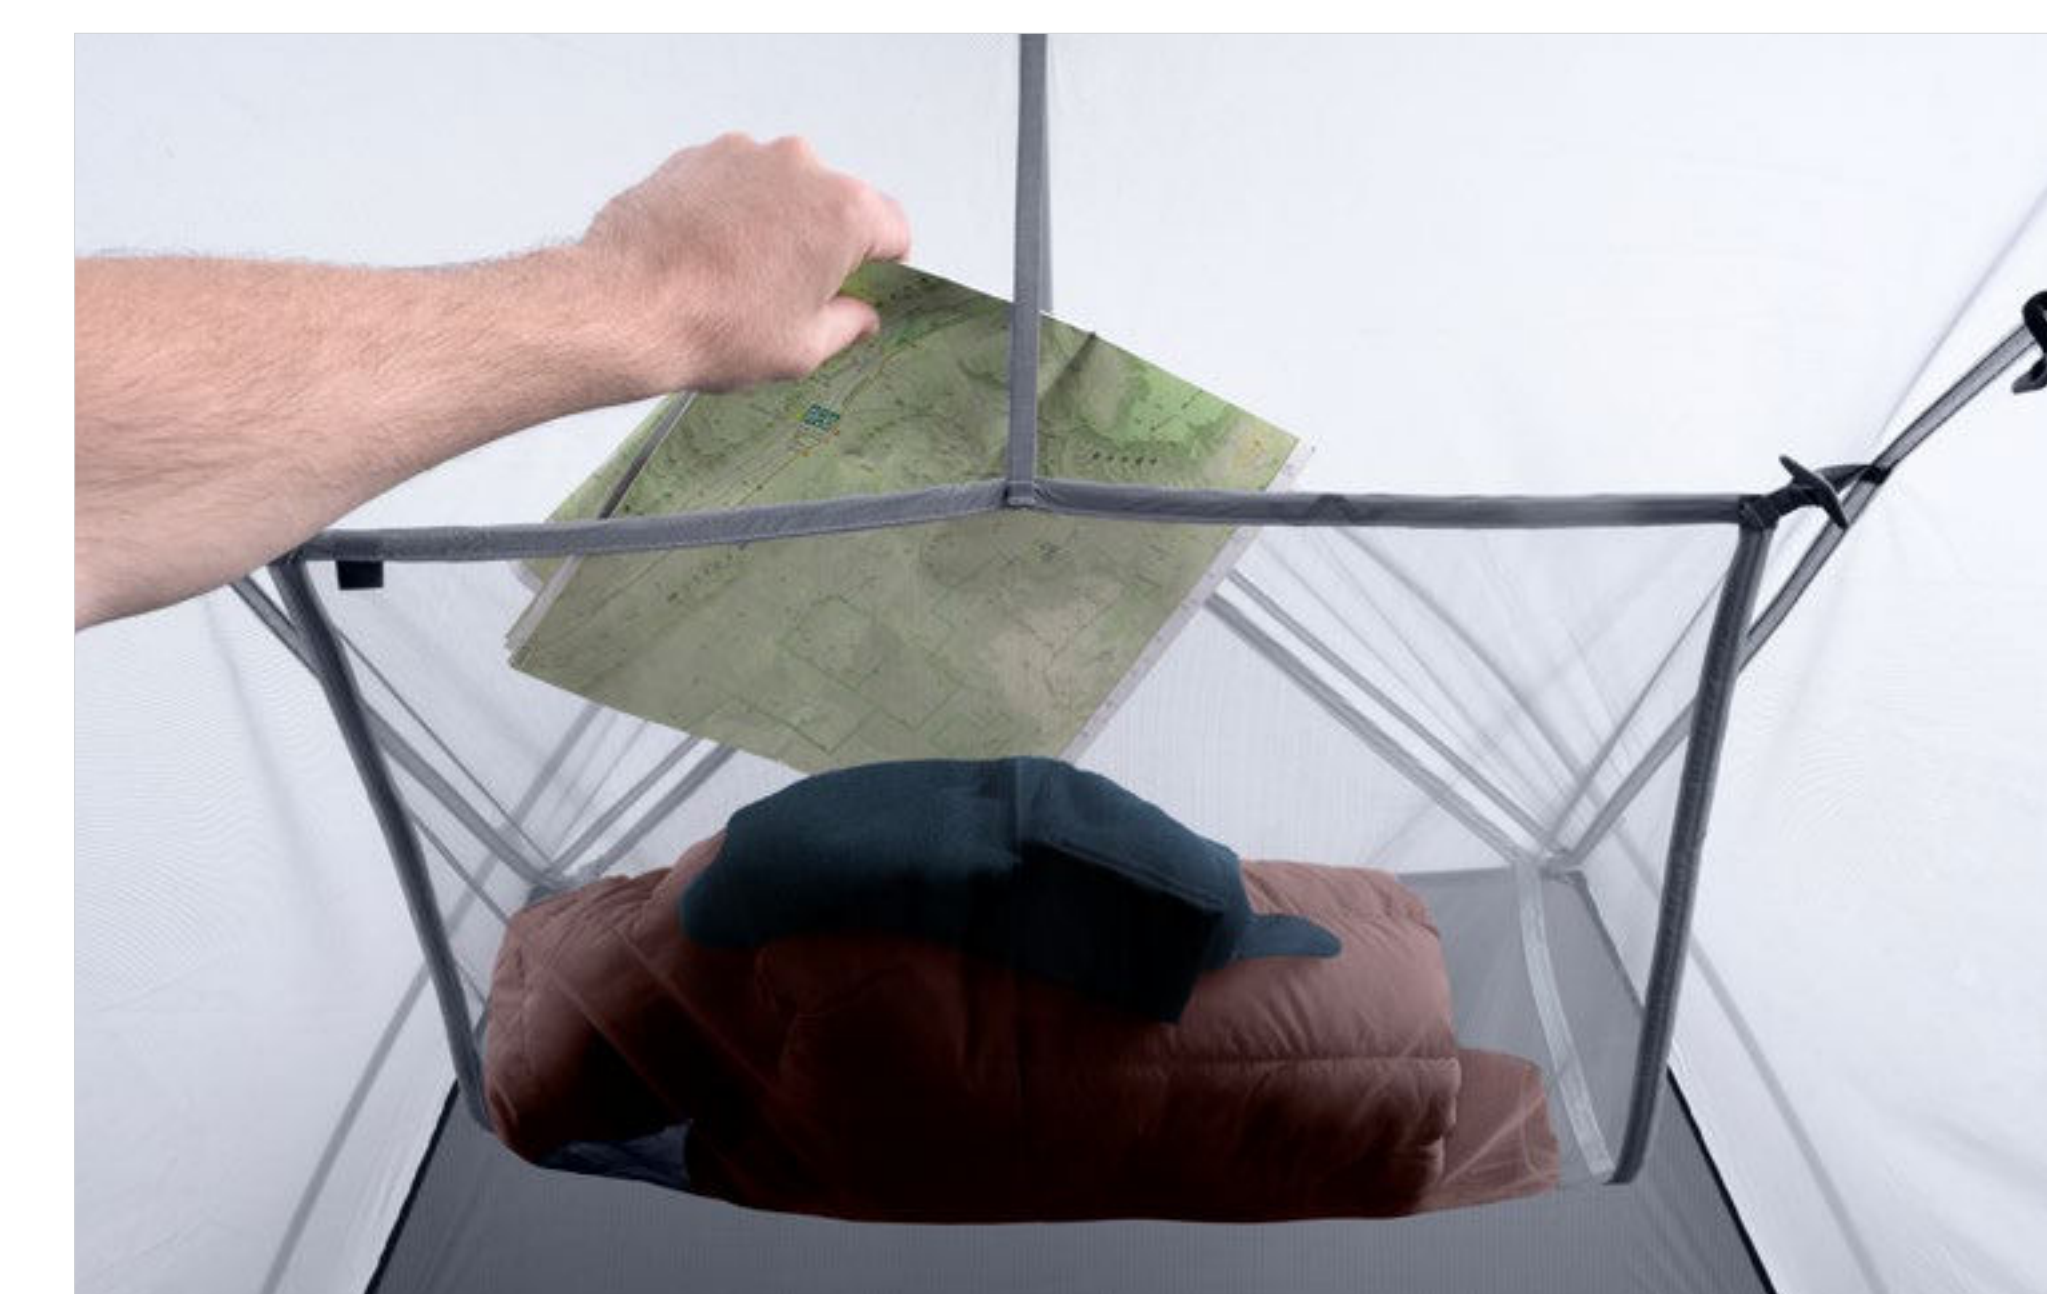

GEAR LOFT

Stash gear within easy reach and keep it off the tent floor.

FEATURES

- Perfect for clothes when delayering before bed
- Easily attach and detach with quick-connect V-Toggles

GROUND CONTROL GUY CORDS

Make it easy to weather the storm with our quick-connect guy cords for tents and shelters.

FEATURES

- Quick-connect, knot-free V-Toggle attachment for ease of use
- Integrated cord length adjuster—multiple guy cords can also join together for extra length
- Tightly woven, reflective cord resists tangling

GROUND CONTROL LIGHT PEGS

Strong and ultralight premium 7 series aircraft alloy (7075-T6) tent pegs with a unique TriPoint shape.

FEATURES

- Rigid TriPoint design maximises grip in varied ground conditions
- Multiple notches keep guy cord low and secure in hard ground
- Reflective pull-cords for easy removal and improved visibility at night

GROUND CONTROL TENT PEGS

Light and strong three-sided replacement pegs for your tent, tarp or shelter.

FEATURES

- Reflective cord and luminescent pull loop for peg extraction
- Multi-height guy points to reduce leverage on the peg
- Available as a pack of 8 pegs including Ultra-Sil stuff sack, or a bulk refill pack for individual sale

STORAGE

DRY BAGS, STUFF SACKS,
+ COMPRESSION BAGS

INSPIRED BY THE OUTBACK

A COLOUR PALETTE INSPIRED BY THE WILD AND REMOTE
NATURAL LANDSCAPES OF OUR WESTERN AUSTRALIAN HOME

STORAGE

A BAG FOR EVERY ADVENTURE

DECADES OF INNOVATION

For more than 30 years, we've remained committed to constantly developing and refining our range of storage products. We strive for excellence and relentlessly field-test our gear. That's why we're the world's most trusted name in the category.

BROADEST RANGE

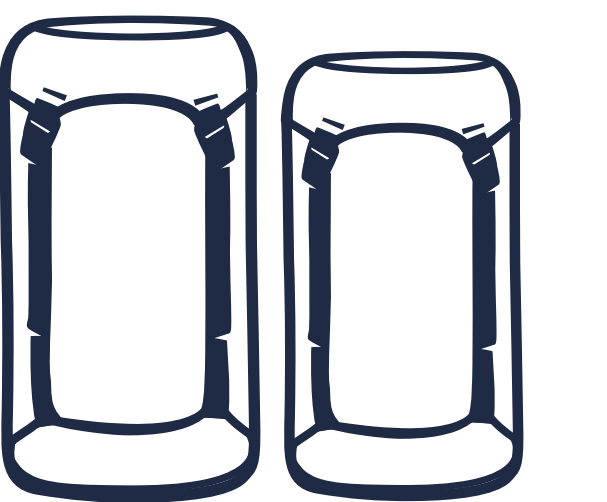

We consistently push the limits of innovation, design and material development, which has led to the largest, most awarded range of dry and non-dry storage products available.

MARKET LEADER

Our commitment to innovation and proven performance has made Sea to Summit the leading brand for high-quality Dry Bags, Stuff Sacks and Compression Bags for more than a decade.

SLEEP

SLEEP

SEA TO SUMMIT: YOUR ONE-STOP SLEEP SYSTEM SHOP

A RESTED DEVELOPMENT - FROM THE GROUND UP

Sea to Summit innovations in sleeping mats have raised the bar for comfort, ingenuity, ease of use and - above all - reliability.

VERSATILE SLEEPING BAGS - OPENING UP NEW POSSIBILITIES

Down or synthetic-insulated Comfort and Versatility sleeping bags: unparalleled ventilation, open-flat to form a quilt.

REDEFINED SLEEPING BAG PACKABILITY

Light and packable sleeping bags feature high lofting down, featherweight shells and liner fabrics for minimal weight and tiny packed volume, yet maximum warmth and comfort.

NOTHING COMES BETWEEN YOU AND YOUR SEA TO SUMMIT SLEEPING BAG

Except your liner, of course. Multiple options to keep you comfortable and protect your bag. And when you need the perfect pillow, we've got it.

SLEEPING BAGS

LINERS

SLEEPING MATS

PILLOWS

HAMMOCKS

SLEEPING BAGS

From ultra light to ultra comfortable, each bag we make is thoughtfully designed and constructed using the finest materials.

WOMEN'S SPECIFIC SLEEP SYSTEMS

More warmth and room to move
for a better sleep outdoors.

Sea to Summit offers the broadest range of women's specific sleeping bags and mats on the market. Designed with more insulation and room to move, these bags and mats are engineered to complement the way women typically sleep, while removing unnecessary weight and bulk.

WARMTH WHERE IT'S NEEDED

Extra insulation in core zones increases overall warmth, particularly in the areas where women typically feel the cold the most.

WOMEN'S SPECIFIC FIT

Narrower in the shoulders with more leg and hip room for side sleepers and typical women's body shapes.

**ENGINEERED
FOR WOMEN**

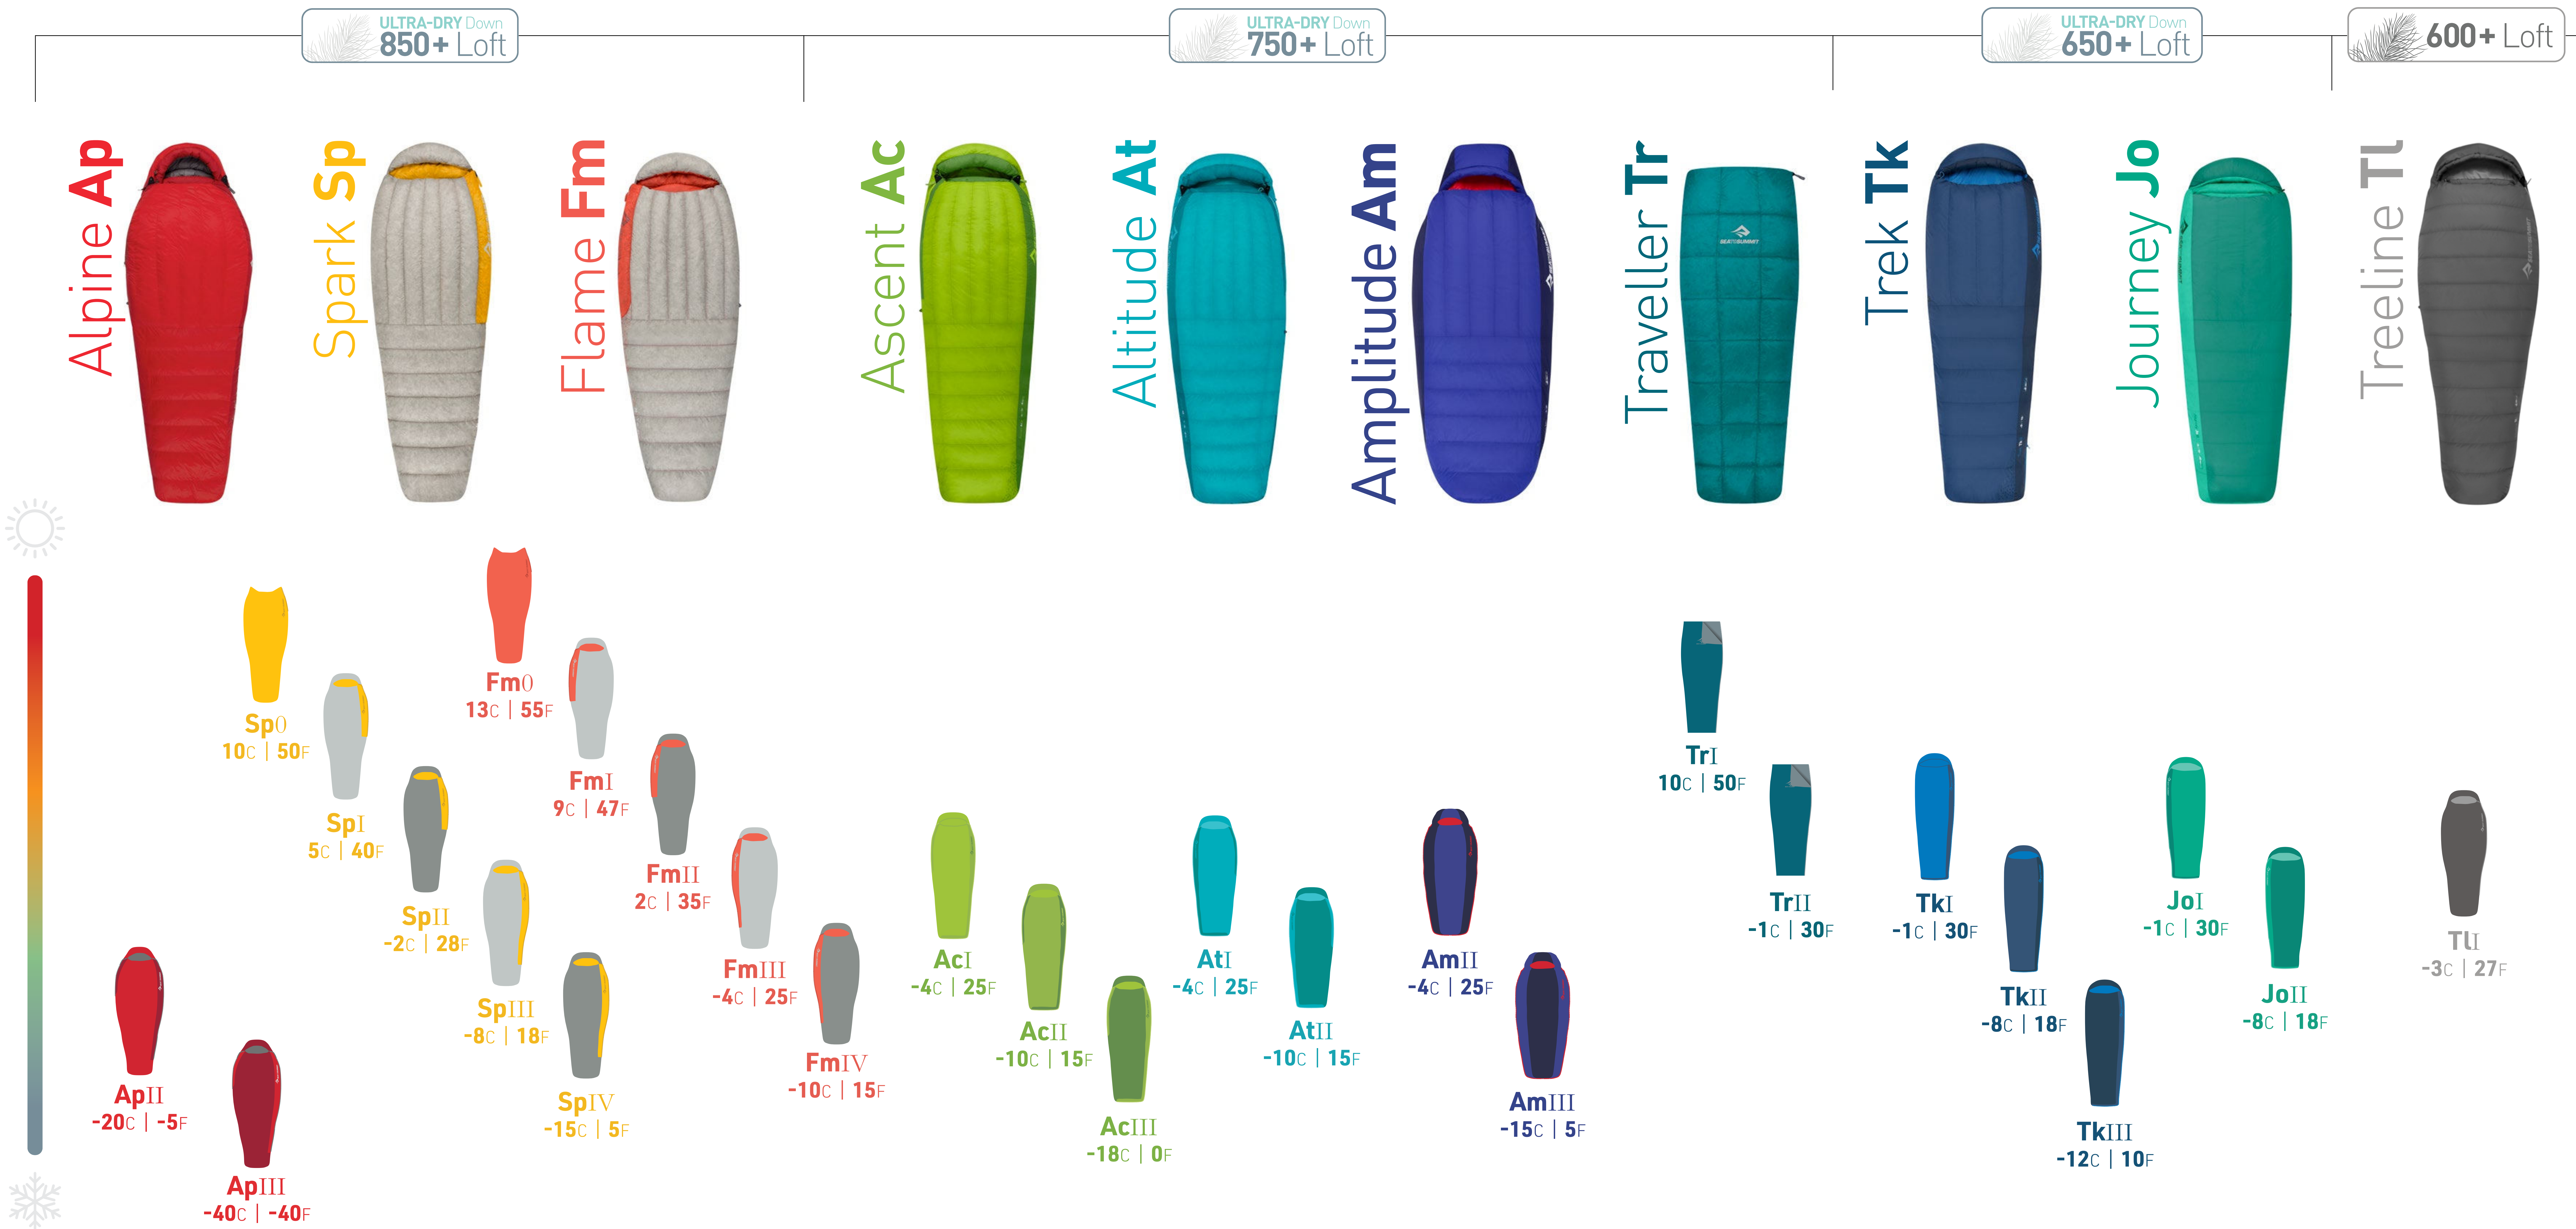

DOWN SLEEPING BAGS

Even in this modern day of synthetics, down is still the best insulation for sleeping bags.

It has the best warmth to weight ratio, it is the most durable sleeping bag insulation, and if looked after (and occasionally washed) it will last a lifetime.

EXPLORE THE RANGE

Alpine Ap

Our first choice for extreme cold and high altitude conditions where sleeping well can make or break an expedition.

Trek Tk

For campers, travelers and occasional backpackers, the Trek series offers more room and ventilation than a conventional mummy-shaped sleeping bag.

These light, compressible sleeping bags can be cinched down in colder conditions or opened up to form a full-flat quilt in warmer weather: flexibility which makes them ideal long-distance traveling companions.

Journey Jo

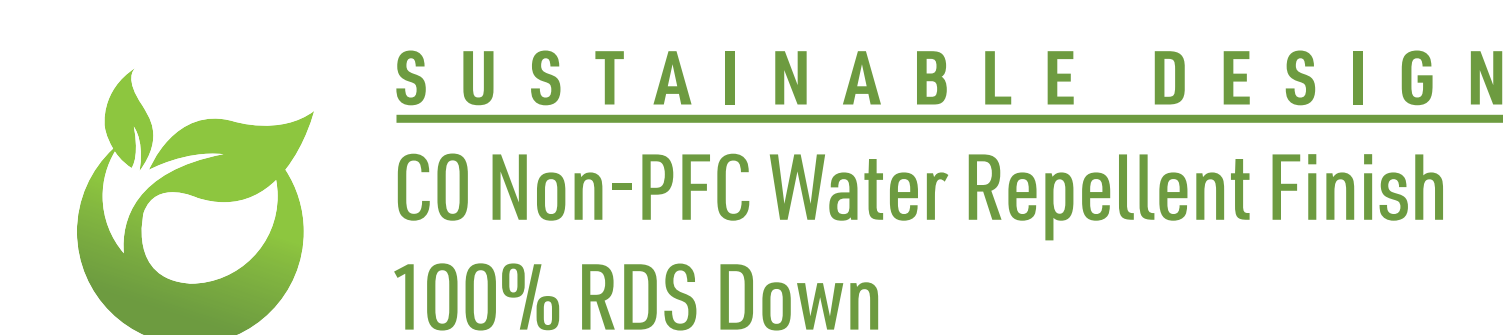

The Journey is the ideal women's specific sleeping bag for a variety of pursuits, from backpacking to travel to car-camping across multiple seasons.

Thermolite insulation in the footbox and extra down throughout keeps women sleepers warm, while the side and footbox zippers can be opened up for ventilation when the mercury climbs.

SYNTHETIC SLEEPING BAGS

Intended for use in wetter conditions, Sea to Summit's synthetic-insulated sleeping bags share many of the same technical features and ergonomic shapes as the down sleeping bag range.

Core to their performance is WaveLoft construction. Sheets of synthetic insulation are sewn in to form a 'W' cross-section, which maximizes loft for a given weight.

OUR SYNTHETIC
SLEEPING BAGS FEATURE:

THERMOLITE INSULATION

On our high-end bags we use a proprietary blend of THERMOLITE branded insulation, where fine denier hollow-core fibres provide higher loft and superior compressibility.

SOFTER LINING FABRICS

Soft-touch nylon fabric is smooth and comfortable next to skin.

WAVE LOFT CONSTRUCTION

WaveLoft construction uses thick layers of synthetic insulation looped together to gain extra loft and trap extra pockets of warm air for superior insulation.

SECURED LINING FABRIC

Lining fabric is secured to both the insulation and the shell to keep it secure, and to prevent the feeling of getting caught in a loose lining fabric.

THERMOLITE®

SYNTHETIC INSULATION

A blue sleeping bag with a hood and a drawstring closure at the top. The bag is shown from a side-on perspective, highlighting its elongated shape and the texture of the fabric. The hood is at the top, and the drawstring is visible as a dark line across the opening. The bag appears to be made of a durable, possibly synthetic material.

A purple and black sleeping bag, likely the Mountain Hardwear Phantom 20, shown vertically. The bag is purple with black accents along the top, bottom, and side seams. The brand name 'MOUNTAIN HARDWEAR' is visible on the side.

The Thermolite-insulated Traverse offers unmatched versatility and room to move in a lightweight, technical sleeping bag.

The Free-Flow zipper system, WaveLoft insulation construction and warmth retaining features give the Traverse true multiple-season flexibility.

SUSTAINABLE DESIGN
CO Non-PFC Water Repellent Finish

The Venture is perfect for women looking for warmth and ventilation in a technical sleeping bag designed for use in variable weather.

WaveLoft construction using Thermolite insulation provides warmth in colder temperatures; the Free-Flow zipper system offers ventilation for warmer climates.

OUR SLEEPING BAGS FEATURE:

QUALITY MATERIALS

CO DWR

Non-PFC fabrics with C0 treatment provide environmentally friendly resistance to condensation or other moisture.

INDEPENDENTLY TESTED

All of our sleeping bags are independently tested in Norway to the EN/ISO standard for published Sleeping Bag warmth.

TECHNICAL FABRICS

Are selected balancing weight, breathability, quietness, water resistance, and comfort for each model.

YKK ZIPPERS

YKK Zippers are strong and durable.

DESIGN DETAILS

FREE FLOW ZIP SYSTEM

Our Free Flow Zip System offers greater versatility and comfort across a wider temperature range.

ZIP COUPLING

Most bags are designed to be zipped together to create double sized sleeping sacks.

INTERNAL POCKETS

Small Zippered Pockets inside your bag provide space for valuables or small electronics in freezing conditions.

QUILT LOCK SYSTEM

Every Sleeping Bag can combine with a quilt to increase warmth.

ZIPPER DRAFT TUBES

Zip Draft Tubes with anti-snap prevent cold leaching in via the zipper opening.

INTERNAL CORD TUNNELS

Our Cord Tunnels are buried within Draft Tubes to keep drawcords from irritating your face or neck.

CLEVER ADJUSTMENT

Hood and Collar Draft Tubes all have dual adjusters, one on each side, for even cinching and maximum warmth.

STORAGE SOLUTIONS

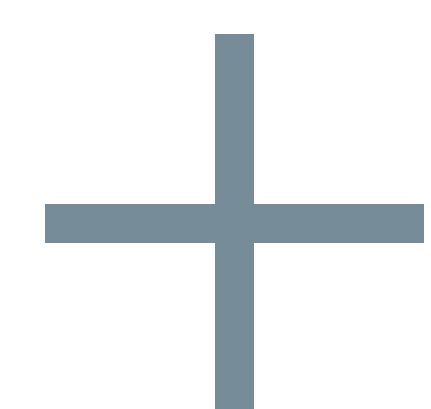

AT HOME STORAGE

Zippered Storage Cell for keeping your bag lofty when packed away at home.

BETTER COMPRESSION

Three-strap “flip top” compression sacks for easy storage and packing (except Treeline).

OUR DOWN SLEEPING BAGS FEATURE:

QUALITY MATERIALS

RESPONSIBLE DOWN STANDARD (RDS)

The RDS is helping to shift the entire down and feather industry towards more humane animal rearing and handling practices. Overseen by the industry leading Textile Exchange, the RDS requires independent, third party assessments of all aspects of animal rearing and handling throughout the entire supply chain.

To find out more about how the RDS is improving animal welfare during down collection, please visit responsibledown.org

ULTRA-DRY DOWN

Ultra-Dry Down is a Non-PFC, permanent polymer treatment that absorbs 30% less moisture and dries 60% quicker than untreated down.

UNIQUE DOWN CERTIFICATE

Each bag includes a Batch Test Report from the International Down and Feather Laboratory to certify the loft and quality of down used.

MINIMUM FILL RATING

All down used in our bags exceeds the published loft that is specified for that model.

DESIGN DETAILS

BESPOKE DESIGN

The baffle height in our bags is adjusted for each variant, so that the down insulation has the perfect amount of space in which to achieve maximum loft.

DIFFERENTIAL CUT

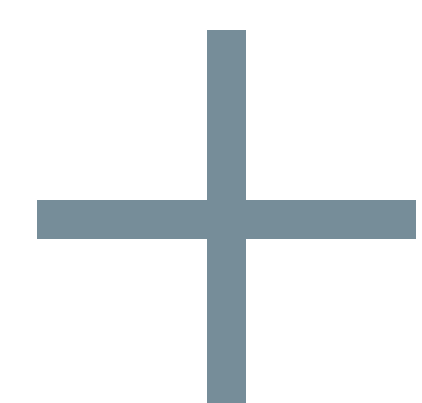

A differentially cut shell design allows the down to expand outward for better lofting and also reduces the chance of cold spots.

VERTICAL CHEST BAFFLES

Vertical Chest Baffles prevent down migration and cold spots, particularly for side sleepers.

SIDE BLOCK BAFFLES

Side Block Baffles prevents down shifting around, and maintains warmth where it is needed.

OUR QUILTS INCLUDE:

CO DWR

Non-PFC Fabrics with CO treatment provide environmentally friendly resistance to condensation or other moisture.

NO WASTED WARMTH

A top drawcord helps pull your quilt in tight and press studs along the top edge allow it to be secured around your neck to help trap warmth.

QUILT LOCK SYSTEM

Every Sleeping Bag can combine with a quilt to increase warmth.

OPTIONAL FOOTBOX

A drawcord on the base of the quilt pulls tight to create a footbox, perfect for securing your mat and keeping your feet toasty warm.

HAND POCKETS

Small pockets on the top corner of the quilt helps draw it closer around you, even when sleeping in a natural, side position.

SECURE ATTACHMENT

Press Stud and Adjustable Strap System allows the quilt to be secured under your mat to retain maximum warmth.

LINERS

A sleeping bag liner or travel liner is the foundation of any sleep system. Just like the sheets on your bed at home, it's the first point of contact between you and the rest of the system. For over 30 years Sea to Summit has offered liners designed to suit a wide range of users and environments.

SOFT + COMFORTABLE

All our liners have great hand feel, and are soft and comfortable next to skin. Some are stretchy and knitted for people who move around during sleep and don't want to feel constricted. Others are more static, so that they don't tangle.

CONVENIENT

Because they are acting as a 'sheet' between you and your sleeping bag, it means that you won't need to launder your bag as often (or at all), because all the grime, oil and sweat that you may exude during sleep is captured in your liner.

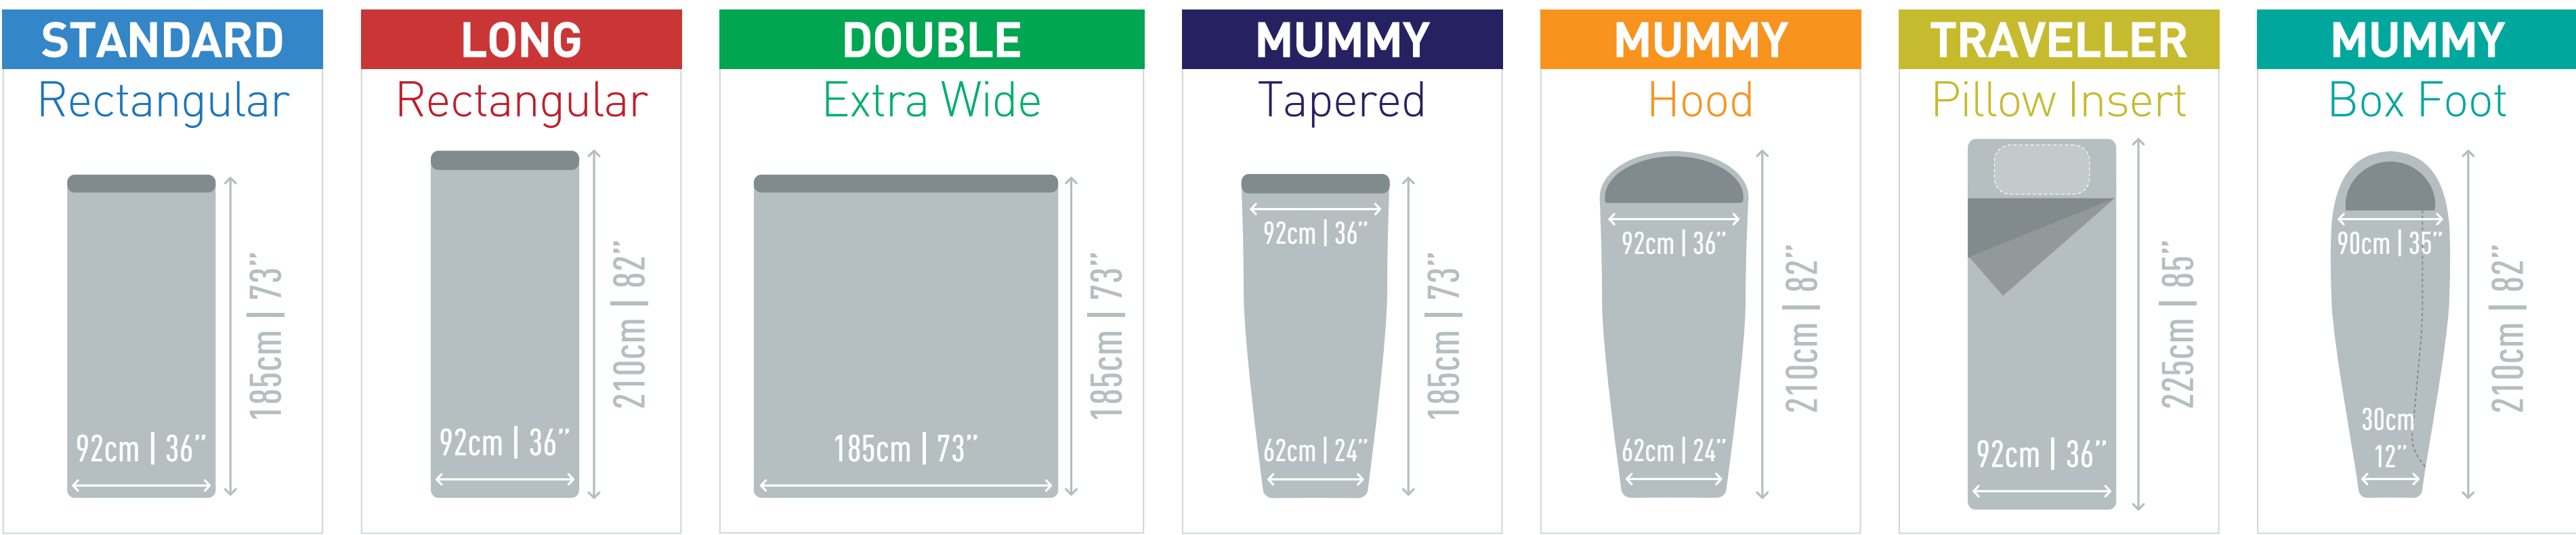

EASY CARE

In between uses, you'll appreciate the fact that they are easy care, and can all be washed in a regular top loading washing machine. And they all come in a stuff sack or zippered pouch to minimise space and keep them small and compact when packed away.

REACTOR SERIES LINERS

Sea to Summit Reactor Series sleeping bag liners are your best choice for adding warmth to your bag.

OUR REACTOR SERIES LINERS FEATURE:

EASE OF USE

Contrasting colour along the top edge makes it easier to find the opening.

COMFORT

A knitted fabric stretches and moves with you as you sleep.

WARMTH

THERMOLITE is a hollow core fibre with fantastic insulating properties, adding warmth and comfort to your bag.

VERSATILITY

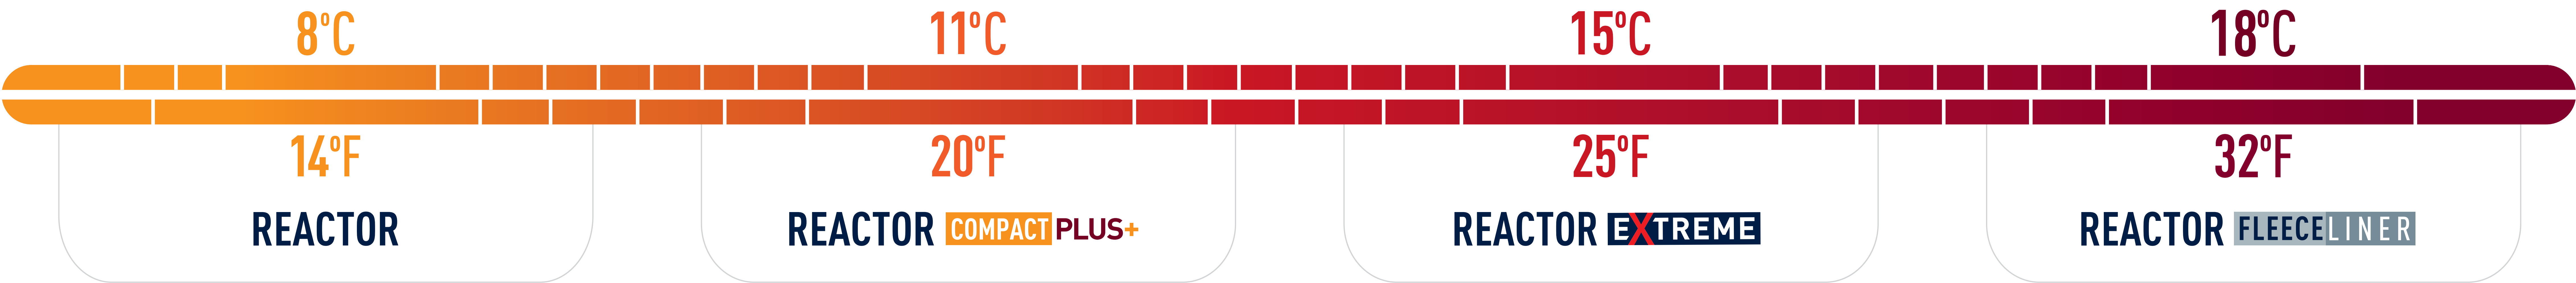

Add warmth in cold conditions, or use a stand alone bag on balmy summer nights.

COMPACT + CONVENIENT

Packs into its own Ultra-Sil stuff sack.

THERMOLITE®

THERMOLITE®
REACTOR

Extend the comfort range of your sleeping bag with our most popular technical liner.

COLOUR

THERMOLITE®
REACTOR COMPACT PLUS

Perfect for cold-sleeping gram counters under six feet tall.

FEATURES

- Compact, shorter design is ideal for women and cold-sleepers under six feet

COLOUR

THERMOLITE®
REACTOR EXTREME

Ideal as part of a cold climate sleep system or standalone bag in warm weather.

SIZES REGULAR / LONG

COLOUR

THERMOLITE®
REACTOR FLEECE

It's so warm, you can use this fleece liner in your sleeping bag or on its own.

FEATURES

- Quarter zip makes it easy to get in and out

COLOUR

TRAVEL LINERS

SILK+COTTON TRAVEL LINER

A blend of soft cotton and luxurious silk creates an ideal travel liner.

FEATURES

- Feels similar to a high-thread count cotton sheet

PREMIUM COTTON TRAVEL LINER

High thread count 100% premium cotton liner for travel adventures.

FEATURES

- High thread count cotton for comfort and durability

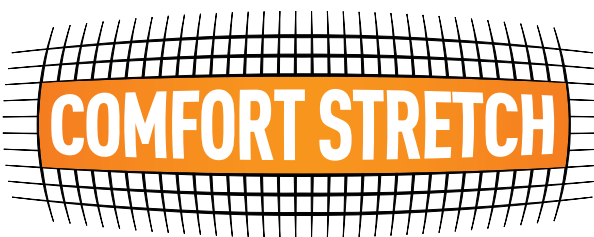

PREMIUM STRETCH KNIT EXPANDER

This liner is lightweight, breathable, durable and ideal for use while camping or in hostels.

FEATURES

- Stretch knit fabric that moves with you as you sleep

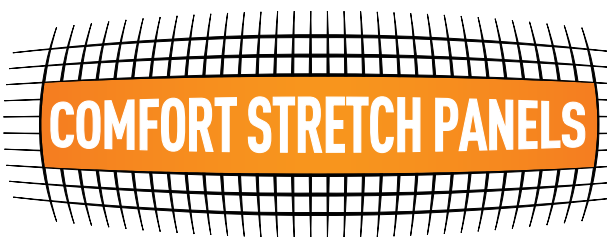

PREMIUM SILK TRAVEL LINER WITH STRETCH PANELS

A touch of travelling luxury—premium silk liner with stretch panels for extra comfort.

FEATURES

- Unique Comfort Stretch Panels allow the liner to move with you when you sleep

TRAVEL LINERS

COOLMAX® ADAPTOR

When the temperature increases our Adaptor liner helps to wicks moisture away from your skin keeping you more comfortable as you sleep.

FEATURES

- Also works fantastically well as a regular sleeping bag liner in cooler conditions
- Contrasting colour along top edge makes it easier to find the opening

SLEEPING MATS

There is one simple reason we design and construct sleeping mats the way we do: to give you a great night's sleep, night after night.

To achieve this, we have created innovative designs that are more comfortable, and we pioneered materials and manufacturing techniques that are measurably more reliable. You may not see the results of the countless nights we spent working on the mats, but you can rest easy knowing that we achieved our goal.

Because a great sleep is the start to a great day.

AIR SPRUNG CELL MATS

Our award-winning Air Sprung Cell Sleeping Mats provide air cushioned comfort from the lumps and bumps beneath you.

COMFORTABLE

AIR SPRUNG CELLS

Stability equals greater comfort. A pattern of dot-welds creates hundreds of interconnected chambers called Air Sprung Cells. Just like a pocket spring mattress, this matrix of cells provides unmatched support while conforming to the contours of the sleeper.

THERMOLITE® INSULATION

Designed for ultimate performance, THERMOLITE® is made from specially engineered fibres to achieve a high CLO value with low weight. The THERMOLITE® insulation lofts up inside the Air Sprung Cells to prevent convective heat loss from your warm body to the cold ground.

EXKIN PLATINUM®

A very lightweight, quiet, non-woven fabric that has a thin metalised layer applied to the surface which reflects radiant heat back to the user.

DURABLE

EXTRUSION TPU LAMINATION

Ultra-Fresh® anti-microbial treatment added to the TPU formula prevents internal mould growth.

DURABLE 30/40D NYLON FACE FABRIC

Lightweight, quiet and grippy 30/40D Nylon face fabric.

EASY TO USE

PILLOWLOCK SYSTEM

Pillow Lock attaches an Aeros pillow to mat.

REPAIR KITS

All ASC Mats ship with a set of peel and stick repair patches that provide quick and permanent solutions to any unfortunate punctures.

AIRSTREAM PUMPSACK

Includes an Airstream Pump that is integrated into the stuff sack for quick and easy inflation.

MULTI-FUNCTION VALVE

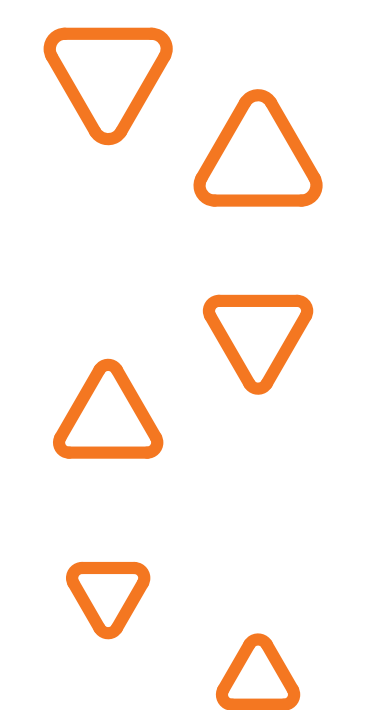

Multi-function valve provides fast inflate, deflate and easy fine-tuning for personalised comfort.

SELF-INFLATING MATS

Our range of self-inflating mats provide consistent warmth along the full length of the mat in a compact and lighter, comfortable, easy-to-use package.

COMFORT

PILLOWLOCK SYSTEM

Pillow Lock attaches an Aeros pillow to mat.

FOUR WAY STRETCH FABRICS

Four way stretch fabrics better conform to your body as you sleep.

ANTI-SLIP SILICONE PRINT

Prevents your sleeping bag from slipping on the mat, or the mat from slipping on the tent floor.

EASE OF USE

REPAIR KITS

Both our Self Inflating and Air Sprung Cell mats include a small repair kit with repair patches.

MULTI-FUNCTION REVERSIBLE VALVE

Specifically designed for Self-Inflating mats.

With a simple twist, our multi-function valve prevents reinflation while rolling your mat up. Twist it back for easy one-way inflation and fine tuning.

LIGHTER WEIGHT

DELTA CORE

The design leaves a solid layer of foam to bond with the fabric across the full length of the mat, making a far more durable finish.

Delta Core design leaves extra foam directly under the sleeper, providing better insulation.

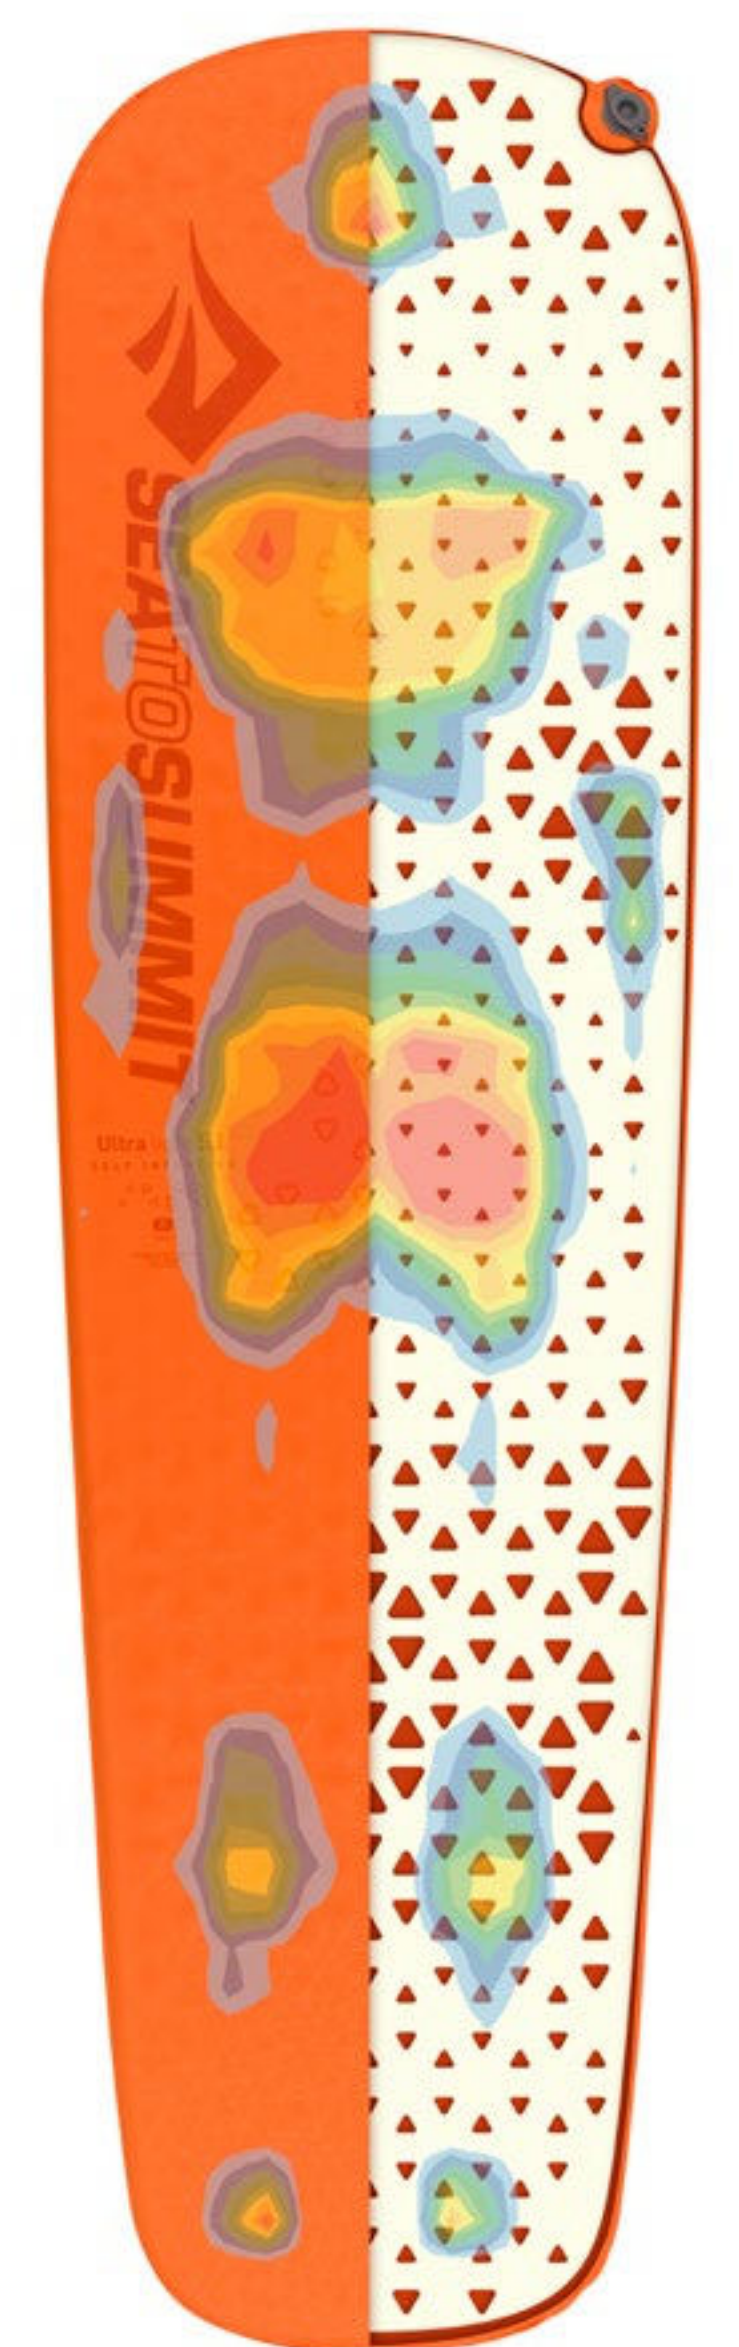

DELTA CORE-V

In our lighter models, Delta Core-V vertical coring technology is applied to remove 20% of the weight and bulk of the mat's polyurethane (PU) foam. We use sophisticated pressure-mapping data to define body contact areas which becomes the blueprint for our distinctive graduated core pattern.

MAT COUPLER KIT LOOPS

Stop sleeping in the crack—secure your two Sea to Summit mats together.

FEATURES

- Simple to use
- Low profile design stays flat for comfortable positioning

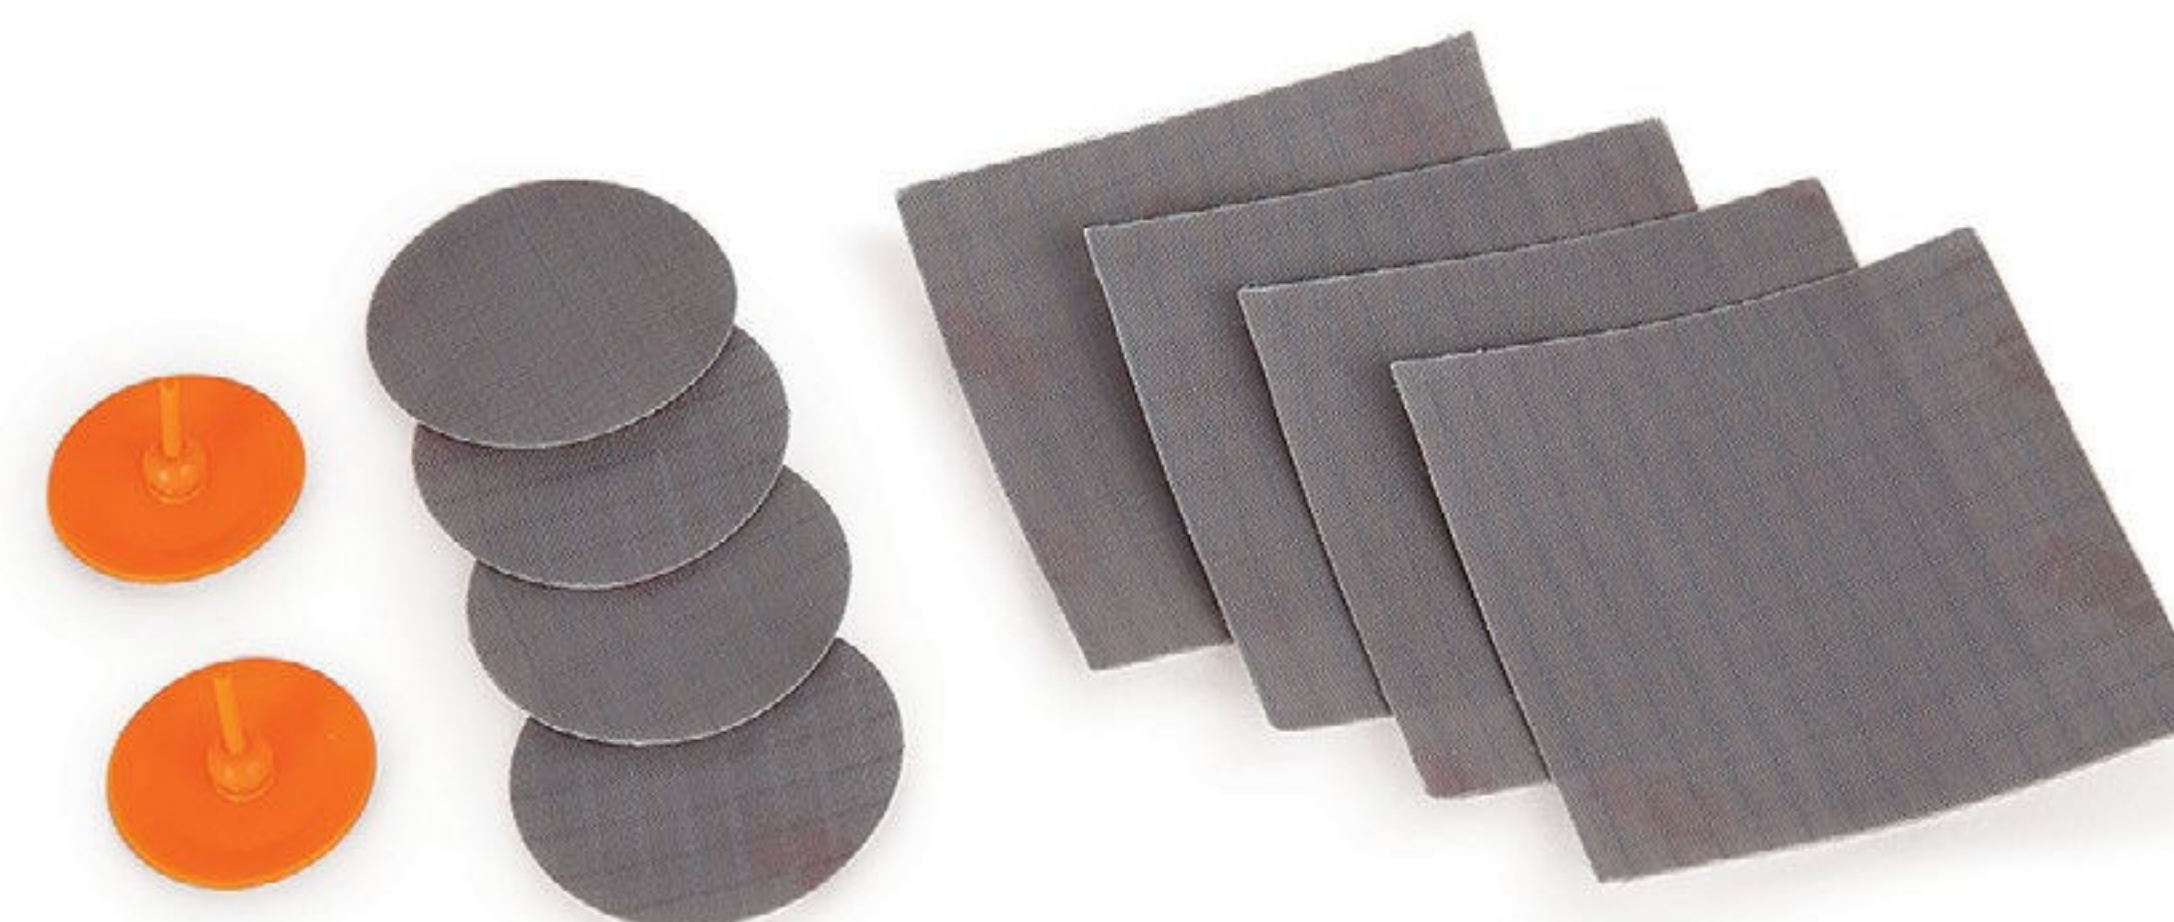

AIRSTREAM PUMP SACK

Storage by day, pump by night—inflate your air mat in seconds.

FEATURES

- Works with the multi-function valve on both ASC and SI mats.

AIR MAT REPAIR KIT

Punctures happen—repair your Sea to Summit air mat with ease.

AIR CHAIR

Air mat transformer: chair by day and sleeping mat by night

FEATURES

- Converts your Sea to Summit Sleeping Mat into a comfortable camp chair
- Reinforced pole sleeve with puncture-proof synthetic rubber caps for added strength
- Upgraded side release Field Repair Buckles with stainless steel pin on side straps for durability and high break-strength
- Durable 70D base with 2000mm waterhead protects your mat from rough or wet ground

SIZES R / L COLOUR

AIR SEATS

So packable you won't notice the addition to your bag, but so useful you'll never leave home without it. Our Air Seat is the perfect way to add a little comfort to whatever you're sitting on. Available in both a standard and an insulated version.

FEATURES

- Super-fast inflate and deflate with our multi-function low profile mini-valve

COLOURS

S.I. SEAT

A compact seat companion that quickly inflates to provide extra comfort and support for any adventure.

FEATURES

- Our patented low-profile multi-function mini-valve provides fast inflate, deflate and easy fine-tuning

AEROS PILLOWS

Whether in transit or the back country, our Aeros range of lightweight and compact inflatable pillows will award you a comfortable sleep.

OUR AEROS PILLOWS FEATURE:

PILLOWLOCK COMPATIBLE

Easily secure your Aeros pillow to your Sea to Summit mat for a slip-free sleep—PillowLock patches are included with all our mats.

MULTI-FUNCTION MINI VALVE

Featuring our unique mini-valve for easy inflation, deflation and fine tuning.

LIGHTWEIGHT AND COMPACT

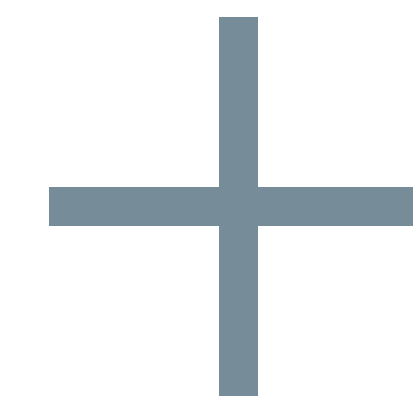

Often forgotten, always appreciated—they're so small and light the only decision to make is which one to choose.

CONVENIENT STORAGE

Comes with a stuff sack or zippered pouch to make packing and storage so much easier.

AEROS PREMIUM

OUR AEROS PREMIUM RANGE FEATURES:

LUXURIOUS FEEL

Brushed, 50D polyester, stretch-knit face fabric for soft hand feel.

COMFORTABLE

Synthetic fill between pillow case and TPU bladder increases comfort and wicks away perspiration.

AEROS PREMIUM DELUXE

Dream big; pack small with this luxurious, lightweight and surprisingly compact full-size pillow.

AEROS PREMIUM

A luxurious, high-performance pillow without the weight and bulk. Perfect for travel and camping where you can risk a couple more grams for a great night's sleep.

FEATURES

- Scalloped bottom edge centres the pillow over your shoulder no matter whether you are sleeping on your back, side or sitting upright in a chair

AEROS PREMIUM TRAVELLER

Take your transit comfort to a new level with our packable Premium Traveller Pillow.

FEATURES

- Adjustable neck closure for additional support
- Ergonomic shape and enlarged ends reduce the need to bend your neck for support
- Narrows at the centre to fit snugly between your neck and headrest

COLOURS

AEROS PREMIUM LUMBAR SUPPORT

Keep your lower back supported and comfortable in the air, at your desk or behind the wheel.

FEATURES

- Includes an adjustable webbing strap to secure the pillow in place

COLOURS

AEROS ULTRALIGHT

OUR AEROS ULTRALIGHT RANGE FEATURES:

LIGHT AND COMPACT

Made from 20D laminated polyether to be very light and compact.

DURABLE

Laminated with abrasion-resistant high strength TPU with durable RF-welded construction.

QUICK AND EASY

Inflate pillow in a couple of breaths with the multi-function mini-valve.

COMFORTABLE

Stretch-knit fabric creates a more comfortable user experience.

AEROS ULTRALIGHT DELUXE

Extremely comfortable, lightweight and surprisingly compact full-size pillow.

COLOURS

AEROS ULTRALIGHT

Light, compact and comfortable support –the best 60g you'll ever add to your pack.

FEATURES

- Scalloped bottom edge centres pillow over your shoulders whether sleeping on your back, side, or upright in a chair

CAMP KITCHEN

CAMP KITCHEN

OVERLANDERS, THRU-HIKERS,
BACKPACKERS – INVITE YOUR
BUDS TO YOUR CAMP KITCHEN.
YOUR TASTE BUDS, THAT IS.

INNOVATIVE COOKWARE AND TABLEWARE

Our pots feature quality materials and innovative details to ignite your inner, outdoor gourmet. Pair them with our dinnerware – which doubles up as food prep products – and you have the basis of simple yet soul-satisfying camp meals.

SUPPORTS LEAVE NO TRACE ETHICS

We're committed to Leave No Trace outdoor ethics. Our folding sinks and buckets make it easy to move and use water away from streams, while our clean-up kits and biodegradable soaps make food waste management simple and straightforward.

FUNCTION-SPECIFIC MATERIALS

Our durable and innovative camp kitchen range is engineered for all outdoor adventures. Our clever functionality elevates them far beyond 'plastic camp tableware', to part and parcel of an integrated food preparation system.

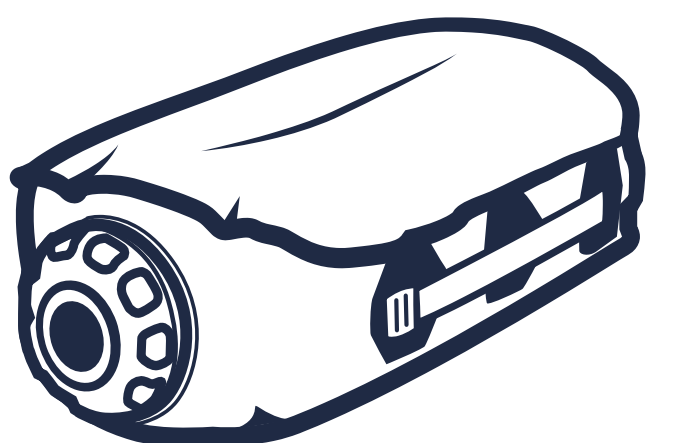

CAMP CLEAN UP

DINNERWARE

COOKWARE

WATER TRANSPORT

CAMP CLEAN UP

Often overlooked but essential to any camp kitchen system. Our range of camp kitchen clean up solutions make it easy to keep your camp clean and neat with minimal impact on the environment. Makes getting clean almost as much fun as getting dirty.

DELTA SERIES

Lightweight and durable with intuitive design details—there's a solution for all your camp dining needs.

OUR DELTA RANGE FEATURES:

PROTEX BASE

Protex hex pattern base reduces weight and disperses surface temperature.

CLEVER DESIGN

Steep sides on our plates and bowls prevent food slopping over the sides, while the curvature of the base matches perfectly with the Delta Spoon and Spork.

THUMB GRIP

Keeps your fingers out of your food and doubles as a carabiner hang loop.

LIGHTWEIGHT

Lightweight, durable and easy-care.

FOOD-GRADE

BPA-free, glass reinforced polypropylene is microwaveable and dishwasher safe.

BPA FREE

DELTA PLATE

Keep your food on your plate and your fingers burn-free—a cleverly designed camp plate with guard rails and heat-dispersing base.

COLOURS   

DELTA BOWL + DELTA BOWL WITH LID

A lightweight, hard-wearing and functional camp bowl with deep sides and a heat-dispersing base for burn-free fingers.

BOWL WITH LID

- Lid keeps food inside and doubles as a chopping board or plate

COLOURS

DELTA INSULMUG

Not your ordinary camp mug—this one's designed to not burn your fingers. The ergonomic cool-grip rim eliminates the need for a hard-to-pack handle.

INSULMUG

- ThermoSkin insulation sleeve for a comfortable grip
- Sipping lid with secure seal and hang loop

COLOURS

DELTA CAMP SET

DELTA CAMP SET

The Delta Camp Set combines all the lightweight and easy-to-clean essentials from our Delta range: a plate, bowl, mug and the 3-piece cutlery set. They come packaged in a handy gusseted mesh pouch allowing wet dishes to air dry and secures with an easy-to-use drawstring closure.

SUITS ONE PERSON

SET INCLUDES

FOLDING COOKING UTENSILS

Designed with the camp cook in mind, an ergonomic handle and strong, lightweight materials all add to the cooking experience.

OUR FOLDING COOKING UTENSILS FEATURE:

STRONG AND LIGHTWEIGHT

Made with glass reinforced Nylon and food grade silicone.

LIGHTWEIGHT

Perfect for fast-and-light backpacking trips.

FLEX AND STRENGTH

Glass reinforced Nylon gives enough flex to flip pancakes and enough rigidity to scrape off burnt rice.

ERGONOMIC DESIGN

Sturdy and easy to hold with a shape that's designed to scrape clean the sides of our cookware.

PACKS UP SMALL

Simply fold the handle when the camp cooking is done—easily stows inside the 1.2L Alpha and Sigma Pots.

BPA FREE

CAMP KITCHEN FOLDING SPATULA

This ultralight folding spatula flips pancakes as easily as it packs away.

CAMP KITCHEN FOLDING SERVING SPOON

Prepare and cook delicious meals in the backcountry with this ultralight folding serving spoon.

FEATURES

- 100ml volume and volumetric measurements for measuring ingredients

CAMP KITCHEN TOOL KIT

This 10-piece cooking and wash kit is made for your backcountry camp kitchen.

X-POT

Collapsible pots for quick and easy backcountry cooking. Backpacker Magazine's Editors' Choice award was bestowed upon the X-Pot in 2015 for its innovation, space-saving capability and functionality.

OUR X-POTS FEATURE:

SUPER COMPACT

Each piece collapses to a fraction of its in-use size.

GREATER CONTROL

Translucent, durable plastic lid shortens boil time and allows finer temperature control.

NESTING DESIGN

X-Series products collapse and nest inside each other to form compact cooking and dining sets.

LIGHTWEIGHT AND DURABLE

Hard-anodised aluminium base provides uniform heat distribution.

SMART COOKING

Measurements imprinted on the inside.

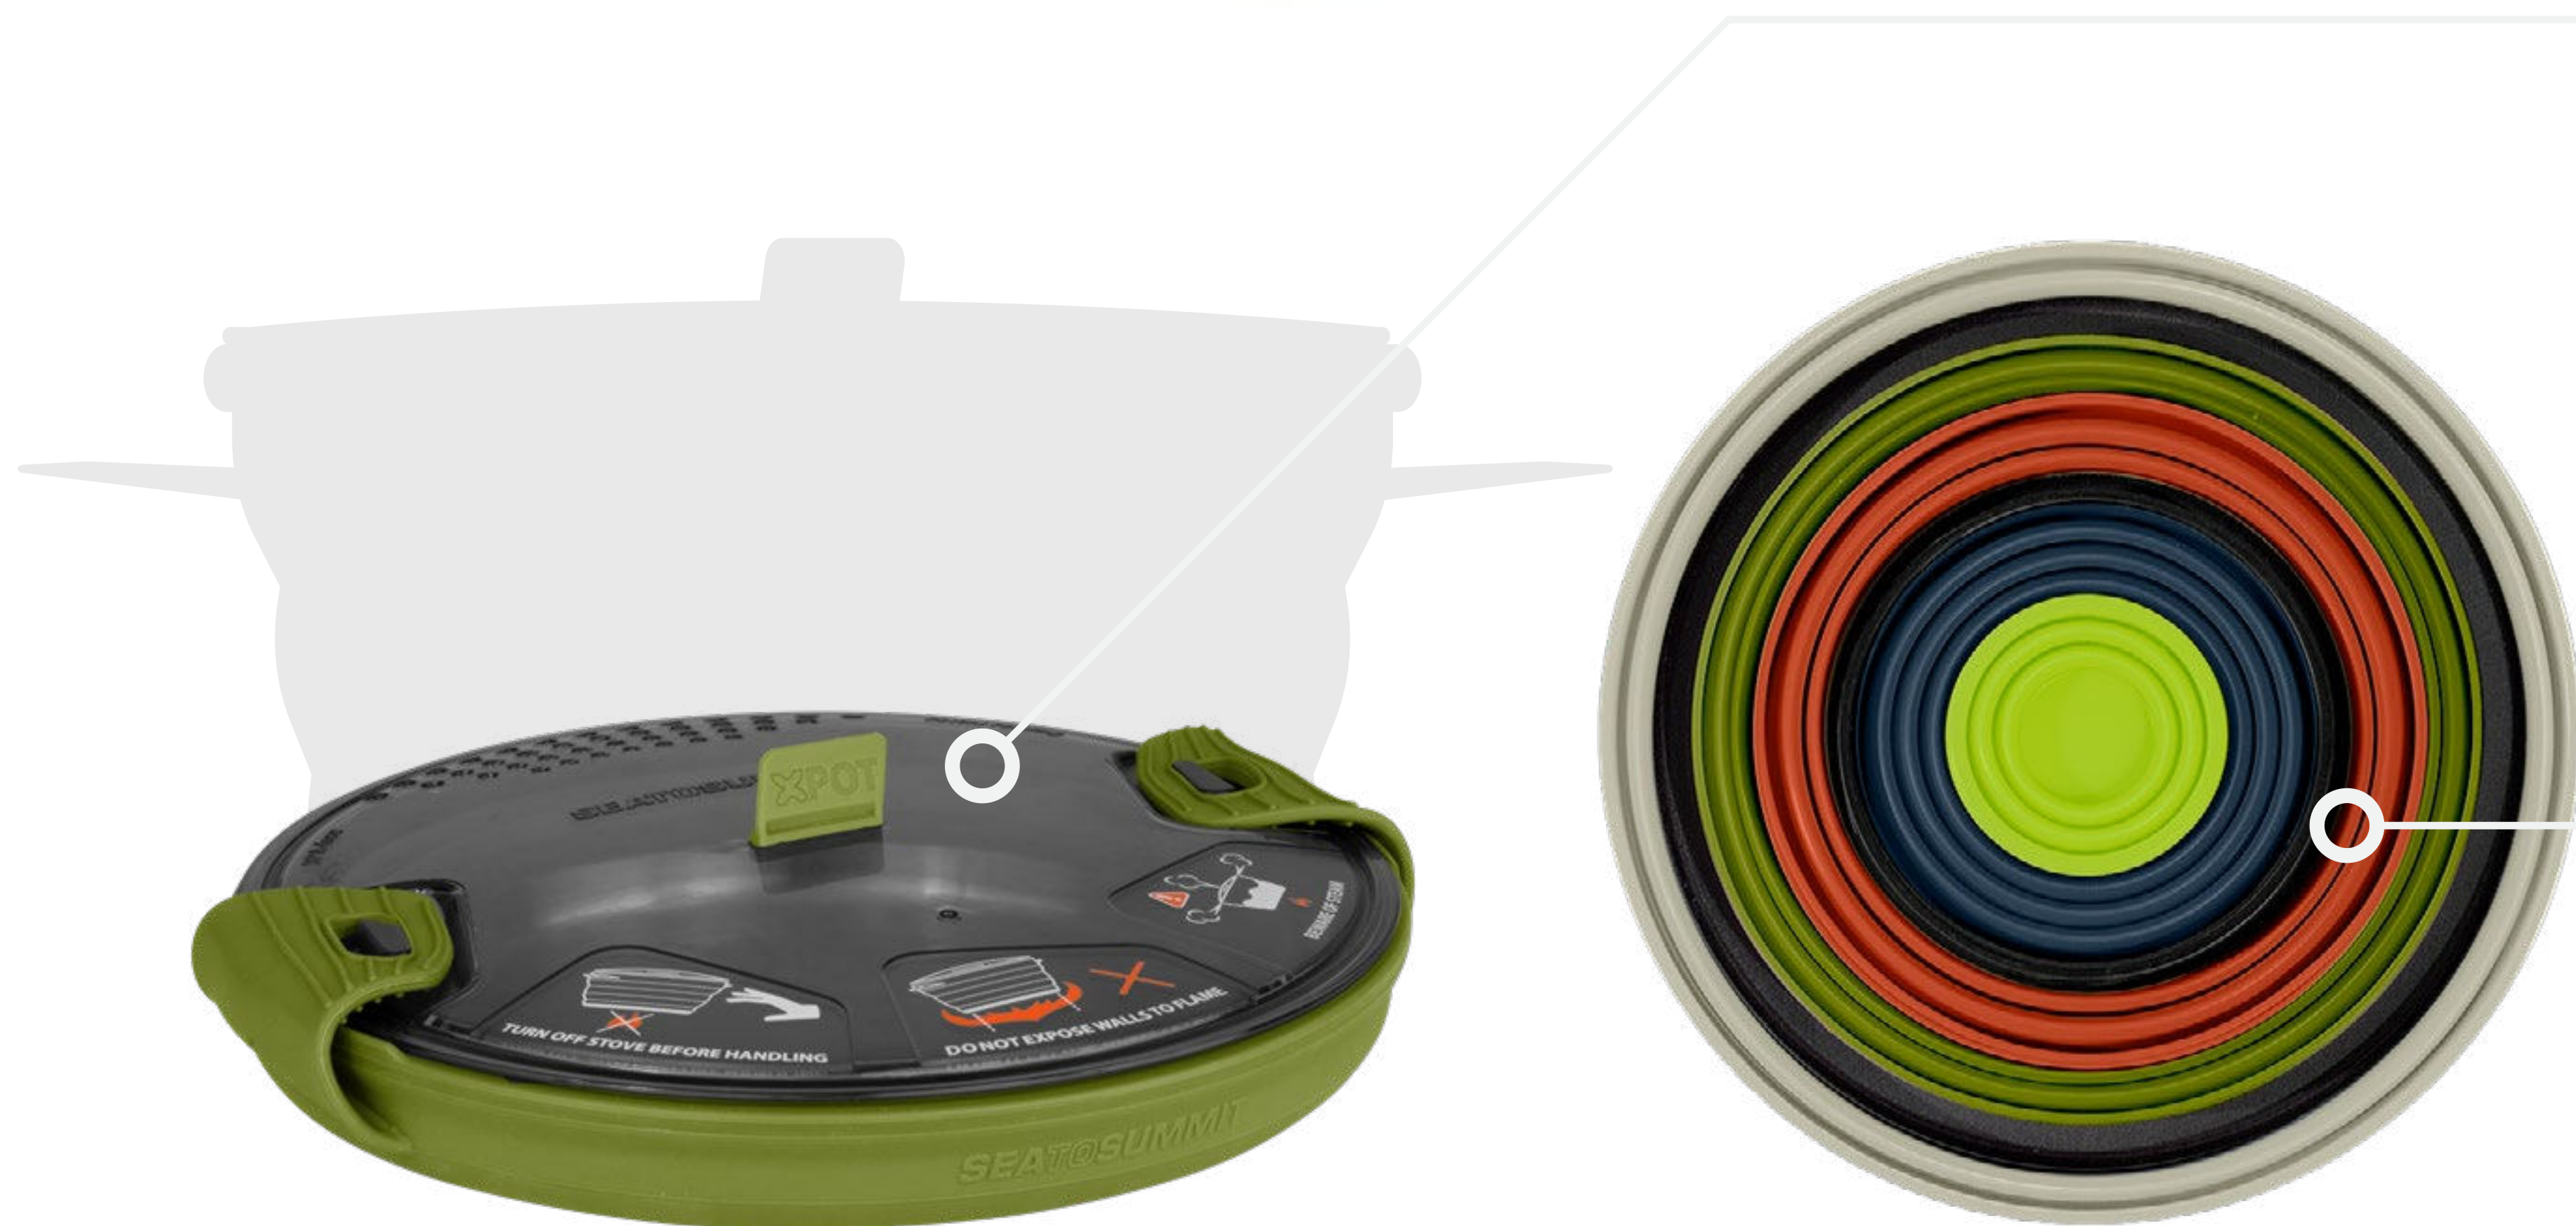

EASY TRANSPORT

Silicone handles secure the lid to the pot for transport.

BPA FREE

HARD ANODISED ALUMINIUM

FOOD GRADE HEAT RESISTANT SILICONE

X-POT

Our X-Pots are the perfect solution for consumers who are light on storage space but who still want to cook real food in the backcountry.

SIZES 1.4L / 2.8L / 4.0L

COLOURS    

X-PAN 8 INCH

This 8-inch pan offers a low profile, space-saving design that fits neatly together with the 2.8L X-Pot in a nesting pot/pan system.

FEATURES

- Stiff and non-corrosive stainless steel handles fold up for use and down for transport

COLOURS 

X-POT KETTLE

Is it a pot or is it a kettle? It's both—and now available in two sizes. The perfect all-in-one flat-pack solution for fast and light adventures.

FEATURES

- A silicone strap secures the lid and handles during transport

SIZES 1.3L / 2.0L

COLOURS   

X-BREW COFFEE DRIPPER

For the environmentally minded backcountry barista: a collapsible coffee dripper with super-fine stainless steel filter—no need for single-use paper filters!

WATERCELL X

Ditch the awkward jerry-can or plastic water container and embrace the Watercell X, your durable soft-sided water storage solution for any adventure.

We've provided multiple lash, carry and hang options, a cap that lets you fine-tune flow-control and a baffled design that makes for easy packing when full.

The wide-mouth opening is easy to fill and uses a standard thread to make it compatible with most common water filtration systems. And when not in use it folds away to a minimal size that barely takes up any room in your pack, kayak or vehicle.

FEATURES

- Strong RF-welded 3D shape with internal baffle for ease of use and compact packing

SIZES 4L / 6L / 10L / 20L

WATERCELL ST

Minimalist, strong and pliable, your streamlined water storage solution for lightweight adventures.

FEATURES

- Strong RF-welded 3D shape with internal baffle for ease of use and compact packing
- Screw-top standard wide-mouth opening

SIZES 4L / 6L / 10L

PACK TAP

Bulk water on tap—ideal for groups, sea kayaking or whenever you have to carry a lot of water.

FEATURES

- Double layer, tough Mylar bladder
- Easy one-handed valve operation
- Bladder can be easily and cheaply replaced to maximise life span of product

CLEANING WIPES	LIQUID SOAPS	PAPER SOAPS
		

WILDERNESS WIPES

Wilderness Wipes will clean and refresh you when a shower, or even just water, isn't a possibility. The extra thick viscose non-woven fibre is soft and gentle on your skin, pH balanced and readily compostable after use.

FEATURES

- Resealable packet

SIZES COMPACT / XL

WILDERNESS WASH

Our super-concentrated Wilderness Wash goes a long way—it’s gentle on fabrics and skin but effective on dishes and laundry stains.

FEATURES

- Super-concentrated biodegradable formula
- Tough bottle with lid insert and secure cap, so it will not leak in your pack or bag
- Safe for personal use, pots, pans, clothes and outdoor gear

SIZES 50ML / 100ML / 250ML

TREK AND TRAVEL LIQUID SOAPS

Fitting easily into cabin baggage or an expedition pack, our Trek & Travel Liquid Soaps will spruce up everything from hair and body to clothes. The made-to-travel, leak-proof bottle is TSA carry-on compliant and the biodegradable formula is environmentally friendly.

FEATURES

- Ideal for travelling and camping
- Concentrated formula

SIZES 100ML

TREK AND TRAVEL
POCKET SOAPS

These palm-sized pocket soaps will spruce up everything from hair, to body, to clothes.

- FEATURES
- Biodegradable and Environmentally friendly

SIZES 50 LEAVES

WILDERNESS WASH
POCKET SOAP

Multi-purpose outdoors dry leaf wash—leak-free convenience anywhere.

- FEATURES
- Fragrance-free and biodegradable

MOSQUITO HEADNET

ULTRA-MESH
MOSQUITO HEADNET

HEAD NETS

OUR HEAD NETS FEATURE:

MAXIMUM VISIBILITY

Black mesh offers better visibility than white mesh.

COMFORTABLE

Made with soft fibres.

EASY TO USE

Elasticised neck drawcord closure.

HANDY STORAGE

Packaged in a handy stuff sack or pouch.

HEAD NET

When the bugs are thick, wearing a head net is the answer.

FEATURES

- Fine woven 80 hole/cm² hexagonal mesh
- Wide enough to wear with a hat or without

80 HOLES per cm²

15D ULTRA-MESH

ULTRA-MESH HEAD NET

Keep even the smallest insects at bay—including no-see-ums, sand-flies and midgees.

FEATURES

- Ultra-fine 310 hole/cm² (2000 holes/in²) hexagonal mesh

310 HOLES per cm²

15D ULTRA-VIS

NANO HEAD NET

No one wants bugs on their face—this tiny head net is the answer.

FEATURES

- 15D Ultra-Vis 80 hole/cm² hexagonal mesh
- Lightest and smallest insect head net available

INSECT PROTECTION SHELTERS

INSECT PROTECTION SHELTERS

Permethrin
Treated Mosquito Nets

OUR INSECT PROTECTION SHELTERS FEATURE:

MAXIMUM VISIBILITY

Black mesh offers better visibility than white mesh.

MOSQUITO PROTECTION

Minimum 80 holes/cm² = far finer than WHO recommendations for mosquito protection.

EASY SET UP

Colour coded corners for easy setup and elasticised hanging cord minimises snagging and aids in height adjustment.

PRACTICAL

Asymmetrical hanging point gives practical headroom, while elasticised hem secures net under mat for extra protection.

HANDY STORAGE

Individual stuff sacks to help keep your gear organised.

NANO MOSQUITO PYRAMID NET

Ultra-lightweight and compact protection from mosquitoes and other bugs.

WATERSPORTS

WATERSPORTS

WATERSPORTS HAVE NEVER BEEN MORE ENJOYABLE.

STORAGE TO WATERLINE

Continuously tested in the Australian outback and other demanding environments worldwide, Sea to Summit has all the essentials for paddling adventures, whatever the situation or season.

TRANSPORT SOLUTIONS FROM CAR PARK TO LAUNCH

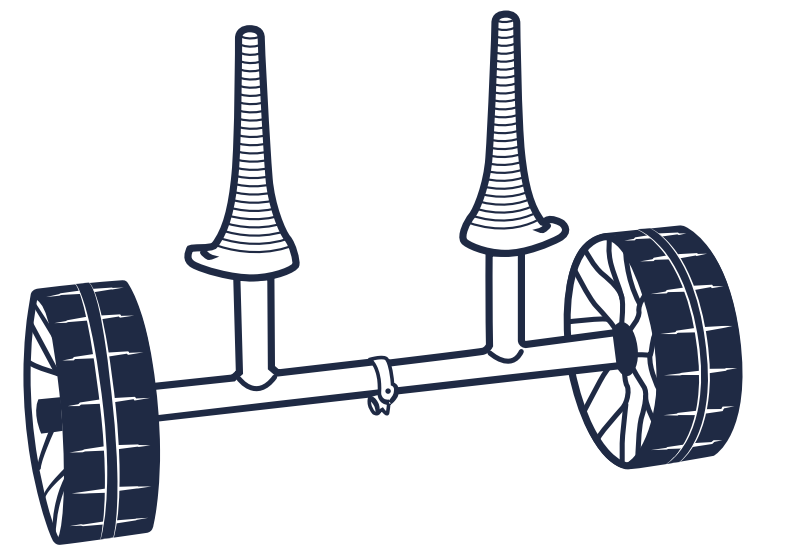

Our Carts and Sit-on-Top Carts make moving your canoe or kayak simple, whether it is a couple of hundred meters from your parking place, or a kilometer or two on a portage.

WATERPROOF DECK ORGANISATION

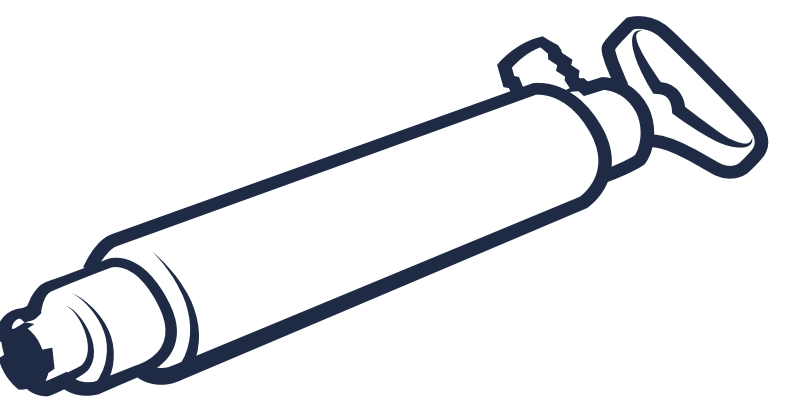

Our products provide easy access to on-the-water essentials and waterproof storage solutions for the deck of a SUP or similar craft.

SAFETY AND ACCESSORIES

From paddles that remain attached to your craft if you lose your grip, to pumps that quickly remove water, to paddle floats with built-in whistles to seek help and storage bags that keep your gear dry.

Sling your watercraft onto your wall with ease.

FEATURES

- Simple design allows a single person to easily access and store their craft
- Ideal for SUPs and surfboards
- Great for indoor and outdoor applications
- Easy to install—complete mounting hardware and instructions included

AQUARACKS

Aquaracks can accommodate virtually any paddle craft on the market and allow for storage at almost any angle without causing damage. They are a great way to store your boats in the garage, gear shed or favourite room at home.

FEATURES

- Specially designed padded arms prevent damage or depressions to the hull and finish
- Suitable for indoor or outdoor applications

PADDLE ACCESSORIES

EXPLORE THE RANGE

SAFETY GEAR		WATERPROOF DECK BAGS	PERSONAL
			
PADDLE KEEPER	BILGE PUMP	ACCESS DECK BAG	ECLIPSE GLOVES
			
PADDLE LEASH	PADDLE FLOAT	SUP DECK BAG	

PADDLE KEEPER

Our Paddle Keeper is the perfect solution for keeping your paddle attached to your kayak or canoe when resting, fishing or during the occasional swim. Can also be used as a fishing rod lanyard.

FEATURES

- Suits standard shaft diameter range of 28–32mm
- Double hook-and-loop paddle shaft attachment that doubles back for enhanced security

PADDLE LEASH

Lightweight paddle leash for both sea and kayak fishing.

FEATURES

- Stretchy inner cord for more flexibility
- Hook-and-loop closure on durable, non-slip strap for security

BILGE PUMP

A must have for any open water paddler, our Bilge Pump is a quick and effective way to empty water from your kayak or canoe.

FEATURES

- High-volume, double action pump extracts 400ml per pump
- Full-length high visibility foam with reflective logo aids recovery

INFLATABLE PADDLE FLOAT

This single chamber inflatable paddle float can be used in conjunction with a paddle to stabilise a kayak in the event of a capsize, making re-entry easier.

FEATURES

- Easy access from deck during emergency - just pull the red tab

ACCESS DECK BAG

Our Access Deck Bag offers easy access to essentials like a camera, sunscreen, and snacks without exiting your kayak. With two different systems, it's also super simple to attach without needing to add any cord or extra attachment points.

FEATURES

- Curved, water-resistant zip
- A 70D drybag is also secured internally to provide complete waterproofness for the internal contents.
- Two methods of securing to your kayak: hook-and-loop strips on the base, or side release buckles on the sides

SUP DECK BAG

While it was designed for Stand Up Paddleboards, there's also no reason to limit yourself to SUPs—this bag is equally useful on all manner of kayaks, boats, and rafts.

FEATURES

- Non-wicking roll-top closure
- Lash points can be secured to your craft with 3M brand self-adhesive.
- Strong durable loops for attaching gear externally

ECLIPSE GLOVES

Grab your fingerless Eclipse Gloves for excellent UV protection when paddling.

FEATURES

- UPF50+ for protection against the sun
- 2mm neoprene cuff with hook-and-loop closure helps maintain flexibility in the wrist
